mation required by s. 501.916; however, the department may by regulation establish labeling and other reasonable requirements for the sale of a properly registered antifreeze from a bulk container into a container supplied by or for the purchaser.

(6) Use the term "ethylene glycol" in connection with the name of a product which contains other glycols unless it is qualified by the word "base" or "type" or some such word and unless the product meets the following requirements:

(a) It consists essentially of ethylene glycol.

(b) If it contains suitable glycols other than ethylene glycol, that no more than a maximum of 15 percent of such other glycols be present.

(c) It contains a minimum total glycol content of 93 percent by weight.

(d) The specific gravity is corrected to give reliable freezing-point readings on a commercial ethylene glycol-type hydrometer.

(e) The freezing point of 50 percent by volume of the antifreeze shall not be above  $-34^{\circ}\text{F}$ .

(7) Refill any container bearing a registered label, other than a customer's container, without first obtaining permission from the registrant.

(8) Refuse, when requested, to permit a purchaser to see the container from which antifreeze is drawn for installation into the purchaser's vehicle.

(9) Distribute any antifreeze for which a practical, rapid means for measuring the freeze protection by the user is not readily available, whether by hydrometer or other means.

(10) Disseminate any false or misleading advertisement relating to an antifreeze product.

History.—s. 8, ch. 78-199.

#### 501.919 Enforcement; stop-sale order.—

(1) When the department finds any antifreeze being distributed in violation of s. 501.918 or of any of the rules duly promulgated and adopted under this act, the department shall issue and enforce a written "stop-sale" order, warning the distributor not to dispose of any of the lot of antifreeze in any manner until written permission is given by the department or the court. Copies of such orders shall also be sent to the registrant and to the person whose name and address appears on the labeling of the antifreeze. The department shall release for distribution the lot of antifreeze under a stop-sale order when s. 501.918 and applicable rules have been complied with. If compliance is not obtained within 30 days, the department may begin proceedings for confiscation.

(2) Any lot of antifreeze not in compliance with said provisions and rules shall be subject to confiscation upon complaint of the department, or any of its agents, to the circuit court in the county in which said antifreeze is located. In the event the court finds the antifreeze to be in violation of this act, it may then order the condemnation of the antifreeze, and the same shall be disposed of in any manner consistent with the rules of the department and the laws of the state.

(3) Nothing in this act shall be construed to require the department to report for prosecution or for

institution of libel proceedings any minor violations of the act whenever it believes that the public interest will be best served by a suitable notice of warning in writing to the registrant or the person whose name and address appears on the label.

History.—s. 9, ch. 78-199.

**501.92 Formula may be required.**—The department may, if required for the analysis of antifreeze by the laboratory designated by the department for the purpose of registration, require the applicant to furnish a statement of the formula of such antifreeze, unless the applicant can furnish other satisfactory evidence that such antifreeze is not adulterated or misbranded. Such statement need not include inhibitor or other minor ingredients which total less than 5 percent by weight of the antifreeze; and, if over 5 percent, the composition of the inhibitor and such other ingredients may be given in generic terms.

History.—s. 10, ch. 78-199.

**501.921 Standards.**—The standards, definitions, and test procedures for antifreeze shall be the same as those specified by the American Society for Testing and Materials in its "Standard Specification for Ethylene Glycol Base Engine Coolant" and designated as D 3306. The department may by rule, pursuant to chapter 120, amend such standards for antifreeze to bring the act into conformance with the most current published version of American Society for Testing and Materials Standard D 3306.

History.—s. 11, ch. 78-199.

**501.922 Violation.**—The registration with the department of any person who violates this act or fails to comply with any of the provisions of this act shall be subject to suspension or revocation. Such suspension or revocation shall be for not less than 15 days or more than 90 days. For each such violation, the department may levy a fine which shall not exceed \$5,000 per violation. If the person in violation of this act fails to pay the fine, then his registration shall be suspended for such period of time as the department may specify. All fines collected by the department shall be deposited in the General Revenue Fund.

History.—s. 12, ch. 78-199.

**501.923 Injunctive relief.**—In addition to the remedies provided in this act, and notwithstanding the existence of any adequate remedy at law, the department is hereby authorized to make application for injunction to a circuit court. Such circuit court shall have jurisdiction, upon hearing and for cause shown, to grant a temporary or permanent injunction, to be issued without bond, restraining any person from violating or continuing to violate any of the provisions of this act or from failing or refusing to comply with the requirements of this act or any rule duly promulgated under the provisions of this act.

(15) "Frozen milk concentrate" is a frozen milk product whose composition of milkfat and milk sol-

ids-not-fat is such that, when a given volume of concentrate is mixed with a given volume of water, the reconstituted product conforms to the milkfat and milk solid-not-fat requirements of whole milk. In the manufacturing process, water may be used to adjust the primary concentrate to the final desired concentration. The adjusted primary concentrate is pasteurized, packaged, and immediately frozen. This product is stored, transported, and sold in the frozen state.

(16) "Skim milk" or "nonfat milk" is milk from which sufficient milkfat has been removed to reduce its milkfat content to less than 0.5 percent. Skim milk that is in final package form for beverage use shall contain added vitamin A in such quantity that each quart of the food contains not less than 2,000 International Units thereof, within limits of good manufacturing practice, and shall contain not less than 8.25 percent milk solids-not-fat.

(17) "Lowfat milk" is milk from which sufficient milkfat has been removed to produce a food having, within limits of good manufacturing practice, one of the following milkfat contents: 0.5 percent, 1 percent, 1.5 percent, or 2 percent fat. A permit is defined to be a privilege extended to any person, firm or corporation who offers for sale any milk or milk products, as defined in this chapter, in the state; provided, that grocery stores, restaurants, soda fountains and similar establishments where milk or milk products are served or sold at retail, but not processed, may be exempt from the requirements of this section.

(2) Only a person who complies with the requirements of this law shall be entitled to receive and retain such a permit. Permits shall not be transferable with respect to persons and/or locations.

(3) The department shall suspend such permit whenever it has reason to believe that a public health hazard exists, whenever the permit holder has violated any of the requirements of this law, or whenever the permit holder has interfered with the department in the performance of its duties; provided, that the department shall, in all cases except where the milk or milk product involved creates or appears to create an imminent hazard to the public health or in any case of a willful refusal to permit authorized inspection, serve upon the holder a written notice of intent to suspend permit, which notice shall specify with particularity the violations in questions and afford the holder such reasonable opportunity to correct such violations as may be agreed to by the parties, or in the absence of agreement, fixed by the department, before making any order of suspension effective. A suspension of permit shall remain in effect until the violation has been corrected to the satisfaction of the department.

(4) Upon written application of any person whose permit has been suspended, or upon application within 48 hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the department shall within 72 hours proceed to a hearing pursuant to chapter 120.

(5) Upon repeated violations, the department may revoke such permit. This section is not intended to preclude the institution of court action as provided in ss. 502.051 and 502.061.

(1) Said permit shall be issued for a period of 2 years from date of first issue upon application to the department on a form furnished by the department.

(2) To qualify for a permit, the applicant shall demonstrate a sufficiency of knowledge, ability, and

equipment to perform adequately milk fat tests.

(3) Said permit is nontransferable between persons or locations and is subject to suspension or revocation upon a showing of violation of conditions upon which the permit was issued.

(4) Each milk fat tester shall keep records of milk fat tests conducted by him for a period of 1 year, and such records shall be available for inspection by the department at all reasonable hours.

(b) In the case of concentrated milk products, the specific name of the product shall be substituted for the generic term "concentrated milk products," e.g., "homogenized concentrated milk," "concentrated skim milk," "concentrated chocolate milk," "concentrated chocolate flavored lowfat milk."

(c) In the case of flavored milk the name of the principal flavor shall be substituted for the word "flavored."

(d) In the case of cultured milk and milk products, the special type culture used may be substituted for the word "cultured," e.g., "acidophilus buttermilk," "Bulgarian buttermilk," and "yogurt."

(e) In the case of filled milk or filled milk products the specific name of the product shall be substituted for the generic term "filled milk" or "filled milk products," e.g., "homogenized filled milk," "filled skim milk," "filled chocolate milk," "filled chocolate low-fat milk," etc. Also, on the package containing any such filled milk or filled milk product

there shall be stated the amount and name of fat contained in said product.

(3) All vehicles and transport tanks containing milk or milk products shall be legibly marked with the name and address of the milk plant or hauler in possession of the contents. Tanks transporting raw milk and milk products to a milk plant from sources of supply not under the routine supervision of the department are required to be marked with the name and address of the milk plant or hauler and shall be sealed; in addition, for each such shipment, a shipping statement shall be prepared containing at least the following information:

- (a) Shipper's name, address, and permit number.
- (b) Permit number of hauler, if not employee of shipper.
- (c) Point of origin of shipment.
- (d) Tanker identity number.
- (e) Name of product.

Such statement shall be prepared in triplicate and shall be kept on file by the shipper, the consignee, and the carrier for a period of 6 months for the information of the department.

(4) The labeling information which is required on all bottles, containers or packages of milk or milk products shall be in letters of an acceptable size, kind, and color satisfactory to the department and shall contain no marks or words which are misleading.

(5) No ingredient shall be displayed on the label with more prominence than another.

(6) When the percentage of butterfat appears on the label, it shall be accurately stated in a manner as provided by rule of the department.

(7) The label of milk and milk products may include the name of the breed of cows from which such milk or milk products were produced; provided such milk or milk products contain only milk produced from the breed named on the label.

(8) Samples of labels or marks to be used on containers of milk or milk products, upon referral, will be examined by the department for compliance with law and rules.

(9) It is unlawful for any person to advertise or cause to be advertised any milk or milk product, the advertisement of which contains any assertion, representation or statement which is untrue, deceptive or misleading. This subsection shall not apply to any owner of an advertising medium or to any agent of the advertiser who in good faith publishes or causes to be published any false, deceptive or misleading information.

#### 502.042 Labeling of shelf life.—

(1) It is the legislative intent to assure continuation of the normal flow of fresh wholesome milk and milk products from farmer to the consumer by uniform regulation of the shelf life of milk and milk products throughout this state.

(2) All dairy processors shall establish, and legibly label on the package or container, in a manner prescribed by rule or regulation of the department, the maximum shelf-life period during which such products may be offered for sale, to insure consumers full disclosure of the date beyond which such product may no longer be offered for sale. For purposes of this requirement, "legibly label" means to label with conspicuous and easily legible boldface print or type in distinct contrast to the background, by color. The department shall periodically review the keeping quality of milk and milk products by scientific shelf-life studies, recognizing the different methods of pasteurization, processing, and packaging, and shall sample periodically the products of the dairy processors to determine if the shelf-life dating used by the processors complies with the minimum standards of quality.

(3) All general laws, special or local acts, general laws of limited application, county ordinances or resolutions, municipal ordinances, or municipal charter provisions authorizing regulation of the sale of milk or milk products through the establishment of shelf-life termination dates are hereby repealed and any such regulation is superseded by this section.

**History.**—s. 1, ch. 72-60; s. 2, ch. 76-282.

#### 502.051 Inspection of dairy farms and milk plants.—

(1) Each dairy farm, milk plant, receiving station, and transfer station whose milk or milk products are intended for consumption within the state or its police jurisdiction shall be inspected by the department prior to the issuance of a permit.

(2) Following the issuance of a permit, each dairy farm and transfer station shall be inspected at least once every 6 months and each milk plant and receiving station shall be inspected at least once every 3 months. Should the violation of any requirement set forth in s. 502.071 be found to exist, a second inspection shall be required after the time deemed necessary to remedy the violation, but not before 3 days; the reinspection shall be used to determine compliance with the requirements of s. 502.071. Any violation of the same requirement of s. 502.071 on such reinspection shall call for permit suspension in accordance with s. 502.031 and/or court action.

(3) One copy of the inspection report shall be handed to the operator, or other responsible person, or be posted in a conspicuous place on an inside wall of the establishment. Said inspection report shall not be defaced and shall be made available to the department upon request. An identical copy of the inspection report shall be filed with the records of the department.

(4) Every milk producer, hauler, distributor, or plant operator shall, upon request of the department, permit access of officially designated persons to all parts of his establishment or facilities to determine compliance with the provisions of this chapter. A distributor or plant operator shall furnish the de-

partment, upon request, for official use only, a true statement of the actual quantities of milk and milk products of each grade purchased and sold, and a list of all sources of such milk and milk products, records of inspections, tests, and pasteurization time and temperature records.

(5) It shall be unlawful for any person who in an official capacity obtains any information under the provisions of the chapter which is entitled to protection as a trade secret (including information as to quantity, quality, source or disposition of milk or milk products, or results of inspections or tests thereof) to use such information to his own advantage or to reveal it to any unauthorized person.

History.—s. 2, ch. 67-263; ss. 14, 35, ch. 69-106.

#### **502.052 Inspections; administrative procedures.—**

(1) **INSPECTION FREQUENCY.**—One producer inspection every 6 months or one plant inspection every 3 months is not a desirable frequency; it is instead a legal minimum. Dairy farms and milk plants experiencing difficulty meeting requirements should be visited more frequently. Inspections of dairy farms shall be made at milking time as often as possible, and of milk plants at different times of the day, in order to ascertain if the processes of equipment assembly, sanitizing, pasteurization, cleaning, and other procedures comply with the requirements of this chapter.

(2) **ENFORCEMENT PROCEDURE.**—This section provides that a dairy farm or milk plant shall be subject to suspension of permit, and/or court action, if two successive inspections disclose violation of the same requirement.

(a) Experience has demonstrated that a strict enforcement of the law leads to a better and friendlier relationship between the department and the milk industry than does a policy of enforcement which seeks to excuse violations and to defer penalty therefor. The sanitarian's criterion of satisfactory compliance should be neither too lenient nor unreasonably stringent. When a violation is discovered, the inspector should point out to the milk producer or plant operator the requirement that has been violated, discuss a method for correction, and set a time for correcting the violated requirement.

(b) The penalties of suspension or revocation of permit, and/or court action, are provided to prevent continued violation of the provisions of this chapter but are worded to protect the dairy industry against unreasonable or arbitrary action. When a condition is found which constitutes an imminent health hazard, prompt action is necessary to protect the public health; therefore, the department is authorized, in s. 502.031, to suspend the permit immediately. However, except for such emergencies, no penalty is imposed on the producer or distributor upon the first violation of any of the sanitation requirements listed in s. 502.071. A producer or distributor found violating any requirement must be notified in writing and given a reasonable time to correct the violations before an official reinspection is made. The requirement of giving written notice shall be deemed to have been satisfied by the handing to the operator or by the posting of an inspection report, as required by this section. After receipt of a notice of violation, but

before the allotted time has elapsed, the producer or distributor shall have an opportunity to appeal the sanitarian's interpretation to the department for an extension of the time allowed for correction.

(3) **CERTIFIED INDUSTRY INSPECTION.**—The department may certify industry personnel to carry out cooperatively the provisions of this chapter with respect to the supervision of dairy farms. Reports of all inspections conducted by such personnel to determine compliance with the provisions of this chapter shall be forwarded to the department. All punitive actions and all inspections for the issuance or reinstatement of permits shall be performed by the department. Industry personnel shall be certified annually by the department in accordance with the provisions of appendix B, page 100, Recommended Milk Ordinance, 1965, United States Public Health Service.

(4) **INSPECTION REPORTS.**—A copy of the inspection report shall be filed by the department and retained for at least 12 months. The results shall be entered on appropriate ledger forms. The use of a computer or other information retrieval system may be used. Examples of field inspection forms are included in appendix L, page 168, Recommended Milk Ordinance, 1965, United States Public Health Service.

History.—s. 2, ch. 67-263; ss. 14, 35, ch. 69-106.

**502.055 Dairy farms and milk plants; department jurisdiction for onsite inspections.**—It is the intent of the Legislature to eliminate, to the extent practicable, overlapping and duplicative inspections of dairy farms and milk plants as defined by s. 502.012(42) and (43), performed by the several agencies of state and local governments. In furtherance of this goal, primary responsibility and jurisdiction for all onsite inspections of dairy farms and milk plants required by this chapter shall be made by the Department of Agriculture and Consumer Services. However, the Department of Health and Rehabilitative Services and local health agencies shall cooperate with and advise the Department of Agriculture and Consumer Services in all matters relating to preservation of public health. The Department of Agriculture and Consumer Services shall designate members of the department who shall be certified by the U.S. Public Health Service, Food and Drug Administration, as state milk sanitation officers and who shall conduct routine sanitation-compliance survey ratings of milk producers and milk plants. These ratings shall be made in accordance with recommendations of the U.S. Department of Health, Education, and Welfare, Public Health Service, Food and Drug Administration, published in "Methods of Making Sanitation Ratings of Milk Sheds."

History.—s. 1, ch. 74-370; s. 2, ch. 76-235.

#### **502.061 The examination of milk and milk products.—**

(1) During any consecutive 6 months, at least four samples of raw milk for pasteurization shall be taken from each producer and four samples of raw milk for pasteurization shall be taken from each milk plant after receipt of the milk by the milk plant and prior to pasteurization. In addition, during any consecutive 6 months, at least four samples of pas-

teurized milk and at least four samples of each milk product defined in this chapter shall be taken from every milk plant. Samples of milk and milk products shall be taken while in possession of the producer or distributor at any time prior to final delivery. Samples of milk and milk products from dairy retail stores, food service establishments, grocery stores, and other places where milk and milk products are sold shall be examined periodically as determined by the department; and the results of such examination shall be used to determine compliance with ss. 502.021, 502.041 and 502.101. Proprietors of such establishments shall furnish the department, upon its request, with the names of all distributors from whom milk or milk products are obtained.

(2) Required bacterial counts, somatic cell counts, and cooling temperature checks shall be performed on raw milk for pasteurization. In addition, antibiotic tests on each producer's milk or on commingled raw milk shall be conducted at least four times during any consecutive 6 months. When commingled milk is tested, all producers shall be represented in the sample. All individual sources of milk shall be tested when test results on the commingled milk are positive. Required bacterial counts, coliform determinations, phosphatase and cooling temperature checks shall be performed on pasteurized milk and milk products.

(3) Whenever two of the last four consecutive bacteria counts, somatic cell counts, coliform determinations, or cooling temperatures, taken on separate days, exceed the limit of the standard for the milk and/or milk products, the department shall send a written notice thereof to the person concerned. This notice shall be in effect so long as two of the last four consecutive samples exceed the limit of the standard. An additional sample shall be taken within 14 days of the sending of such notice, but not before the lapse of 3 days. Immediate suspension of permit in accordance with s. 502.031 and/or court action shall be instituted whenever the standard is violated by three of the last five bacteria counts, somatic cell counts, coliform determinations, or cooling temperatures.

(4) Whenever a phosphatase test is positive, the cause shall be determined. Where the cause is improper pasteurization, it shall be corrected; and any milk or milk product involved shall not be offered for sale.

(5) Samples shall be analyzed at an official or appropriate officially designated laboratory. All sampling procedures and required laboratory examinations shall be in substantial compliance with the Standard Methods for the Examination of Dairy Products of the American Public Health Association and the Official Methods of Analyses of the Association of Official Agricultural Chemists, as provided by rule of the department. Such procedures and examinations shall be evaluated in accordance with the methods of evaluating milk laboratories recommended by the United States Public Health Service. Examinations and tests shall be conducted to detect adulterants, including pesticides, as the department may require. Assays of vitamin D milk or milk prod-

ucts shall be made at least annually in a laboratory acceptable to the department.

History.—s. 2, ch. 67-263; ss. 14, 35, ch. 69-106; s. 1, ch. 71-210; s. 1, ch. 79-39.

#### 502.062 Enforcement; administrative procedures.—

(1) ENFORCEMENT PROCEDURES.—All violations of bacteria, somatic cell, coliform, and cooling temperature standards shall be followed promptly by inspection to determine and correct the cause. (See appendix E, examples of 3-out-of-5 compliance enforcement procedures. Recommended Milk Ordinance, 1965, United States Public Health Service.) All violations of bacterial, somatic cell, coliform, and cooling temperature standards shall be followed promptly by inspection to determine and correct the cause.

(2) LABORATORY TECHNIQUES.—Procedures for the collection and holding of samples; the selection and preparation of apparatus, media and reagents; and the analytical procedures, incubation, reading, and reporting of results, shall be in substantial compliance with standard methods for the examination of dairy products and the official methods of analyses. The procedures shall be those specified therein for:

- (a) Standard plate count at 32°C.
- (b) Simplified methods for viable counts of raw milk at 32°C.
- (c) Somatic cell count.
- (d) Coliform test with solid media at 32°C.
- (e) Disc assay methods for antibiotics.
- (f) Apha or aoac phosphatase tests.

The phosphatase test is an index of the efficiency of the pasteurization process. In the event the laboratory phosphatase test is positive, the cause shall be determined immediately. When the cause is improper pasteurization, it shall be corrected. When a laboratory phosphatase test is positive, or if any doubt should arise as to the compliance of the equipment, standards or methods outlined in s. 502.071(3)(e) and (p), the department should immediately conduct field phosphatase tests at the plant (appendix G, page 134, Recommended Milk Ordinance, 1965, United States Public Health Service.) The direct microscopic count is useful as a screening test to detect suspicious tanker loads of milk for subsequent official examinations, and to determine the possible presence of abnormal milk.

(3) SAMPLING PROCEDURES.—When samples of raw milk for pasteurization are taken at a milk plant prior to pasteurization, they shall be drawn following adequate agitation from randomly selected storage tanks.

(a) When bacterial counts, somatic cell counts, and temperature determinations are made of several samples of the same milk or milk products collected from the same supply or processor, on the same day, these values are averaged arithmetically, and the results recorded as the count or temperature determinations of the milk or the milk product for that day. All counts and temperatures should be recorded on the milk-ledger form PHS 1784 (or a similar form) for dairy farms, and form PHS 1782 (or a similar form) for milk plants as soon as reported by the laboratory.

(b) The use of a computer or other information retrieval system may be used. (See appendix G, page 135, Recommended Milk Ordinance, 1965, United States Public Health Service, for a reference to antibiotics in milk and the conditions under which a positive phosphatase reaction may be encountered in properly pasteurized milk or cream.)

(c) The industry should be encouraged by the department to achieve day-to-day compliance with the foregoing standards by performing tests on each producer's milk, including platform tests for odors, temperature, and sediment. Bacterial counts should be conducted following laboratory pasteurization as a check for thermophilic organisms. Examinations for the presence of psychrophilic bacteria are also recommended. Periodic screening tests for presence of added water, antibiotics, and pesticide residues should be performed on producer milk. Plants should reject milk of abnormal odor and high temperature as well as milk that is found to be unsatisfactory by the sediment test. Follow-up inspections on the dairy farm should be made by the plant fieldman to determine the cause and to institute corrective measures whenever milk is rejected by the milk plant.

History.—s. 2, ch. 67-263; ss. 14, 35, ch. 69-106; s. 2, ch. 71-210.

**502.071 Standards for milk and milk products.**—All grade A raw milk for pasteurization and all grade A pasteurized milk and milk products shall be produced, processed, and pasteurized to conform with the following chemical, bacteriological, somatic cell, and temperature standards, and the sanitation requirements of this section. No process or manipulation other than pasteurization, processing methods integral therewith, and appropriate refrigeration shall be applied to milk and milk products for the purpose of removing or deactivating microorganisms. However, the use of sorbates and its salts may be permitted in creaming mixtures for cottage cheese; and safe and suitable ingredients that improve texture, prevent syneresis, or extend the shelf life may be used in those cultured products presently allowed by federal regulations.

Whenever the findings in the report of any survey, investigation or inquiry made by the Department of Agriculture and Consumer Services or the Department of Health and Rehabilitative Services show any hazard to public health existing, incident to the production, processing or dis-

tribution of milk and milk products, the Department of Agriculture and Consumer Services shall take such action as may be necessary and within the scope of the resources of the Department of Agriculture and Consumer Services, to remove such hazard; provided, that nothing herein contained shall limit the authority of the Department of Health and Rehabilitative Services to take immediate action when it appears necessary in the interest of public health.

(1) **LICENSES; ANNUAL RENEWALS.**—Each public lodging establishment and each public food service establishment shall obtain a license from the division. #### **§509.242 Public lodging establishments; classifications.—**

(1) A public lodging establishment which desires a specific classification (apartment, hotel, motel, apartment hotel, apartment motel, etc.) may apply therefor and receive a specific classification from the division, if the establishment satisfies the following criteria, as appropriate to the classification sought:

(a) **Hotel.**—Any public lodging establishment containing sleeping room accommodations for 25 or more guests and providing the services generally provided by a hotel and recognized as a hotel in the community in which it is situated or by the industry is a hotel.

(b) **Apartment hotel.**—Any public lodging establishment which meets the requirements of a hotel, but which also has units with kitchen equipment and housekeeping facilities, is an apartment hotel.

(c) **Motel (Motor hotel, motor court, court, tourist court, motor lodge, etc.).**—Any public lodging establishment which offers rental units easily accessible to guests with an exit to the outside of each rental unit, daily or weekly rates, off-street parking for each unit, a central office on the property with specified hours of operation, a bath or connecting bath for each rental unit, and at least six rental units, recognized as a motel in the community in which it is situated and by the industry, is a motel.

(d) **Apartment motel.**—Any public lodging establishment which meets the requirements of a motel, but which has at least 40 percent of the units as apartments with kitchen facilities, is an apartment motel. A motel with less than 40 percent of its units in apartments is a "motel with apartments."

(e) **Resort motel, beach motel, fishing camp motel.**—Any public lodging establishment requesting any such classification shall meet the requirements of a motel and may have both motel rooms and apartment units.

(f) **Apartment.**—Any public lodging establishment intended for living accommodations, each with or without kitchen equipment and housekeeping facilities, and providing the services generally provided by an apartment house and recognized as an apartment house in the community in which it is situated or by the industry is an apartment house.

(g) **Rooming houses, guest houses, cabins.**—Any public lodging establishment not within the foregoing classifications shall be classified as a rooming house, a guest house, cabins, a tourist camp, or otherwise according to choice, but shall not be allowed a classification that could be confused with one of the foregoing. Converted dwelling houses, unless they can qualify for another classification, shall be classified under this paragraph.

(2) If 25 percent or more of the units in any public lodging establishment fall within a classification different from the classification applicable to the establishment, such establishment shall obtain a sepa-

rate classification for such 25 percent or more units, unless otherwise provided herein. When an establishment has a different classification of units in a separate building which is operated in connection with the principal establishment and is in the immediate vicinity, such as a hotel with a motel section, two classifications shall be required.

(3) A public lodging establishment may advertise or display signs which advertise a specific classification, provided it has applied for and received the specific classification and it fulfills the requirements of that classification.

**History.**—s. 2, ch. 57-824; s. 2, ch. 61-81; ss. 16, 35, ch. 69-106; s. 3, ch. 76-168; s. 1, ch. 77-457; ss. 19, 39, 42, ch. 79-240.

#### **§509.251 License fees.—**

(1) The division shall adopt, by rule, a schedule of fees to be paid by each public lodging establishment as a prerequisite to issuance or renewal of a license. Such fees shall be based on the number of rental units in the establishment but shall not exceed \$1,000. The fee schedule shall require an establishment which applies for an initial license to pay the full license fee if application is made during the annual renewal period or more than 6 months prior to the next such renewal period and one-half of the fee if application is made 6 months or less prior to such period. The fee schedule shall also provide that each public lodging establishment under construction shall pay the same fees for inspection during such construction as it would be required to pay for inspection while in operation.

(2) The division shall adopt, by rule, a schedule of fees to be paid by each public food service establishment as a prerequisite to issuance or renewal of a license. The fee schedule shall prescribe a basic fee and additional fees based on seating capacity and services offered, but the aggregate fee charged any public food service establishment shall not exceed \$200. The fee schedule shall require an establishment which applies for an initial license to pay the full license fee if application is made during the annual renewal period or more than 6 months prior to the next such renewal period and one-half of the fee if application is made 6 months or less prior to such period. The fee schedule shall also provide that each public food service establishment under construction shall pay the same fees for inspection during such construction as it would be required to pay for inspection while in operation.

(3) The fact that a public food service establishment is operated in conjunction with a public lodging establishment does not relieve the public food service establishment of the requirement that it be separately licensed as a public food service establishment.

**History.**—ss. 6, 7, ch. 69-52, 1915; RGS 2127, 2128; ss. 1, 2, ch. 12053, 1927; CGL 3356, 3357; ss. 9-12, ch. 16042, 1933; ss. 2, 3, ch. 17062, 1935; CGL 1936 Supp. 3356(1), 3357(1); ss. 1, 2, ch. 28276, 1953; ss. 2-5, ch. 29820, 1955; s. 1, ch. 57-272; s. 1, ch. 61-353; ss. 1, ch. 63-350; ss. 1, 2, ch. 67-221; ss. 16, 35, ch. 69-106; ss. 1, 2, ch. 72-228; s. 4, ch. 75-184; s. 3, ch. 76-168; s. 1, ch. 77-457; ss. 20, 39, 42, ch. 79-240.

#### **§509.261 Revocation or suspension of licenses; fines; procedure.—**

(1) The division may suspend or revoke the license of any public lodging establishment or public food service establishment that has operated or is operating in violation of any of the provisions of this chapter or the rules of the division; such public lodging establishment or public food service establishment shall remain closed while its license is suspended or revoked.

(2) In lieu of the suspension or revocation of licenses, the division may impose fines against licensees for such violations. No fine so imposed shall exceed \$500 for each offense, and all amounts collected shall be deposited with the Treasurer to the credit of the Hotel and Restaurant Trust Fund.

(3)(a) No license shall be suspended under this section for a period of more than 12 months. At the end of such period of suspension, the establishment may apply for reinstatement or renewal of the license. A public lodging establishment or public food service establishment, the license of which is revoked, may not apply for another license prior to the date on which the revoked license would have expired. No new license shall be issued to the licensee or to any other firm in which the licensee or any of its stockholders is interested during the term of such suspension or revocation.

(b) The division may suspend or revoke the license of any public lodging establishment or public food service establishment if the operator knowingly lets, leases, or gives space for unlawful gambling purposes or where unlawful gambling is to be carried on in such establishment or in or upon any premises which are used in connection with, and are under the same charge, control, or management as, such establishment. The suspension or revocation shall be of the license in effect at the date of such suspension or revocation, even though it may have been issued to a licensee other than the person who held the license at the time the cause for such suspension or revocation arose.

(c) Notice of intended suspension or revocation under paragraph (b) shall be given within 60 days after the cause for suspension or revocation arises.

(4) The division may suspend or revoke the license of any public lodging establishment or public food service establishment when:

(a) Any person interested in the operation of any such establishment, within the preceding 5 years in this state, any other state, or the United States, has been adjudicated guilty of or forfeited a bond when charged with soliciting for prostitution, pandering, letting premises for prostitution, keeping a disorderly place, illegally dealing in narcotics, or any other crime reflecting on professional character.

(b) Such establishment has been condemned by the local health authority for failure to meet sanitation standards or the premises have been condemned by the local authority because the premises are unsafe and unfit for human occupancy.

(3) A statement that the operator has reasonably attempted to get the guest to pay his account, either through confronting the guest or by a lockout pursuant to s. 509.401, and that the guest has failed to make any payment or that the guest has vacated the premises without paying his outstanding account.

(4) A statement that the account is outstanding and unpaid by the guest; the means by which the guest accumulated the account; and the cause of such nonpayment according to the best knowledge, information, and belief of the plaintiff.

(5) A general statement as to what property the plaintiff is requesting levy against and the authority under which the plaintiff has a lien against such property.

(1) A prejudgment writ of distress may issue and the property seized may be delivered forthwith to the plaintiff when the nature of the claim, the amount thereof, and the grounds relied upon for the issuance of the writ clearly appear from specific facts shown by the verified petition or by separate affidavit of the plaintiff.

(2) The prejudgment writ of distress may issue if the court finds, pursuant to subsection (1), that the defendant is engaging in, or is about to engage in, conduct that may place the claimed property in danger of destruction, concealment, removal from the state, removal from the jurisdiction of the court, or transfer to an innocent purchaser during the pendency of the action and that the defendant has failed to make payment as agreed.

(3) The plaintiff shall post bond in the amount of twice the estimated value of the goods subject to the writ or twice the balance of the outstanding account, whichever is the lesser as determined by the court, as security for the payment of damages the defendant may sustain if the writ is wrongfully obtained.

(4) The defendant may obtain release of the property seized under a prejudgment writ of distress by posting bond with surety within 10 days after service of the writ, in the amount of one and one-fourth the claimed outstanding account, for the satisfaction of any judgment which may be rendered against him, conditioned upon delivery of the property if the judgment should require it.

(5) A prejudgment writ of distress shall issue only upon a signed order of a circuit court judge or a county court judge. The prejudgment writ of distress shall include a notice of the defendant's right to immediate hearing before the court issuing the writ.

(6) As an alternative to the procedure prescribed in subsection (4), the defendant, by motion filed with the court within 10 days after service of the writ, may obtain the dissolution of a prejudgment writ of distress, unless the plaintiff proves the grounds upon which the writ was issued. The court shall set such motion for an immediate hearing.

If the property is not so found but is in another jurisdiction, he shall deliver the writ to the proper officer in the other jurisdiction, and the other officer shall execute the writ by levying on such property and delivering it to the officer of the court in which the action is pending, to be disposed of according to law, unless he is ordered by such court to hold the property and dispose of it in his jurisdiction according to law. If defendant can-

not be found, the levy on the property suffices as service on him, if the plaintiff and the officer each file a sworn statement stating that he does not know the whereabouts of the defendant.

If the defendant cannot be found, the officer shall hold all items of property. The officer shall release the property only pursuant to law or a court order.

(2) After the judgment is rendered, the plaintiff, at his option, may have a writ of possession for the property and execution for his costs or have execution against defendant and his surety for the amount recovered and costs. If he elects to have a writ of possession for the property and the officer returns that he is unable to find it or any of it, the plaintiff may immediately have execution against the defendant and his surety for the whole amount recovered less the value of any property found by the officer. If he has execution for the whole amount, the officer shall release all property taken under the writ of possession.

(3) In any proceeding to ascertain the value of the property so that judgment for the value may be entered, the value of each article shall be found. It shall not be necessary to ascertain the value of each article of a lot of goods, wares, or merchandise when it has been distrained, but it shall be sufficient to ascertain the total value of the entire lot found.

**516.03 Application for license; fees; etc.**—

(1) **APPLICATION.**—Application for a license to make loans under this chapter shall be in writing, under oath, and in the form prescribed by the department, and shall contain the name, residence and business addresses of the applicant and, if the applicant is a copartnership or association, of every member thereof and, if a corporation, of each officer and director thereof, also the county and municipality with the street and number or approximate location where the business is to be conducted, and such further relevant information as the department may require. At the time of making such application the applicant shall pay to the department the sum of \$175 as an annual license fee for a period terminating on the last day of the current calendar year, and a further fee of \$200 for investigating the application and the applicants.

(2) **FEES.**—Fees herein provided for shall be collected by the department and shall be turned into the State Treasury to the credit of the regulatory trust fund under the Division of Finance of the department. **History.**—s. 2, ch. 10177, 1925; CGL 4000; s. 1, ch. 20728, 1941; s. 127, ch. 26869, 1951; s. 3, ch. 57-201; ss. 12, 35, ch. 69-106; s. 138, ch. 71-355; s. 3, ch. 73-192; s. 3, ch. 73-326; s. 144, ch. 79-164.

**516.031 Finance charge; maximum rates.**—

(1) **INTEREST RATES.**—Every licensee may lend any sum of money not exceeding \$2,500. A licensee may not take a security interest secured by land on any loan less than \$1,000. The licensee may charge, contract for, and receive thereon, interest

charges as provided and authorized by this section. The maximum interest rate shall be 30 percent per annum, computed on the first \$500 of the principal amount as computed from time to time; 24 percent per annum on that part of the principal amount as computed from time to time exceeding \$500 and not exceeding \$1,000; and 18 percent per annum on that part of the principal amount as computed from time to time exceeding \$1,000. The original principal amount as used in this section shall be the same amount as the amount financed as defined by the Federal Truth-In-Lending Act and Regulation Z of the Board of Governors of the Federal Reserve System. In determining compliance with the statutory maximum interest and finance charges set forth herein, the computations utilized shall be simple interest and not add-on interest or any other computations.

(2) **ANNUAL PERCENTAGE RATE UNDER FEDERAL TRUTH-IN-LENDING ACT.**—The annual percentage rate of finance charge which may be contracted for and received under any loan contract made by a licensee under this chapter may equal, but not exceed, the annual percentage rate which must be computed and disclosed as required by the Federal Truth-In-Lending Act and Regulation Z of the Board of Governors of the Federal Reserve System. The maximum annual percentage rate of finance charge which may be contracted for and received is 12 times the maximum monthly rate and the maximum monthly rate shall be computed on the basis of one-twelfth of the annual rate for each full month. The department shall by regulation establish the rate for each day in a fraction of a month when the period for which the charge is computed is more or less than one month.

(3) **OTHER CHARGES.**—In addition to the interest and insurance charges herein provided for, no further or other charges or amount whatsoever for any examination, service, brokerage, commission, or other thing or otherwise shall be directly or indirectly charged, contracted for, or received, except the documentary excise tax and lawful fees, if any, actually and necessarily paid out by the licensee to any public officer for filing, recording, or releasing in any public office any instrument securing the loan, which fees may be collected when the loan is made or at any time thereafter, or actual and reasonable attorney fees as determined by the court in which suit is filed and court costs, including actual and reasonable expenses of repossession, storing, and selling of any property pledged as security, as determined by the court in which suit is filed. If interest or charges in excess of those permitted by this chapter shall be charged, contracted for, or received, the contract or loan shall be void and the licensee shall have no right to collect or receive any remaining principal, interest, or charges whatsoever. In the event of a bona fide error, the licensee shall refund or credit the borrower with the amount of such overcharge within 5 days of the discovery of such error.

(4) **DIVIDED LOANS.**—No licensee shall induce or permit any borrower to split up or divide any loan. No licensee shall induce or permit any person, or any husband and wife, jointly or severally, to become obligated to him, directly or contingently or both,

under more than one contract of loan at the same time, for the purpose, or with the result, of obtaining a greater finance charge than would otherwise be permitted by this section.

**History.**—s. 7, ch. 73-192; ss. 1, 2, ch. 76-180; s. 190, ch. 77-104; s. 1, ch. 77-174; s. 2, ch. 79-274.

**Note.**—Section 15, ch. 79-274, provides that ch. 79-274 applies only to loans or advances of credit made on or subsequent to July 1, 1979, and shall not be construed as diminishing the force and effect of any laws applying to loans or advances of credit completed prior to that date.

**516.035 Rate of interest upon default.**—In the event that any balance remains unpaid at the expiration of the scheduled maturity date of a loan, licensees may continue to charge interest on the unpaid balance at the rate provided for in s. 516.031(1) for a period not to exceed 12 months. Thereafter, the interest shall not exceed 10 percent per annum.

**History.**—s. 1, ch. 79-59.

**516.05 Issuance of license; denial; etc.**—

(1) **INVESTIGATION OF APPLICATION.**—Upon the filing of such application and the payment of such fees, the department shall make an investigation of the facts concerning the application and the requirements provided for in subsection (2). At least 10 days before entering the order granting or denying the application, it shall mail a notice of the receipt of the application to the local small loan exchange (if there be one) in the community where the applicant proposes to do business. If any licensee or registrant files an objection to the issuance of the license to said applicant, or if the department has any doubts of the applicant meeting the standards of subsection (2), it shall order a hearing on such application pursuant to chapter 120 not more than 60 days from the date of mailing such notice. In addition to such hearing, the department may make such further and other investigation relative to the application and the requirements as it may deem fit.

(2) **ISSUANCE OR DENIAL OF LICENSE.**—If the department shall find:

(a) That the financial responsibility, experience, character, and general fitness of the applicant, and of the members thereof, if the applicant is a copartnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly, and efficiently within the purposes of this chapter;

(b) That the applicant has available for the operation of such business at the specified location liquid assets of at least \$10,000, if the specified location is in a community of 25,000 or less population, according to the last United States census, or \$25,000, if the specified location is in a community of more than 25,000 population, according to said census,

it shall thereupon enter an order granting such application and issue and deliver a license to the applicant to make loans in accordance with the provisions of this chapter at the location specified in the said application (provided that nothing in this chapter shall be construed to prevent a licensee from lending to residents of any part of this state or any other state or country nor to prohibit the making of loans by mail when authorized by the department). Said

license shall remain in full force and effect until surrendered by the licensee or revoked or suspended as provided by law or as may be prohibited by the provisions of this chapter. If the department shall not so find, it shall thereupon enter an order denying such application and return the sum paid as a license fee, retaining the \$200 investigation fee to cover the cost of investigating the application.

(3) **EXISTING LICENSES; PURCHASE OF ASSETS.**—Any licensee having a license under this chapter at the effective date of this amendment shall be conclusively presumed to have established the convenience and advantage of its business to the community wherein it is licensed. In the event any person shall purchase substantially all of the assets of any existing licensed office, the purchaser, if not a licensee hereunder, upon application, shall be granted a 90-day temporary license hereunder, applicable to the same location, within 10 days of such purchase, and the department shall cause an investigation to be made as provided by subsection (1) to determine whether a license shall be issued, provided such purchaser shall not be required to meet the provisions of subsection (2)(b). Where the purchaser is a licensee hereunder the department shall issue a license within 10 days of such purchase if the purchaser meets the requirements of this chapter provided that such purchaser shall not be required to meet the requirements of subsection (2)(b) and the licensee selling such assets shall surrender its license for such location to the department.

**History.**—s. 4, ch. 10177, 1925; CGL 4002; s. 2, ch. 20728, 1941; s. 4, ch. 57-201; ss. 12, 35, ch. 69-106; ss. 4, 15, ch. 73-192; s. 2, ch. 77-256; s. 7, ch. 78-95. cf.—s. 112.011 Felons; removal of disqualifications for employment, exceptions.

#### **516.07 Revocation, reinstatement, surrender, etc., of license.—**

(1) **REVOCATION OF LICENSE.**—The department may revoke any license issued hereunder if it shall find that:

(a) The licensee has failed to pay the annual license fee or to comply with any order of the department lawfully made pursuant to and within the authority of this chapter;

(b) The licensee, either knowingly or without the exercise of due care to prevent the same, has violated any provision of this chapter or any regulation lawfully made by the department under and within the authority of this chapter; or

(c) Any fact or condition existed at the time of the original application for such license which clearly would have warranted the department in refusing originally to issue such license.

(2) **LICENSES AFFECTED BY REVOCATION OR SUSPENSION.**—The department may revoke or suspend only the particular license with respect to which ground for revocation or suspension may occur or exist, or, if it shall find that such grounds for revocation are of general application to all offices or to more than one office operated by such licensee, it shall revoke or suspend all of the licenses issued to said licensee or such licensees as such grounds apply to, as the case may be.

(3) **SURRENDER OF LICENSE.**—Any licensee may surrender any license by delivering it to the department with a written notice that he thereby surrenders it, but such surrender shall not affect his

civil or criminal liability for acts committed prior thereto.

(4) **PREEXISTING CONTRACTS.**—No revocation, suspension, or surrender of any license shall impair or affect the obligation of any preexisting lawful contract between the licensee and any borrower.

(5) **REINSTATEMENT OF LICENSE.**—Every license issued hereunder shall remain in force and effect until the same shall have been surrendered, revoked, or suspended in accordance with the provisions of this chapter, but the department shall have authority on its own initiative to reinstate suspended licenses or to issue new licenses to a person whose license or licenses have been revoked if no fact or condition then exists which clearly would have warranted the department in refusing originally to issue such license under this chapter.

**History.**—s. 6, ch. 10177, 1925; CGL 4004; s. 3, ch. 20728, 1941; ss. 12, 35, ch. 69-106; s. 7, ch. 78-95; s. 145, ch. 79-164.

**516.08 License to be posted.**—The license shall be kept conspicuously posted in the place of business of the licensee.

**History.**—s. 7, ch. 10177, 1925; CGL 4005.

#### **516.09 License, removal, other business.—**

(1) **PLACE OF BUSINESS.**—Not more than one place of business for the making of loans under this chapter shall be maintained under the same license, but the department shall issue additional licenses to the same licensee upon compliance with all the provisions of this chapter governing issuance of a single license.

(2) **REMOVAL.**—No change in the place of business of a licensee to a location outside of the original county shall be permitted under the same license. When a licensee wishes to change his place of business within the same county, he shall give written notice thereof to the department. If the department finds that the proposed location is reasonably accessible to borrowers under existing loan contracts, it shall enter an order permitting the change and shall amend the license accordingly. If the department does not so find, it shall enter an order denying the removal of the license to the requested location.

(3) **OTHER BUSINESS IN THE SAME OFFICE.**—A licensee may conduct the business of making loans under this chapter within a place of business in which other business is solicited or engaged in, unless the department shall find that the conduct of such other business by the licensee results in an evasion of this chapter. Upon such finding, the department shall order the licensee to desist from such evasion, provided, however, that no license shall be granted to or renewed for any person or organization engaged in the pawnbroker business.

**History.**—s. 8, ch. 10177, 1925; CGL 4006; s. 5, ch. 57-201; ss. 12, 35, ch. 69-106; s. 7, ch. 78-95; s. 1, ch. 79-340.

#### **516.11 Investigation by department.—**

(1) **EXAMINATIONS.**—For the purpose of discovering violations of this chapter or securing information lawfully required by it hereunder, the department may at any time investigate the loans and business, and examine the books, accounts, records, and files used therein, of every licensee and of every

person who shall be engaged in the business described in s. 516.02. If the department shall have reason to believe that any act or business is being done, or is about to be done, which is illegal under this chapter, it may make all examinations and take all steps authorized under this subsection, whether such person shall act or claim to act as principal or agent, or under or without the authority of this chapter. Any person who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value regulated by this chapter, whether as principal, agent, broker, or otherwise shall, for the purposes of this subsection, be presumed to be engaged in such business. For the purposes of this section the department and its duly designated representatives shall have and be given free access to the offices and places of business, books, accounts, papers, records, files, safes, and vaults of all such persons whether within or without the state. The department and all persons duly designated by it shall have authority to require the attendance of witnesses and to examine under oath all persons whomsoever whose testimony it may require relative to such loans or such business or to the subject matter of any examinations, investigation or hearing.

(2) **ANNUAL EXAMINATION.**—At least once each year, but no oftener than is reasonably necessary in order to verify reasonably founded suspicions of violations, the department or its duly authorized representatives shall make an examination of the place of business of each licensee and of the loans, transactions, books, papers and records of such licensee in so far as they pertain to the business licensed under this chapter. Every licensee shall pay to the department an examination fee based upon the amount of outstanding loans due the licensee at the time of said examination, as follows:

Amount Outstanding	Examination Fee
From \$0 to \$25,000 .....	\$40
From \$25,000.01 to \$50,000 .....	60
From \$50,000.01 to \$100,000 .....	90
From \$100,000.01 to \$250,000 .....	115
From \$250,000.01 and over .....	150

(3) **LIEN FOR FEES.**—The above examination fees shall be secured by a lien upon the assets of the licensee and if not paid within 30 days from and after the licensee is billed therefor by the department, the license of the licensee shall stand suspended until said examination fee is paid in full.

**History.**—s. 10, ch. 10177, 1925; CGL 4008; s. 4, ch. 20728, 1941; s. 6, ch. 57-201; ss. 12, 35, ch. 69-106; s. 5, ch. 73-192; s. 1, ch. 77-356.

#### 516.12 Records to be kept by licensee.—

(1) **BOOKS AND RECORDS.**—The licensee shall keep and use in his business such books, accounts, and records in accordance with sound and accepted accounting practices to enable the department to determine whether such licensee is complying with the provisions of this chapter and with the rules and regulations lawfully made by the department hereunder. Every licensee shall preserve such books, accounts, and records, including cards used in the card system, if any, for at least 2 years after making the final entry on any loan recorded therein.

(2) **ANNUAL REPORTS.**—Each licensee shall annually on or before April 1 file a report with the

department for the preceding calendar year. Such report shall give information with respect to the financial condition of such licensee and shall include the name and address of the licensee; balance sheets at the beginning and end of the accounting period; a statement of income and expense for said period; a schedule of assets used and useful in the small loan business; an analysis of charges, size of loans, and types of security on loans permitted by this chapter; an analysis of delinquent accounts; an analysis of suits, repossessions, and sales of chattels; and such other relevant information as the department may reasonably require concerning the business and operations during the preceding calendar year of each licensed place of business conducted by such licensee within the state. Such report shall be made under oath and shall be in the form prescribed by the department, which shall make and publish annually an analysis and recapitulation of such reports. Should said annual report not be filed on or before April 1 of each year, the licensee shall pay a penalty of \$5 per day for each day of delinquency. Upon application to the department made prior to said date, the department may, for good cause shown, extend such filing date for a reasonable period of time without such penalty.

**History.**—s. 11, ch. 10177, 1925; CGL 4009; s. 5, ch. 20728, 1941; s. 7, ch. 57-201; ss. 12, 35, ch. 69-106; s. 6, ch. 73-192.

**516.13 False publications prohibited.**—No licensee subject to this chapter shall advertise, display, distribute, broadcast, or televise, or cause or permit to be advertised, displayed, distributed, broadcast, or televised, in any manner whatsoever, any false, misleading, or deceptive statement concerning the business authorized under this chapter.

**History.**—s. 12, ch. 10177, 1925; CGL 4010; s. 8, ch. 57-201.

**516.15 Duties of licensee.**—Every licensee shall:

(1) Deliver to the borrower at the time a loan is made a statement in the English language showing in clear and distinct terms the amount and date of the loan and of its maturity, the nature of the security, if any, for the loan, the name and address of the borrower and of the licensee, and the rate of interest charged. Upon such statement there shall be printed in English a copy of s. 516.031.

(2) Give to the borrower a plain and complete receipt for all payments made on account of any loan at the time payments are made.

(3) Permit payment of the loan in whole or in part prior to its maturity with interest on such payment to the date thereof.

(4) Upon repayment of the loan in full, mark indelibly every paper signed by the borrower with the word "Paid" or "Canceled" and release any mortgage, restore any pledge, cancel and return any note, and cancel and return any assignment given by the borrower as security.

**History.**—s. 14, ch. 10177, 1925; CGL 4012; s. 13, ch. 73-192.

**516.16 Confession of judgment; power of attorney; contents of notes and security.**—No licensee shall take any confession of judgment or any power of attorney. Nor shall he take any note, promise to pay, or security that does not state the actual

amount of the loan, the time for which it is made, and the rate of interest charged, nor any instrument in which blanks are left to be filled after execution.

*History.*—s. 15, ch. 10177, 1925; CGL 4013.

**516.17 Assignment of wages, etc., given to secure loans.**—No assignment of, or order for the payment of, any salary, wages, commissions, or other compensation for services, earned or to be earned, given to secure any such loans shall be valid.

*History.*—s. 16, ch. 10177, 1925; CGL 4014; s. 1, ch. 28011, 1953; s. 8, ch. 73-192.

**516.18 Rate of interest or consideration.—**

<sup>1</sup>(1) No person engaged in the business of making loans of money, except as authorized by this chapter or other statutes of this state, shall directly or indirectly charge, contract for, or receive any interest or consideration greater than 18 percent per annum upon the loan, use, or forbearance of money, goods, or things in action, or upon the loan or use of credit, of the amount or value of \$2,500 or less.

(2) The foregoing prohibition shall apply to any lender who, as security for any such loan, use, or forbearance of money, goods, or things in action, or for any such loan or use of credit, makes a pretended purchase of property from any person and permits the owner or pledgor to retain the possession thereof, or who by any device or pretense of charging for services or otherwise seeks to obtain a greater compensation than is authorized by this chapter.

(3) No loan for which a greater rate of interest or charge than is allowed by this chapter has been contracted for or received, wherever made, shall be enforced in this state, and every person in anywise participating therein in this state shall be subject to the provisions of this chapter. However, the foregoing shall not apply to loans legally made to a resident of another state by a person within that state where that state has in effect a regulatory small loan or consumer finance law similar in principle to this act.

*History.*—s. 17, ch. 10177, 1925; CGL 4015; s. 10, ch. 57-201; s. 9, ch. 73-192; s. 1, ch. 77-256; s. 3, ch. 79-274.

<sup>1</sup>*Note.*—Section 15, ch. 79-274, provides that ch. 79-274 applies only to loans or advances of credit made on or subsequent to July 1, 1979, and shall not be construed as diminishing the force and effect of any laws applying to loans or advances of credit completed prior to that date.

cf.—Ch. 687 Interest and usury.

**516.19 Penalty for violations.**—Any person who shall violate any of the provisions of s. 516.02, s. 516.031, s. 516.09, s. 516.13, or s. 516.18 shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

*History.*—s. 18, ch. 10177, 1925; CGL 7880; s. 487, ch. 71-136; s. 13, ch. 73-192.

**516.20 "Interest" defined.—**

(1) Any profit or advantage of any kind whatever that any licensee may contract for, collect, receive, or in anywise obtain by a collateral sale, purchase, or agreement, in connection with any loan regulated by this chapter, shall be deemed to be interest or consideration for the purposes of regulation under this chapter. Such transactions shall be governed by and subject to the provisions of this chapter, except commissions received as a person licensed by the department of insurance on insurance written as hereinafter permitted. However, security con-

sisting of tangible property offered as security may be reasonably insured against loss for a reasonable term, considering the circumstances of the loan, and such insurance shall not be deemed such collateral sale, purchase, or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgagee clause is attached or the licensee is a coassured; provided, that such insurance is sold at standard rates through a person duly licensed by the Department of Insurance.

(2) No licensee shall enter into any contract for a loan under this chapter for \$600 or less which provides for scheduled repayment of principal more than 24 months and 15 days from the date the loan is made, nor enter into any contract for a loan under this chapter for more than \$600 which provides for scheduled repayment of principal more than 36 months and 15 days from the date the loan is made.

*History.*—s. 7, ch. 20728, 1941; s. 11, ch. 57-201; ss. 13, 35, ch. 69-106; s. 10, ch. 73-192; s. 1, ch. 77-174.

**516.21 Restriction of borrower's indebtedness.**—No licensee shall directly or indirectly

charge, contract for, or receive any interest, discount, or consideration greater than 18 percent per annum upon any loan, or upon any part or all of any aggregate loan indebtedness of the same borrower, of the amount of more than \$2,500. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower, or as endorser, guarantor, or surety for any borrower, or otherwise, or any husband and wife, jointly or severally, to owe directly or contingently or both to the licensee at any time a sum of more than \$2,500 for principal; provided, however, that if the proceeds of any loan of \$2,500 or less are used to discharge a preexisting debt of the borrower for goods or services owed directly to the person who provided such goods or services, the licensee may accept from such person a guaranty of payment of the principal of such loan with interest at a rate not exceeding 18 percent per annum, and the acceptance of one or more such guaranties in any aggregate amount shall not affect the rights of such licensee to make the charges against the primary borrower authorized by s. 516.031, nor shall the limitation apply to the isolated acquisition directly or indirectly by purchase or by discount of bona fide obligations of a borrower. However, in the event a licensee shall make a bona fide purchase of substantially all of the loans made under this chapter from another licensee or other lender not affiliated with the purchaser and such licensee or other lender shall have an existing loan outstanding to one or more of the borrowers whose loans are purchased, such licensee making such purchase shall be entitled to liquidate and collect the balances due on such loans, including all lawful charges and interest at the rates or amounts agreed upon in such loan contracts.

*History.*—s. 8, ch. 20728, 1941; s. 12, ch. 57-201; s. 11, ch. 73-192; s. 4, ch. 79-274.

<sup>1</sup>*Note.*—Section 15, ch. 79-274, provides that ch. 79-274 applies only to loans or advances of credit made on or subsequent to July 1, 1979, and shall not be construed as diminishing the force and effect of any laws applying to loans or

advances of credit completed prior to that date.

### 516.22 Regulations; certified copies.—

(1) **REGULATIONS.**—The department shall have the power and authority to issue regulations.

(2) **CERTIFIED COPIES OF OFFICIAL DOCUMENTS.**—On application of any person and payment of the costs thereof, at the same rate and fees as allowed clerks of the circuit court by statute, the department shall furnish a certified copy of any license, regulation, or order. In any court or proceeding, such copy shall be prima facie evidence of the fact of the issuance of such license, regulation, or order.

**History.**—s. 9, ch. 20728, 1941; s. 13, ch. 57-201; ss. 12, 35, ch. 69-106; s. 194, ch. 71-377; s. 7, ch. 78-95; s. 146, ch. 79-164.

cf.—s. 28.24 Service charges by clerks of circuit court.

### 516.221 Liability when acting upon department's order, declaratory statement, or rule.—

No person or licensee hereunder shall be deemed to be in violation of this chapter nor shall such person or licensee be subject to any civil or criminal liability for any act or omission to act in good faith in reliance upon a subsisting order, declaratory statement, or rule issued by the department, notwithstanding a subsequent decision by a court of competent jurisdiction invalidating the order, declaratory statement, or rule.

**History.**—s. 1, ch. 78-242.

**516.23 Injunctions; receivers.**—In addition to all other powers granted to it under this chapter, the department may:

(1) Whenever it has reasonable cause to believe any person is violating or is about to violate any provision of this chapter or any order or regulation lawfully made pursuant to the authority of this chapter, enter an order requiring such person to desist from such violation;

(2) Bring an action in the name of the state in the circuit court of the county in which the licensed place of business is located on the relation of the Department of Legal Affairs and the Department of Banking and Finance against such person to enjoin such person from engaging in or continuing such violation or doing any act or acts in furtherance thereof. In any such action, an order or judgment may be entered awarding such temporary or permanent injunction as may be deemed proper;

(3) In addition to all other means provided by law for the enforcement of a temporary restraining order, temporary injunction, or permanent injunction, said circuit court shall have power and jurisdiction to impound, and to appoint a receiver for, the property and business of the defendant including books, papers, documents, and records appertaining thereto or so much thereof as the court may deem reasonably necessary to prevent further violation of this chapter through or by means of the use of said property and business. Such receiver, when appointed and qualified, shall have powers and duties as to custody, collection, administration, winding up, and liquidation of said property and business as shall

from time to time be conferred upon him by the court.

**History.**—s. 9, ch. 20728, 1941; ss. 11, 12, 35, ch. 69-106.

Upon application for an original or renewal license, each applicant or licensee shall designate or appoint a manager for each location to be licensed. Each such manager shall have been employed by a licensee under this chapter or under former chapter 519, or by a subsidiary, affiliate, parent, or partner of the licensee, for a total period of at least 12 months or shall have successfully passed an examination based on the law and provisions of this chapter or former chapter 519 and rules and regulations thereunder. The foregoing requirement shall not apply to any person employed as such principal manager by a licensee on October 1, 1973.

**History.**—s. 12, ch. 73-192.

### 516.26 Purchase or assignment of wages, salaries, etc.—

The payment of \$600 or less in money, credit, goods, or things in action as consideration for any sale or assignment of or order for the payment of wages, salary, commissions, or other compensation for services, whether earned or to be earned, shall, for the purposes of regulation under, and the enforcement and interpretation of, any law, civil or criminal, relating to loans, interest charges, or usury, be deemed a loan secured by such assignment, and the amount by which such assigned compensation exceeds the amount of such consideration actually paid shall, for the purpose of regulation under, and the interpretation and enforcement of, such law, be deemed interest upon such loan from the date of such payment until the date such compensation is payable. Each such transaction shall be governed by and subject in all respects to all provisions of law relating to loans, interest, charges, usury, and to the same extent as if it had been in form a loan of the sum paid for the assignment.

**History.**—s. 1, ch. 20209, 1941; s. 14, ch. 57-201; s. 191, ch. 77-104.

**516.27 Preexisting contracts.**—This chapter or any part thereof may be modified, amended, or repealed so as to effect a cancellation or alteration of any license or right of a licensee hereunder, provided that such cancellation or alteration shall not impair or affect the obligation of any preexisting lawful contract between any licensee and any obligor, provided further, that nothing contained herein shall be construed so as to impair or affect the obligation of any contract of loan which was lawfully entered into prior to the effective date of this law.

**History.**—s. 15, ch. 57-201.

**516.29 Suspension or revocation of license for unreasonable collection tactics.**—The department shall have the authority to suspend or revoke the license of any licensee found guilty by it of using unreasonable collection tactics.

**History.**—s. 20, ch. 57-201; ss. 12, 35, ch. 69-106.

**516.30 Period of transition allowed.**—Upon this law taking effect the department is hereby au-

thorized to permit or allow a period of 60 days for the transition of the business of the then licensees.

History.—s. 17, ch. 57-201.

**516.31 Consumer protection; certain negotiable instruments restricted; assigns subject to defenses; limitation on deficiency claims; cross collateral.—**

(1) **SCOPE.**—This section shall apply to every consumer credit transaction and contract in which any form of credit is extended to an individual to purchase or obtain goods or services for use primarily for personal, family, or household purposes.

(2) **RESTRICTION ON CERTAIN NEGOTIABLE INSTRUMENTS AND INSTALLMENT CONTRACTS.**—A holder or assignee of any negotiable instrument or installment contract, other than a currently dated check, which originated from the purchase of certain consumer goods or services is subject to all claims and defenses of the consumer debtor against the seller of those consumer goods or services. A person's liability under this section may not exceed the amount owing to the person when the claim or defense is asserted against the person.

(3) **LIMITATIONS ON DEFICIENCY CLAIMS.**—If a creditor takes possession of property which was collateral under a consumer credit transaction, the consumer shall not be personally liable to the creditor for any unpaid balance of the obligation unless the unpaid balance of the consumer's obligation at the time of default was \$2,000 or more. When the unpaid balance is \$2,000 or more, the creditor shall be entitled to recover from the consumer the deficiency, if any, resulting from deducting the fair market value of the collateral from the unpaid balance due. In a proceeding for a deficiency, the fair market value of the collateral shall be a question for the trier of fact. Periodically published trade estimates of the retail value of goods shall, to the extent they are recognized in the particular trade or business, be presumed to be the fair market value of the collateral.

(4) **CROSS COLLATERAL.**—If debts arising from two or more retail installment sales or other credit contracts with individual consumers are secured by more than one security interest, or consolidated into one debt payable on a single schedule of payments and the debt is secured by security interests taken with respect to one or more of the sales, payments received by the seller are deemed, for the purpose of determining the amount of the debt secured by the various security instruments, to have been first applied to the payment of the debt arising from the sale first made. To the extent that debts are paid according to this section, security interests in items of property terminate as the debt originally incurred with respect to each item is paid. Payments received by the seller or holder upon a revolving account are deemed, for the purpose of determining the amount of the debt secured by the various security interests, to have been applied first to the payment of finance charges in the order of their entry to the account and then to the payment of debts in the order in which the entries to the account showing the debts were made. If the debts consolidated arose from two or more credit sales or other credit contracts with an individual which were made on

the same day, payments received by the seller or holder are deemed, for the purpose of determining the amount of the debt secured by the various security interests, to have been applied first to the payment of the smallest debt.

(5) **PURCHASERS OF RETAIL INSTALLMENT CONTRACTS MUST BE LICENSED UNDER CHAPTER 520.**—A licensee under the Consumer Finance Act who purchases or holds retail installment contracts as defined in s. 520.31 in this state shall also be licensed under chapter 520 as an Installment Sales Finance Act licensee.

(6) **WAIVER.**—Waiver by the buyer of any provisions in this section shall be void and unenforceable as contrary to public policy.

History.—s. 12, ch. 73-192; s. 1, ch. 77-174.

**516.32 Consumer credit counseling.**—The department shall be responsible for promoting a consumer credit counseling service for the purpose of promoting and helping establish consumer credit counseling services for individuals in areas where a need has been established. The purposes of the consumer credit counseling service shall be to:

(1) Assist and educate individual consumers as to money management.

(2) Assist individual consumers in consolidating obligations when a situation exists in which the individual consumer is in need of such assistance.

(3) Work with consumer credit grantors in an effort to establish better relations with the individual consumer and with state and federal regulatory agencies.

History.—s. 12, ch. 73-192.

**516.33 Public disclosures.**—All findings of facts and orders filed with the department shall be a public record.

History.—s. 12, ch. 73-192.

**516.34 Transfer of licenses held under former chapter 519.**—All persons holding licenses under former chapter 519, on October 1, 1973, shall become licensees under chapter 516, and licenses issued under former chapter 519 shall be reissued by the department showing their new designation as licenses issued under chapter 516.

History.—s. 12, ch. 73-192; s. 1, ch. 77-174.

**516.35 Credit insurance must comply with Credit Insurance Act.**—Credit life and disability insurance which is provided at the expense of borrowers must be provided only under a group or individual insurance policy which complies with ss. 627.676-627.683 and s. 627.685, and lawful regulations thereunder. The cost of credit life and disability insurance which is paid by borrowers shall be deducted from the principal amount of the loan and shall be disclosed on the statement required by s. 516.15(1) or on a combined note and disclosure statement required by Federal Truth-In-Lending Act.

History.—s. 12, ch. 73-192.

**516.36 Monthly installment requirement.**—Every loan made pursuant to this chapter shall be

repaid in monthly installments as nearly equal as mathematically practicable.

**History.**—s. 12, ch. 73-192.

**516.37 Transactions governed.**—Nothing in chapter 516 shall apply to any transaction, contract, or loan other than one involving an extension of credit by a licensee as defined in this chapter.

**History.**—s. 15, ch. 73-192.

(i) A statement of the issuer's cash sources and application during the last fiscal year or, if in actual business less than 1 year, then for such time as the issuer has been in actual business.

(j) A statement showing the maximum price at which such security is proposed to be sold, together with the maximum amount of commission, including expenses, or other form of remuneration to be paid in cash or otherwise, directly or indirectly, for or in connection with the sale or offering for sale of such securities.

(m) The amount of securities to be set aside and disposed of and a statement of all securities issued from time to time for promotional purposes.

(n) If the issuer is a corporation, there shall be filed with the application a copy of its articles of incorporation with all amendments and of its existing bylaws, if not already on file in the department. If the issuer is a trustee, there shall be filed with the application a copy of all instruments by which the trust is created or declared and in which it is accepted and acknowledged. If the issuer is a partnership, unincorporated association, joint-stock company, or any other form of organization whatsoever, there shall be filed with the application a copy of its articles of partnership or association and all other papers pertaining to its organization, if not already on file in the department.

(4) All of the statements, exhibits, and documents of every kind required by the department under this section, except properly certified public documents, shall be verified by the oath of the applicant or of the issuer in such manner and form as may be required by the department.

(5) The department may by rule fix the maxi-

num discounts, commissions, expenses, remuneration, and other compensation to be paid in cash or otherwise, not to exceed 20 percent, directly or indirectly, for or in connection with the sale or offering for sale of such securities in this state.

<sup>1</sup>(6) An issuer filing an application under this section shall, at the time of filing, pay the department a nonreturnable fee computed at the rate of 0.1 percent of the maximum aggregate offering price of the securities to be offered in this state, but not less than \$50 or more than \$1,000.

(7) If upon examination of any application the department shall find that the sale of the security referred to therein would not be fraudulent and would not work or tend to work a fraud upon the purchaser, that the terms of the sale of such securities would be fair, just, and equitable, and that the enterprise or business of the issuer is not based upon unsound business principles, it shall record the registration of such security in the register of securities, and thereupon such security so registered may be sold by any registered dealer, subject, however, to the further order of the department.

**History.**—s. 3, ch. 78-435; s. 148, ch. 79-164; ss. 6, 15, ch. 79-381.

<sup>1</sup>**Note.**—Section 15, ch. 79-381, provides that, if ch. 517 is repealed in accordance with the intent expressed in the Regulatory Reform Act of 1976, as amended by ch. 77-457, or as subsequently amended, it is the intent of the Legislature that ch. 79-381 shall also be repealed on the same date as is therein provided.

#### 517.101 Consent to service.—

(1) Upon any application for registration under s. 517.081, the issuer shall file with such application the irrevocable written consent of the issuer that in suits, proceedings, and actions growing out of the violation of any provision of this <sup>1</sup>part, the service on the department of a notice, process, or pleading therein, authorized by the laws of this state, shall be as valid and binding as if due service had been made on the issuer.

(2) Any such action shall be brought either in the county of the plaintiff's residence or in the county in which the department has its official headquarters. The written consent shall be authenticated by the seal of said issuer, if it has a seal, and by the acknowledged signature of a member of the copartnership or company, or by the acknowledged signature of any officer of the incorporated or unincorporated association, if it be an incorporated or unincorporated association, duly authorized by resolution of the board of directors, trustees, or managers of the corporation or association, and shall in such case be accompanied by a duly certified copy of the resolution of the board of directors, trustees, or managers of the corporation or association, authorizing the officers to execute the same. In case any process or pleadings mentioned in this chapter are served upon the department, it shall be by duplicate copies, one of which shall be filed in the department and another immediately forwarded by the department by registered mail to the principal office of the issuer against which said process or pleadings are directed.

**History.**—s. 3, ch. 78-435.

<sup>1</sup>**Note.**—See s. 14, ch. 79-381, which directs that "part" be changed to "chapter" where "part" appears in this subsection. The change will be implemented

by reviser's bill.

#### 517.111 Revocation or denial of registration of securities.—

(1) The department may revoke or suspend the registration of any security, or may deny any application to register securities, if upon examination into the affairs of the issuer of such security it shall appear that:

(a) The issuer is insolvent;

(b) The issuer or any controlling person has violated any provision of this chapter or any rule made hereunder or any order of the department of which such issuer has notice;

(c) The issuer or any controlling person has been or is engaged or is about to engage in fraudulent transactions;

(d) The issuer or any controlling person is in any other way dishonest or has made any fraudulent representations in any prospectus or in any circular or other literature that has been distributed concerning the issuer or its securities; or

(e) The terms of the offer or sale of such securities would not be fair, just, or equitable.

In making such examination, the department shall have access to and may compel the production of all the books and papers of such issuer and may administer oaths to and examine the officers of such issuer or any other person connected therewith as to its business and affairs and may also require a balance sheet exhibiting the assets and liabilities of any such issuer or his income statement, or both, to be certified to by a public accountant either of this state or of any other state where the issuer's business is located. Whenever the department may deem it necessary, it may also require such balance sheet or income statement, or both, to be made more specific in such particulars as the department may require.

(2) If any issuer shall refuse to permit an examination to be made by the department, it shall be proper ground for revocation of registration.

(3) If the department shall deem it necessary, it may enter an order suspending the right to sell securities pending any investigation, provided that the order shall state the department's grounds for taking such action.

(4) Notice of the entry of such order shall be given by mail, personally, by telephone confirmed in writing, or by telegraph to the issuer. Before such order is made final, the issuer applying for registration shall, on application, be entitled to a hearing.

**History.**—s. 3, ch. 78-435.

#### <sup>1</sup>517.12 Registration of dealers, associated persons, and investment advisers.—

(1) No dealer, associated person, or issuer of securities shall sell or offer for sale any securities in or from offices in this state, or sell securities in this state to persons thereof from offices outside this state, by mail or otherwise, unless the person has been registered with the department pursuant to the provisions of this section.

(2) The registration requirements of this section shall not apply to the issuers of securities exempted by s. 517.051(1)-(8).

(3) Except as otherwise expressly provided in s.

517.061(12)(a)4., the registration requirements of this section shall not apply in a transaction exempted by s. 517.061(1)-(16).

(4) No investment adviser shall engage in business from offices in this state, or render investment advice to persons thereof, by mail or otherwise, unless the investment adviser has been registered with the department pursuant to this section.

(5) A dealer, associated person, or investment adviser, in order to obtain initial registration, shall file with the department a written application, in a form which the department may by rule prescribe, verified under oath. Dealers and investment advisers shall also file an irrevocable written consent to service of civil process similar to that provided in s. 517.101. The application shall contain such information as the department may require concerning such matters as:

(a) The name of the applicant and the address of its principal office and each office in this state.

(b) The applicant's form and place of organization and, if the applicant is a corporation, a copy of its articles of incorporation and amendments thereto or, if a partnership, a copy of the partnership agreement.

(c) The applicant's proposed method of doing business and financial condition and history, including a certified financial statement showing all assets and all liabilities, including contingent liabilities of the applicant as of a date not more than 90 days prior to the filing of the application.

(d) The names and addresses of all salesmen of the applicant to be employed in this state and the offices to which they will be assigned.

(6) The application shall also contain such information as the department may require about the applicant, any partner, officer, or director of the applicant, any person having a similar status or performing similar functions, any person directly or indirectly controlling the applicant, or any employee of a dealer or of an investment adviser rendering investment advisory services. Each applicant shall file a complete set of fingerprints taken by an authorized law enforcement officer. Said fingerprints shall be submitted to the Department of Law Enforcement or the Federal Bureau of Investigation for state and federal processing. The department may waive, by rule, the requirement that applicants must file a set of fingerprints or the requirement that such fingerprints must be processed by the Department of Law Enforcement or the Federal Bureau of Investigation. The department may require information about any such applicant or person concerning such matters as:

(a) His full name, age, photograph, qualifications, educational and business history, and any other names by which he may have been known.

(b) Any injunction or administrative order by any state or federal agency, national securities exchange, or national securities association involving a security or any aspect of the securities business and any injunction or administrative order by a state or federal agency regulating banking, insurance, finance, or small loan companies, real estate, mortgage brokers, or other related or similar indus-

tries, which injunctions or administrative orders relate to such person.

(c) His conviction of, or plea of nolo contendere to, a criminal offense or his commission of any acts which would be grounds for refusal of an application under s. 517.161.

(d) The names and addresses of other persons of whom the department may inquire as to his character, reputation, and financial responsibility.

(7) The department may require the applicant or one or more principals or general partners, or natural persons exercising similar functions, or any agent-applicant to successfully pass oral or written examinations. The examination standards may be higher for a dealer, office manager, principal, or person exercising similar functions than for a nonsupervisory salesman. The department may waive the examination process when it determines that such examinations are not in the public interest. The department shall waive the examination requirements for any person who has passed any tests as prescribed in s. 15(b)(7) of the Securities Exchange Act of 1934.

(8) The department may by rule require the maintenance of a minimum net capital for registered dealers and investment advisers or prescribe a ratio between net capital and aggregate indebtedness, to assure adequate protection for the investing public.

(9) An applicant for registration shall pay an assessment fee of \$100, in the case of a dealer or investment adviser, or \$20, in the case of an associated person. There shall be no fee for reaffiliation of a registered associated person. Each dealer and each investment adviser shall pay an assessment fee of \$50 for each office in this state, except its designated principal office. Such fees become the revenue of the state, except for those assessments provided for under s. 517.131(1) until such time as the Security Guaranty Fund satisfies the statutory limits, and are not returnable in the event that registration is withdrawn or not granted.

(10) If the department finds that the applicant is of good repute and character and has complied with the provisions of this section and the rules made pursuant hereto, it shall register the applicant. Every dealer and investment adviser registration shall expire on December 31 of the year in which it became effective; except that the department may by rule provide for an equitable method of staggering the expiration dates of registrations using a date other than December 31 of each year. Registration for dealers and investment advisers may be renewed by a written application furnishing such information as the department may require, together with payment of the fee required in subsection (9) for dealers, investment advisers, associated persons, or branch offices. The renewal shall be accomplished not less than 30 or more than 60 days prior to the date of expiration of the registration. If a registrant fails to renew a registration within the time period provided, registration shall only be granted upon the submission of an original application.

(11)(a) The department may issue a license to a dealer, salesman, officer, office, or investment adviser to evidence registration under this chapter. The

department may require the return to the department of any license it may issue prior to issuing a new license.

(b) Every dealer shall promptly file with the department, as prescribed by rules adopted by the department, notice as to the termination of employment of any associated person registered for such dealer in this state and shall also furnish the reason or reasons for such termination.

(c) Each dealer shall designate in writing to the department a manager for each office the dealer has in that state, and each manager shall be registered as a principal.

(12) Changes in registration occasioned by changes in personnel of a partnership or in the principals, copartners, officers, or directors of any dealer or investment adviser or by changes of any material fact or method of doing business shall be reported by written amendment in such form and at such time as the department may specify.

(13) A dealer, associated person, or investment adviser registered under this section shall maintain such books and records as the department may prescribe by rule. The department shall have authority to visit and examine the affairs and records of each registered dealer, associated person, or investment adviser or require such records and reports submitted to it as it may require by rule.

### 517.131 Security Guaranty Fund.—

<sup>1</sup>(1) Effective November 1, 1978, the Treasurer shall establish a Security Guaranty Fund. An amount not exceeding 20 percent of all revenues received as assessment fees pursuant to s. 517.12(9) and (10) shall be allocated to the fund. This assessment fee shall be part of the regular license fee and shall be transferred to or deposited in the Security Guaranty Fund. If the fund at any time exceeds \$250,000, collection of special fees for this fund shall be discontinued at the end of that license year, and such special fees shall not be reimposed unless the fund is reduced below \$150,000 by disbursement made in accordance with s. 517.141.

<sup>1</sup>(2) The Security Guaranty Fund shall be disbursed as provided in s. 517.141 to any person who is adjudged by a court of competent jurisdiction to have suffered monetary damages as a result of any of the following acts committed by a dealer, salesman, or investment adviser who was licensed under this chapter at the time the act was committed:

(a) A violation of s. 517.07.

(b) A violation of s. 517.301.

(3) Any person shall be eligible to seek recovery from the Security Guaranty Fund if:

(a) Such person has received final judgment in a

court of competent jurisdiction in any action wherein the cause of action was based on a violation of those sections in subsection (2);

(b) Such person has caused to be issued a writ of execution upon such judgment and the officer executing the same has made a return showing that no personal or real property of the judgment debtor liable to be levied upon in satisfaction of the judgment can be found or that the amount realized on the sale of the judgment debtor's property pursuant to such execution was insufficient to satisfy the judgment;

(c) Such person has made all reasonable searches and inquiries to ascertain whether the judgment debtor possesses real or personal property or other assets subject to being sold or applied in satisfaction of the judgment, and by his search he has discovered no property or assets or he has discovered property and assets and has taken all necessary action and proceedings for the application thereof to the judgment, but the amount thereby realized was insufficient to satisfy the judgment;

<sup>1</sup>(d) Such person has applied any amounts recovered from the judgment debtor, or from any other source, to the damages awarded by the court; and

<sup>1</sup>(e) The act for which recovery is sought occurred on or after January 1, 1979.

<sup>1</sup>(4) Any person who files an action that may result in the disbursement of funds from the Security Guaranty Fund pursuant to the provisions of s. 517.141 shall give written notice to the department as soon as practicable after such action has been filed. The failure to give such notice shall not bar a payment from the Security Guaranty Fund if all of the conditions specified in subsection (3) are satisfied.

**History.**—s. 5, ch. 78-435; ss. 8, 15, ch. 79-381.

**Note.**—Section 15, ch. 79-381, provides that, if ch. 517 is repealed in accordance with the intent expressed in the Regulatory Reform Act of 1976, as amended by ch. 77-457, or as subsequently amended, it is the intent of the Legislature that ch. 79-381 shall also be repealed on the same date as is therein provided.

### 517.141 Payment from the fund.—

(1) Any person who meets all of the conditions prescribed in s. 517.131 may apply to the department for payment to be made to such person from the Security Guaranty Fund in the amount equal to the unsatisfied portion of such person's judgment or \$10,000, whichever is less, but only to the extent and amount reflected in the judgment as being actual or compensatory damages.

(2) Upon receipt by the claimant of the payment from the Security Guaranty Fund, the claimant shall assign any additional right, title, and interest in the judgment, to the extent of such payment, to the department.

(3) Payments for claims shall be limited in the aggregate to \$100,000, regardless of the number of claimants involved, against any one dealer, salesman, or investment adviser. If the total claims exceed the aggregate limit of \$100,000, the department shall prorate the payment based upon the ratio that the person's claim bears to the total claims filed.

(4) If at any time the money in the Security Guaranty Fund is insufficient to satisfy any valid claim or portion thereof, the department shall satisfy such unpaid claim or portion thereof as soon as a

sufficient amount of money has been deposited in or transferred to the fund. When there is more than one unsatisfied claim outstanding, such claims shall be paid in the order in which the claims were filed with the department.

(5) All payments and disbursements made from the Security Guaranty Fund shall be made by the Treasurer upon a voucher signed by the Comptroller, as head of the department, or such agent as he may designate.

*History.*—s. 5, ch. 78-435.

**517.151 Investments of the fund.**—The funds of the Security Guaranty Fund shall be invested by the Treasurer under the same limitations as other state funds, and the interest earned thereon shall be deposited to the credit of the fund and available for the same purpose as other moneys deposited in the Security Guaranty Fund.

*History.*—s. 5, ch. 78-435.

**517.161 Revocation, denial, or suspension of registration of dealer, investment adviser, or salesman.**—

(1) Registration under s. 517.12 may be denied or any registration granted may be revoked or suspended by the department if the department determines that such applicant or registrant:

(a) Has violated any provision of this chapter or any rule or order made hereunder;

(b) Has made a material false statement in the application for registration;

(c) Has been guilty of a fraudulent act in connection with any sale of securities, has been or is engaged or is about to engage in making fictitious or pretended sales or purchases of any such securities, or has been or is engaged or is about to engage in any practice or sale of securities which is fraudulent or in violation of the law;

(d) Has made any misrepresentation or false statement to, or concealed any essential or material fact from, any person in the sale of a security to such person;

(e) Has failed to account to persons interested for all money and property received;

(f) Has not delivered, after a reasonable time, to persons entitled thereto securities held or agreed to be delivered by dealer, broker, or investment adviser, as and when paid, and due to be delivered;

(g) Is selling or offering for sale securities through any salesman not registered in compliance with the provisions of this 'part';

(h) Has demonstrated his unworthiness to transact the business of dealer, investment adviser, or salesman;

(i) Is, in the case of the dealer or investment adviser, insolvent;

(j) Has been convicted of, or entered a plea of nolo contendere to, a crime against the laws of this state or any other state or of the United States involving moral turpitude or fraudulent or dishonest dealing, or has had a final judgment entered against him in a civil action upon grounds of fraud, embezzlement, misrepresentation, or deceit; or

(k) Is of bad business repute.

(2) The payment of any amount from the Security Guaranty Fund in settlement of a claim or in

satisfaction of a judgment against a licensee shall constitute prima facie grounds for the revocation of the license of such licensee.

(3) In the event the department determines to deny an application or revoke a registration, it shall enter a final order with its findings on the register of dealers and salesmen; and denial, suspension, or revocation of the registration of a dealer or investment adviser shall also suspend or revoke the registration of all his salesmen.

(4) It shall be sufficient cause for denial of an application or revocation of registration, in the case of a partnership, corporation, or unincorporated association, if any member of the partnership or any officer or director of the corporation or association has been guilty of any act or omission which would be cause for denying or revoking the registration of an individual dealer, investment adviser, or salesman.

(5) The department may deny any request to terminate or withdraw any application or registration if the department shall believe that an act which would be grounds for denial, suspension, or revocation under this chapter has been committed.

*History.*—s. 5, ch. 78-435.

*Note.*—See s. 14, ch. 79-381, which directs that "part" be changed to "chapter" where "part" appears in this paragraph. The change will be implemented by reviser's bill.

**517.171 Burden of proof.**—It shall not be necessary to negate any of the exemptions provided in this 'part' in any complaint, information, indictment, or any other writ or proceedings brought under this 'part', and the burden of establishing the right to any exemption shall be upon the party claiming the benefit of such exemption.

*History.*—s. 5, ch. 78-435.

*Note.*—See s. 14, ch. 79-381, which directs that "part" be changed to "chapter" where "part" appears in this section. The change will be implemented by reviser's bill.

**517.181 Escrow agreement.**—

(1) If the statement containing information as to securities to be registered, as provided for in s. 517.081, shall disclose that any such securities or any securities senior thereto shall have been or shall be intended to be issued for any patent right, copyright, trademark, process, formula, or goodwill; for organization or promotion fees or expenses; or for goodwill or going-concern value or other intangible assets, then the amount and nature thereof shall be fully set forth, and the department may require that such securities so issued in payment of such patent right, copyright, trademark, process, formula, or goodwill; for organization or promotion fees or expenses; or for other intangible assets shall be delivered in escrow to the department or other depository satisfactory to the department under an escrow agreement. The escrow agreement shall be in a form suitable to the department and shall provide for the escrow or impoundment of such securities for a reasonable length of time determined by the department to be in the best interest of other shareholders. The securities subject to escrow shall also include any dividend, cash, or stock that may be paid during the life of the escrow and any stock issued through, or by reason of, any stock split, exchange of shares, recapitalization, merger, consolidation, reorganization, or similar combination or subdivision in substi-

tution for or in lieu of any stock subject to this provision; and in case of dissolution or insolvency during the time such securities are held in escrow, the owners of such securities shall not participate in the assets until after the owners of all other securities shall have been paid in full.

(2) Any securities held in escrow under this section on November 1, 1978, may be released to the owners thereof upon request, if satisfactory financial data is submitted to the department showing that the issuer is currently operating on sound business principles and has net income in accordance with criteria-implementing rules of the department relating to escrow of securities. At any time, the department may review any existing escrow agreement made under this section and determine that the same may be amended in order to permit a subsequent release of the securities upon terms and conditions which are just and equitable as defined by said rules.

(3) When it shall appear from information available to the department that the issuer of securities held in escrow has been dissolved or disbanded or is defunct or no longer actively engaged in business and such securities are of no value, the department, after giving at least 60 days' notice in at least one newspaper of general circulation and after giving interested parties opportunity for hearing, may enter its order authorizing the destruction of said securities. Any affected escrow agent may rely on such order and shall not be required to determine the validity or sufficiency thereof.

*History.*—s. 5, ch. 78-435.

#### **517.191 Injunction to restrain violations.—**

(1) When it shall appear to the department, either upon complaint or otherwise, that a person has engaged or is about to engage in any act or practice constituting a violation of this 'part' or a rule or order hereunder, the department may investigate, and whenever it shall believe from evidence satisfactory to it that any such person has engaged, is engaged, or is about to engage in any act or practice constituting a violation of this 'part' or a rule or order hereunder, the department may, in addition to any other remedies, bring action in the name and on behalf of the state against such person and any other person concerned in or in any way participating in or about to participate in such practices or engaging therein or doing any act or acts in furtherance thereof or in violation of this 'part' to enjoin such person or persons from continuing such fraudulent practices or engaging therein or doing any act or acts in furtherance thereof or in violation of this 'part'. In any such court proceedings, the department may apply for, and on due showing be entitled to have issued, the court's subpoena requiring forthwith the appearance of any defendant and his employees, salesmen, or agents and the production of documents, books, and records that may appear necessary for the hearing of such petition, to testify and give evidence concerning the acts or conduct or things complained of in such application for injunction. In such action, the equity courts shall have jurisdiction of the subject matter, and a judgment may be entered awarding such injunction as may be proper.

(2) In addition to all other means provided by law for the enforcement of any temporary restraining order, temporary injunction, or permanent injunction issued in any such court proceedings, the court shall have the power and jurisdiction, upon application of the department, to impound and to appoint a receiver or administrator for the property, assets, and business of the defendant, including, but not limited to, the books, records, documents, and papers appertaining thereto. Such receiver or administrator, when appointed and qualified, shall have all powers and duties as to custody, collection, administration, winding up, and liquidation of said property and business as shall from time to time be conferred upon him by the court. In any such action, the court may issue orders and decrees staying all pending suits and enjoining any further suits affecting the receiver's or administrator's custody or possession of the said property, assets, and business or, in its discretion, may with the consent of the presiding judge of the circuit require that all such suits be assigned to the circuit court judge appointing the said receiver or administrator.

(3) In addition to any other remedies provided by this 'part', the department may apply to the court hearing this matter for an order of restitution whereby the defendants in such action shall be ordered to make restitution of those sums shown by the department to have been obtained by them in violation of any of the provisions of this 'part'. Such restitution shall, at the option of the court, be payable to the administrator or receiver appointed pursuant to this section or directly to the persons whose assets were obtained in violation of this 'part'.

*History.*—s. 5, ch. 78-435.

*Note.*—See s. 14, ch. 79-381, which directs that "part" be changed to "chapter" where "part" appears in this subsection. The change will be implemented by reviser's bill.

#### **517.201 Investigations; subpoenas; hearings; witnesses.—**

(1) The department:

(a) May make investigations within or outside of this state as it deems necessary

1. To determine whether a person has violated or is about to violate any provision of this chapter or a rule or order hereunder; or

2. To aid in the enforcement of this chapter.

(b) May require or permit a person to file a statement in writing, under oath or otherwise as the department determines, as to all the facts and circumstances concerning the matter to be investigated.

(2) When it is proposed to conduct an investigation, the department may gather evidence in the matter. The department may administer oaths, examine witnesses, and issue subpoenas.

(3) Subpoenas for witnesses whose evidence is deemed material to any investigation may be issued by the department under the seal of the department, or by any county court judge or clerk of the circuit court or county court, commanding such witnesses to be or appear before the department at a time and place to be therein named and to bring such books, records, and documents as may be specified or to submit such books, records, and documents to inspection; and such subpoenas may be served by an authorized representative of the department.

(4) When any witness who has been served with

a subpoena fails or refuses to be or appear at the time and place named, fails or refuses to answer any lawful questions propounded or produce the books, records, or documents required, or is guilty of disorderly or contumacious conduct at the hearing, the facts shall be made known to a circuit judge of the county who shall forthwith issue an attachment for such witness and cause him to be brought before the judge. Upon appearance, if the witness fails to purge himself of such failure, refusal, or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

(5) Witnesses shall be entitled to the same fees and mileage as they may be entitled by law for attending as witnesses in the circuit court, except where such examination or investigation is held at the place of business or residence of the witness.

(6) The material compiled by the department in an investigation under this chapter is confidential until the investigation is complete. **520.01 Motor Vehicles Sales Finance Act.**—Sections 520.01-520.10, 520.12, 520.13 may be cited as "The Motor Vehicle Sales Finance Act."

**History.**—s. 14, ch. 57-799; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**520.02 Definitions.**—In this act unless the context or subject matter otherwise requires:

(1) "Motor vehicle" means any device or vehicle, including automobiles, motorcycles, motor trucks, trailers, and all other vehicles operated over the public highways and streets of this state and propelled by power other than muscular power, but does not include traction engines, road rollers, implements of husbandry and other agricultural equipment and such vehicles as run only upon a track.

(2) "Retail buyer" or "buyer" means a person who buys a motor vehicle from a retail seller not principally for the purpose of resale, and who executes a retail installment contract in connection therewith or a person who succeeds to the rights and obligations of such person.

(3) "Retail installment seller" or "seller" means a person engaged in the business of selling motor vehicles to retail buyers in retail installment transactions.

(4) "Retail installment transaction" means any transaction evidenced by a retail installment contract entered into between a retail buyer and a retail seller wherein the retail buyer buys a motor vehicle from the retail seller at a deferred payment price

payable in one or more deferred installments.

(5) "Retail installment contract" or "contract" means an agreement, entered into in this state, pursuant to which the title to, or a lien upon the motor vehicle, which is the subject matter of a retail installment transaction, is retained or taken by a retail seller from a retail buyer as security, in whole or in part, for the buyer's obligation. The term includes a conditional sales contract and a contract for the bailment or leasing of a motor vehicle by which the bailee or lessee contracts to pay as compensation for its use a sum substantially equivalent to or in excess of its value and by which it is agreed that the bailee or lessee is bound to become, or for no further or a merely nominal consideration, has the option of becoming, the owner of the motor vehicle upon full compliance with the provisions of the contract.

(6) "Cash price" means the price stated in a retail installment contract for which the seller would have sold to the buyer, and the buyer would have bought from the seller, the motor vehicle which is the subject matter of the retail installment contract, if such sale had been a sale for cash instead of a retail installment transaction. The cash price shall include any taxes, charges for accessories and their installation and for delivery, servicing, repairing, or improving the motor vehicle.

(7) "Official fees" mean fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of or for perfecting or releasing or satisfying any security related to the credit transaction, or the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges which would otherwise be payable to public officials.

(8) Except as otherwise provided in this part, "finance charge" shall mean the sum of all charges, payable directly or indirectly by the person to whom the credit is extended, and imposed directly or indirectly by the creditor as an incident to the extension of credit. Charges or premiums for credit life, accident, or health insurance, written in connection with any retail installment transaction shall be included in the finance charge unless the coverage of the debtor by the insurance is not a factor in the approval by the creditor of the extension of credit; and, in order to obtain the insurance in connection with the extension of credit, the person to whom the credit is extended gives specific affirmative written indication of his desire to do so after written disclosure.

sure to him of the cost thereof. However, if such insurance coverage is a factor in the approval by the seller of the extension of credit, a charge may be made for the insurance which shall be included in the finance charge for the purposes of disclosure and advertising, but shall be excluded from the finance charge for the purpose of determining maximum permitted charges. Charges on premiums for insurance, written in connection with any consumer credit transaction, against loss of or damage to property or against liability arising out of the ownership or use of property, shall be included in the finance charge unless a clear and specific statement in writing is furnished by the creditor to the person to whom the credit is extended, setting forth the cost of the insurance if obtained from or through the creditor and stating that the person to whom the credit is extended may choose the person through which the insurance is to be obtained. If fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting or releasing or satisfying, any security related to the credit transaction; the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges described above which would otherwise be payable; taxes; or any other type of charge which is not for credit and the exclusion of which from the finance charge is approved by the Department of Banking and Finance by regulation are itemized and disclosed in connection with any transaction, then the creditor need not include that item in the computation of the finance charge with respect to that transaction.

(9) "Sales finance company" means a person engaged in the business of purchasing retail installment contracts from one or more retail sellers. The term includes but is not limited to a bank, trust company, or industrial bank, if so engaged. The term does not include the pledge of an aggregate number of such contracts to secure a bona fide loan thereon.

(10) The "holder" of a retail installment contract means the retail seller of the motor vehicle under the contract or, if the contract is purchased by a sales finance company or another assignee, the sales finance company or other assignee.

(11) "Person" means an individual, partnership, corporation, association, and any other group however organized.

(12) "Deferred payment price" means the cash price, all other charges, individually itemized, which are included in the amount financed but which are not part of the finance charge, plus the finance charge.

(13) "Department" means the Department of Banking and Finance.

(14) Words in the singular include the plural and vice versa.

### **§520.03 Licensing of sales finance companies required.—**

(1) No person shall engage in the business of a retail installment seller or of a sales finance company in this state without a license therefor as provided in this act; provided, however, that no bank, trust company or industrial bank authorized to do business in this state shall be required to obtain a license under this act.

(2) The application for such license shall be in writing and in the form prescribed by the department. (3) The license fee for each calendar year or part thereof shall be the sum of \$50 for the principal place of business of each sales finance company, and the sum of \$25 for the principal place of business of each retail installment seller of motor vehicles. A separate license fee of like amount shall be paid for each branch of the sales finance company and for each branch of a retail installment seller of motor vehicles maintained in this state; however, no additional license fee shall be required when more than one branch is located in the same county. Fees collected under this section shall be deposited in the State Treasury in the Regulatory Trust Fund under the Division of Finance of the department.

(4) Each license shall specify the location of the office or branch and must be conspicuously displayed there. In case such location be changed, the department shall endorse the change of location on the license without charge.

(a) Material misstatement in application for license;

(b) Willful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(2) A licensee, operating two or more licensed places of business in this state, may maintain the general control records of all such offices at any one of such offices, or at any other office maintained by such licensee, upon the filing of a written request with the department designating therein the office at which such control records are maintained.

(3) All books, accounts and records of licensees, including any cards used in a card system, shall be preserved and available for examination by the department for at least 2 years after making the final entry therein.

(4) The department is hereby authorized and empowered to prescribe the minimum information to be shown in the books, accounts and records of licensees so that such records will enable the department to determine compliance with the provisions of this act.

**History.**—s. 4, ch. 59-456; ss. 12, 35, ch. 69-106; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

#### **§520.05 Investigations and complaints.—**

(1) The department shall, at intermittent periods, make such investigations and examinations of any licensee or other person as it deems necessary to determine compliance with this act. For such purposes, it may examine the books, accounts, records and other documents or matters of any licensee or other person. It shall have the power to compel the

production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the department has reason to believe the licensee is not complying with the provisions of this act. The expenses of the department incurred in each such examination of a sales finance company licensed under this act shall be paid by such sales finance company so examined within 30 days after demand therefor by the department, and shall not exceed \$50 per day or fraction thereof for each examiner. For examinations conducted outside the state, such company shall also pay the traveling expense and per diem subsistence allowance provided for state employees in s. 112.061. Expense thus recovered shall be deposited in the State Treasury in the Regulatory Trust Fund under the Division of Finance of the department as a reimbursement to the annual appropriation for expenses incurred in enforcing this act. The licensee shall not be required to pay a per diem fee and expenses of an examination which shall consume more than 30 man-days in any 1 year unless such examination or investigation is due to fraudulent practices of the licensee, in which case such licensee shall be required to pay the entire cost regardless of time consumed.

(2) Any retail buyer having reason to believe that this act relating to his retail installment contract has been violated may file with the department a written complaint setting forth the details of such alleged violations and the department upon receipt of such complaint, may inspect the pertinent books, records, letters and contracts of the licensee and of the retail seller involved, relating to such specific written complaint.

#### **§520.06 Powers of department.—**

(1) The department shall have power to issue subpoenas to compel the attendance of witnesses and the production of documents, papers, books, records and other evidence before it in any matter over which it has jurisdiction, control or supervision pertaining to this act. The department shall have the power to administer oaths and affirmations to any person whose testimony is required.

(2) If any person shall refuse to obey any such subpoena, or to give testimony, or to produce evidence as required thereby, any judge of the circuit court may, upon application and proof of such refusal, make an order awarding process of subpoena, or subpoena duces tecum, out of the circuit court, for the witness to appear before the department and to give testimony, and to produce evidence as required thereby. Upon filing such order in the office of the clerk of the circuit court, the clerk shall issue process of subpoena, as directed, under the seal of said court, requiring the person to whom it is directed, to appear at the time and place therein designated.

(3) If any person served with any such subpoena shall refuse to obey the same, and to give testimony, and to produce evidence as required thereby, the department may apply to any judge of the circuit

court for an attachment against such person, as for a contempt. The judge, upon satisfactory proof of such refusal, shall issue an attachment, directed to any sheriff or police officer, for the arrest of such person, and upon his being brought before such judge, proceed to a hearing of the case. Refusal shall constitute a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(4) The department may issue and promulgate such rules and regulations as it may deem necessary in the administration of this act and not inconsistent with the provisions of this act.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

#### **§520.07 Requirements and prohibitions as to retail installment contracts.—**

(1)(a) A retail installment contract shall be in writing, shall be signed by both the buyer and the seller, and shall be completed as to all essential provisions prior to the signing of the contract by the buyer.

(b) The printed portion of the contract, other than instructions for completion, shall be in at least 6-point type. The contract shall contain:

1. A specific statement that liability insurance coverage for bodily injury and property damage caused to others is not included, if that is the case; and

2. The following notice:

##### **"Notice to the Buyer**

a. Do not sign this contract before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the contract you sign."

(c) The seller shall deliver to the buyer, or mail to him at his address shown on the contract, a copy of the contract signed by the seller. Before the transaction is consummated, a copy of the retail installment contract, or a separate statement by which the disclosures required by this section are made and on which the buyer and seller are identified, shall be delivered to the buyer. Until the seller has delivered or mailed to the buyer a copy of the retail installment contract, a buyer who has not received delivery of the motor vehicle shall have the right to rescind his agreement and to receive a refund of all payments made and return of all goods traded in to the seller on account of or in contemplation of the contract or, if such goods cannot be returned, the value thereof. Any acknowledgment by the buyer of delivery of a copy of the contract, if contained in the contract, shall appear directly above or adjacent to the buyer's signature.

(d) The contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the motor vehicle including its make, year model, model and identification number or marks.

(2) The contract shall contain the following:

(a) The cash price of the motor vehicle;

(b) The amount of the buyer's down payment, itemized, and whether made in money or goods or

partly in money and partly in goods. If the down payment is in money it must be listed as "cash down payment"; if in property, it must be listed as "trade-in"; and if both, the sum must be listed as "total down payment";

(c) The difference between paragraphs (a) and (b), referred to as "unpaid balance of cash price";

(d) The amounts, if any, included for insurance and other benefits, if not included in the finance charge, specifying the types of coverages and benefits;

(e) The amount of license, taxes and official fees, if any;

(f) The amount financed which is the sum of paragraphs (c), (d) and (e) of subsection (2);

(g) The amount of the finance charge with description of each amount included;

(h) The "total of payments," which is the sum of paragraphs (f) and (g), payable in installments by the buyer to the seller, the number of installments, the amount of each installment, and the due date or period thereof;

(i) The deferred payment price which is the sum of paragraphs (2) (a), (d), (e), and (g).

The above items need not be stated in the sequence or order set forth, and additional items may be included to explain the calculations involved in determining the stated total of payments to be paid by the buyer.

(3) The amount, if any included for insurance, which may be purchased by the holder of the retail installment contract, shall not exceed the applicable premiums chargeable in accordance with the rates filed with the Department of Insurance. If dual interest insurance on the motor vehicle is purchased by the holder it shall, within 30 days after execution of the retail installment contract, send or cause to be sent to the buyer a policy or policies or certificate of insurance, written by an insurance company authorized to do business in this state, clearly setting forth the amount of the premium, the kind or kinds of insurance, the coverages and all the terms, exceptions, limitations, restrictions and conditions of the contract or contracts of insurance. Nothing in this act shall impair or abrogate the right of a buyer as defined herein, to procure insurance from an agent and company of his own selection as provided by the insurance laws of this state; and nothing contained in this act shall modify, amend, alter or repeal any of the insurance laws of the state, including any such laws enacted by the 1957 Florida Legislature.

(4) If any insurance is canceled, or the premium adjusted, unearned insurance premium refunds received by the holder and any unearned finance charges thereon shall, at his option, be credited to the final maturing installments of the contract or paid to the buyer, except to the extent applied toward payment for similar insurance protecting the interests of the buyer and the holder, or either of them. The finance charge on the original transaction shall be separately computed:

(a) With the premium for the canceled or adjusted insurance included in the "Amount Financed"; and

(b) With the premium for the canceled insurance

or the amount of the premium adjustment excluded from the "Amount Financed."

The difference in the finance charge resulting from these computations shall be the portion of the finance charge attributable to the canceled or adjusted insurance, and the unearned portion thereof shall be determined by the use of the rule of 78ths. "Cancellation of insurance" occurs at such time as the seller or holder receives from the insurance carrier the proper refund of unearned insurance premiums.

(5) The holder may, if the contract or refinancing agreement so provides, collect a delinquency and collection charge on each installment in default for a period not less than 10 days in an amount not in excess of 5 percent of each installment or \$5, whichever is less. In addition to such delinquency and collection charge, the contract may provide for the payment of reasonable attorney's fees where such contract is referred for collection to an attorney not a salaried employee of the holder of the contract plus the court costs.

(6) No retail installment contract shall be signed by any party thereto when it contains blank spaces to be filled in after it has been signed except that, if delivery of the motor vehicle is not made at the time of the execution of the contract, the identifying numbers or marks of the motor vehicle or similar information and the due date of the first installment may be inserted in the contract after its execution. The buyer's written acknowledgment, conforming to the requirements of paragraph (1)(c), of delivery of a copy of a contract shall be conclusive proof of such delivery, that the contract when signed, did not contain any blank spaces except as herein provided, and of compliance with this section in any action or proceeding by or against the holder of the contract.

(7) Upon written request from the buyer, the holder of a retail installment contract shall give or forward to the buyer a written statement of the dates and amounts of payments and the total amount unpaid under such contract. A buyer shall be given a written receipt for any payment when made in cash.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

#### **520.08 Finance charge limitation.—**

(1) Notwithstanding the provisions of any other law, the finance charge, exclusive of insurance, shall not exceed the following rates:

<sup>2</sup>(a) Class 1. Any new motor vehicle designated by the manufacturer by a year model not earlier than the year in which the sale is made—\$10 per \$100 per year.

(b) Class 2. Any new motor vehicle not in Class 1 and any used motor vehicle designated by the manufacturer by a year model of the same or not more than two years prior to the year in which the sale is made—\$11 per \$100 per year.

(c) Class 3. Any used motor vehicle not in Class 2 and designated by the manufacturer by a year model not more than 4 years prior to the year in which the sale is made—\$15 per \$100 per year.

(d) Class 4. Any used motor vehicle not in Class

2 or Class 3 and designated by the manufacturer by a year model more than 4 years prior to the year in which the sale is made—\$17 per \$100 per year.

(2) Such finance charge shall be computed on the amount financed as determined under s. 520.07(2) on contracts payable in successive monthly payments substantially equal in amount. Such finance charge may be computed on the basis of a full month for any fractional month period in excess of 10 days. A minimum finance charge of \$25 may be charged on any retail installment transaction.

(3) When a retail installment contract provides for unequal or irregular installment payments, the finance charge may be at a rate which will provide the same yield as is permitted on monthly payment contracts under subsections (1) and (2) having due regard for the schedule of payment.

(4) Any sales finance company may purchase or acquire or agree to purchase or acquire from any seller any contract on such terms and conditions as may be agreed upon between them. Filing of the assignment, notice to the buyer of the assignment, and any requirement that the holder maintain dominion over the payments or the motor vehicle if repossessed shall not be necessary to the validity of a written assignment of a contract as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment of his contract, payment thereunder made by the buyer to the last known holder of such contract shall be binding upon all subsequent holders.

(5) The provisions of subsection (1) shall not apply to any retail installment contract for the purchase of a mobile home, titled as a motor vehicle, when such contract is entered into pursuant to a commitment to guarantee issued by the Veterans Administration or pursuant to a commitment to insure issued by the Federal Housing Administration.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**Note.**—This paragraph as amended by ch. 79-274 applies "only to loans or advances of credit made on or subsequent to" July 1, 1979, "and shall not be construed as diminishing the force and effect of any laws applying to loans or advances of credit completed prior to that date."

#### **520.09 Credit upon anticipation of payments.**

—Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may pay in full at any time before maturity the debt of any retail installment contract and in so paying such debt shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the finance charge after first deducting from such finance charge an acquisition cost of \$25, as the sum of the monthly balances after the month in which prepayment is made, bears to the sum of all the monthly balances under the schedule of payments in the contract. Where the amount of credit is less than \$1 no refund need be made.

**History.**—s. 8, ch. 57-799; s. 4, ch. 69-370; s. 3, ch. 76-168; s. 1, ch. 77-457.

to that date.

**§520.10 Refinancing retail installment contract.**—The holder of a contract, upon request by the buyer, may extend the scheduled due date of all or any part of any installment or installments, or deferred payment or payments, or renew or restate the unpaid balance of such contract, the amount of the installments and the time schedule therefor and may collect for such extension, deferment, renewal or restatement a refinance charge computed as follows: In the event the unpaid balance of the contract is extended, deferred, renewed or restated, the holder may compute the refinance charge on such amount by adding to the unpaid balance the cost for insurance and other benefits incidental to the refinancing plus any accrued delinquency and collection charges after deducting any refund which may be due the buyer at the time of the renewal or restatement by prepayment pursuant to s. 520.09, at the rate of the finance charge specified in s. 520.08(1) and by reclassifying the motor vehicle by its then year model, for the term of the refinancing agreement, but otherwise subject to the provisions of this act governing computation of the original finance charge. The provisions of this act relating to minimum finance charges under s. 520.08(2) and acquisition costs under the refund schedule in s. 520.09 shall not apply in calculating refinance charges on the contract extended, deferred, renewed or restated. If all unpaid installments are deferred for not more than 2 months, the holder may, at his election, charge and collect for such deferment an amount equal to the difference between the refund required for prepayment in full under s. 520.09 as of the scheduled due date of the first deferred installment, and the refund required for prepayment in full as of 1 month prior to said date, times the number of months in which no scheduled payment is made.

(1) Any person who shall willfully and intentionally violate any provision of this act or engage in the business of a sales finance company in this state without a license therefor as provided in this act shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.083.

(2) A willful violation of ss. 520.03, 520.07 or 520.08 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

**§520.30 Short title.**—This act may be cited as "The Retail Installment Sales Act."

**History.**—s. 1, ch. 59-414; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§520.31 Definitions.**—Unless otherwise clearly indicated by the context, the following words when used in this act, for the purposes of this act, shall have the meanings respectively ascribed to them in this section:

(1) "Goods" means all personalty when purchased primarily for personal, family or household use, including certificates or coupons issued by a retail seller exchangeable for personalty or services, but not including other choses in action, personalty sold for commercial or industrial use, money, motor vehicles or construction, mining or quarrying equipment. The term "goods" includes such personalty which is furnished or used, at the time of sale or subsequently, in the modernization, rehabilitation, repair, alteration, improvement or construction of real property as to become a part thereof, whether or not severable therefrom.

(2) "Motor vehicle" means any device or vehicle operated over the public highways and streets of this state and propelled by other than muscular power, but does not include traction engines, road rollers, implements of husbandry and other agricultural equipment and such vehicles as run only upon a track.

(3) "Services" means work or labor furnished for personal, family or household use, whether or not furnished in connection with the delivery, installation, servicing, repair or improvement of goods, and includes such work or labor furnished in connection with the modernization, rehabilitation, repair, alteration, improvement or construction upon or in connection with real property.

(4) "Retail buyer" or "buyer" means a person who buys goods or obtains services from a retail seller in a retail installment transaction and not principally for the purpose of resale.

(5) "Retail seller" or "seller" means a person regularly engaged in, and whose business consists to a substantial extent of, selling goods to a retail buyer.

(6) "Retail installment transaction" or "transaction" means a contract to sell or furnish or the sale of or the furnishing of goods or services by a retail seller to a retail buyer pursuant to a retail installment contract or a revolving account.

(7) "Retail installment contract" or "contract" means an instrument or instruments reflecting one or more retail installment transactions entered into in this state pursuant to which goods or services may be paid for in installments. It does not include a revolving account or an instrument reflecting a sale pursuant thereto.

(8) "Revolving account" or "account" means an instrument or instruments prescribing the terms of retail installment transactions which may be made thereafter from time to time pursuant thereto, under which the buyer's total unpaid balance thereunder, whenever incurred, is payable in installments over a period of time and under the terms of which a finance charge is to be computed in relation to the buyer's unpaid balance from time to time.

(9) "Cash price" means the price for which the seller would have sold or furnished to the buyer, and the buyer would have bought or obtained from the seller, the goods or services which are the subject matter of the retail installment transaction, if such sale had been a sale for cash. The cash price may include any applicable taxes and charges for delivery, installation, servicing, repairs, alterations, or improvements.

(10) "Official fees" mean fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting, releasing or satisfying, any security related to the credit transaction or the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges which would otherwise be payable to public officials.

(11) Except as otherwise provided in this part, finance charge shall mean the sum of all charges, payable directly or indirectly by the person to whom the credit is extended, and imposed directly or indirectly by the creditor as an incident to the extension of credit. Charges or premiums for credit life, accident, or health insurance, written in connection with any retail installment transaction, shall be included in the finance charge unless the coverage of the debtor by the insurance is not a factor in the approval by the creditor of the extension of credit and this fact is clearly disclosed in writing to the person applying for or obtaining the extension of credit and, in order to obtain the insurance in connection with the extension of credit, the person to whom the credit is extended gives specific affirmative written indication of his desire to do so after written disclosure to him of the cost thereof. However, if such insurance coverage is a factor in the ap-

proval by the seller of the extension of credit, a charge may be made for the insurance which shall be included in the finance charge for the purposes of disclosure and advertising, but shall be excluded from the finance charge for the purpose of determining maximum permitted charges. Charges or premiums for insurance, written in connection with any consumer credit transaction, against loss of or damage to property or against liability arising out of the ownership or use of property, shall be included in the finance charge unless a clear and specific statement in writing is furnished by the creditor to the person to whom the credit is extended, setting forth the cost of the insurance if obtained from or through the creditor and stating that the person to whom the credit is extended may choose the person through which the insurance is to be obtained. If fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting or releasing or satisfying, any security related to the credit transaction; the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges described above which would otherwise be payable; taxes; or any other type of charge which is not for credit and the exclusion of which from the finance charge is approved by the Department of Banking and Finance by regulation, are itemized and disclosed in connection with any transaction, then the creditor need not include that item in the computation of the finance charge with respect to that transaction.

(12) "Department" means the Department of Banking and Finance.

(2) Licenses shall be issued under and in accordance with the provisions of this act for a period which will expire December 31 next following the date of issuance. #### **§520.331 Denial, suspension or revocation of licenses.—**

(1) A license may be denied, suspended or revoked by the department on the following grounds:

(a) Material misstatement in application for license;

(b) Willful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If the licensee is a firm, association, or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No revocation, suspension, or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

#### **§520.34 Retail installment contracts.—**

(1)(a) A retail installment contract shall be in writing, shall be signed by both the buyer and the seller, and shall be completed as to all essential provisions prior to the signing of the contract by the buyer.

(b) The printed portion of the contract, other than instructions for completion, shall be in at least 6-point type. The contract shall contain the following notice:

#### **"Notice to the Buyer**

a. Do not sign this contract before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the contract you sign."

(c) The seller shall deliver to the buyer, or mail to him at his address shown on the contract, a copy of the contract signed by the seller. Before the transaction is consummated, a copy of the retail installment contract, or a separate statement by which the disclosures required by this section are made and on which the buyer and seller are identified, shall be delivered to the buyer, except as provided in s. 520.35. Any acknowledgment by the buyer of delivery of a copy of the contract, if contained in the contract, shall appear directly above or adjacent to the buyer's signature.

(d) The contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer, and a description of the goods.

(2) The contract shall contain the following:

(a) The cash price of the goods;

(b) The amount of the buyer's down payment, and whether made in money or goods or partly in money and partly in goods. If the down payment is in money it must be listed as "cash down payment"; if in property, it must be listed as "trade-in"; and if both, the sum must be listed as "total down payment";

(c) The difference between paragraphs (a) and (b), referred to as "unpaid balance of cash price";

(d) The amount, if any, included for insurance and other benefits, if not included in the finance charge, specifying the types of coverages and benefits;

(e) The amount of license taxes and official fees, if any;

(f) The amount financed, which is the sum of paragraphs (c), (d), and (e) of this subsection;

(g) The amount of the finance charge;

(h) The "total of payments," which is the sum of paragraphs (f) and (g), payable in installments by the buyer to the seller, the number of installments, the amount of each installment, and the due date or period thereof;

(i) The deferred payment price which is the sum of paragraphs (2)(a), (d), (e), and (g).

The above items need not be stated in the sequence or order set forth and additional items may be included to explain the calculations involved in determining the stated total of payments to be paid by the buyer.

(3) The maximum number of payments and the amount and date of each payment need not be separately listed if the payments are stated in terms of a series of scheduled amounts and if the amount of the final payment does not exceed the scheduled amount of any preceding installment; in such case the amount of the scheduled final payment may be stated as the remaining unpaid balance. The initial date for the payment of the first installment may be a calendar date or may refer to the time of delivery or installation.

(4) A retail installment contract need not be contained in a single document. If the contract is contained in more than one document, then one such document may be an original document applicable to purchases of goods or services to be made by the retail buyer from time to time, and in such case such document, together with the sales slip, account book, or other written statement relating to each purchase, shall set forth all of the information required by subsections (1) and (2) and shall constitute the retail installment contract for each such purchase.

<sup>2</sup>(5) Notwithstanding the provisions of any other law, the seller under a retail installment contract may charge, receive, and collect a finance charge which shall not exceed the following rates: On the amount financed, \$12 per \$100 per year. The finance charge under this subsection shall be computed on the amount financed of each transaction, as determined under paragraph (2)(f), on contracts payable in successive monthly payments substantially equal in amount, for the period from the date of the contract to and including the date when the final installment thereunder is payable. When a retail installment contract is payable other than in successive monthly payments substantially equal in amount, the finance charge may be at the effective rates provided in this subsection, having due regard for the schedule of payments. The finance charge may be computed on the basis of a full month for any fractional month period in excess of 10 days. Notwithstanding the other provisions of this subsection, a minimum finance charge not in excess of the following amounts may be charged on any retail installment contract: \$12 on any retail installment contract involving an initial amount financed of \$50 or more; \$7.50 on a retail installment contract involving an initial amount financed of more than \$25 and less than \$50; and \$5 on a retail installment contract involving an initial amount financed of \$25 or less.

(6) No retail installment contract shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed, except that, if delivery of the goods or services is not made at the time of execution of the contract, the identification of the goods or services and the due date of the first installment may be left blank and later inserted by the seller in the seller's counterpart of the contract after it has been signed by the buyer. The buyer's written acknowledgment, conforming to the requirements of subsection (1)(c) of delivery of a copy of a contract shall be presumptive proof, in any action or proceeding, of such delivery and that the contract, when signed, did not contain any blank spaces as herein provided.

(7) The seller under any retail installment contract shall, within 30 days after execution of the contract, deliver or mail or cause to be delivered or mailed to the buyer at his aforesaid address any policy or policies of insurance the seller has agreed to purchase in connection therewith, or in lieu thereof a certificate or certificates of such insurance. The amount, if any, included for insurance shall not exceed the applicable premiums chargeable in accordance with the rates filed with the Department of Insurance; if any such insurance is canceled, unearned insurance premium refunds and any un-

earned finance charges thereon received by the holder shall, at his option, be credited to the final maturing installments of the contract or paid to the buyer, except to the extent applied toward the payment for similar insurance protecting the interests of the seller and the holder or either of them. The finance charge on the original transaction shall be separately computed:

(a) With the premium for the canceled or adjusted insurance included in the "Amount Financed"; and

(b) With the premium for the canceled insurance or the amount of the premium adjustment excluded from the "Amount Financed."

The difference in the finance charge resulting from these computations shall be the portion of the finance charge attributable to the canceled or adjusted insurance, and the unearned portion thereof shall be determined by the use of the rule of 78ths. "Cancellation of insurance" occurs at such time as the seller or holder receives from the insurance carrier the proper refund of unearned insurance premiums. Nothing in this act shall impair or abrogate the right of a buyer to procure insurance from an agent and company of his own selection, as provided by the insurance laws of this state; and nothing contained in this act shall modify, alter or repeal any of the insurance laws of this state. The term "holder" as used in this act, means the retail seller unless seller has assigned the contract, in which case "holder" means the assignee of such contract at the time of the determination.

(8) If the buyer so requests, the holder shall give or forward to the buyer a receipt for any payment when made in cash. At any time after the execution of a contract, but not later than 2 months after the last payment thereunder, the holder shall, upon written request of the buyer, give or forward to the buyer a written statement of the dates and amounts of payments and the total amount, if any, unpaid thereunder. Such a statement shall be supplied by the holder once without charge; if any additional statement is requested by the buyer, the holder shall supply such statement to the buyer at a charge not exceeding \$1 for each additional statement so supplied.

(9) After payment of all sums for which the buyer is obligated under a contract, and upon written demand made by the buyer, the holder shall deliver or mail to the buyer, at his last known address, one or more good and sufficient instruments to acknowledge payment in full and shall release all security in the goods.

(10) Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may prepay in full at any time before maturity the unpaid balance of any retail installment contract and in so paying such unpaid balance shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the finance charge, after first deducting therefrom an acquisition cost of \$15, as the sum of the monthly balances beginning 1 month after prepayment is made bears to the sum of all the monthly balances under the schedule of

payments in the contract. When the amount of such refund credit is less than \$1 no refund need be made.

(11) In a retail installment transaction involving the modernization, rehabilitation, repair, alteration, improvement, or construction of real property:

(a) The buyer may be charged for and there may be collected from him, the reasonable fees and costs actually to be paid for construction authorizations and similar permits issued by public agencies and for title search, title insurance, and services of an attorney relating to any real property mortgage, lien or other encumbrance taken, granted, or reserved pursuant to the contract.

(b) The seller shall not request or accept a certificate of completion signed by the buyer prior to the actual delivery of the goods and completion of the work to be performed under the contract.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**Note.**—This subsection as amended by ch. 79-274 applies "only to loans or advances of credit made on or subsequent to" July 1, 1979, "and shall not be construed as diminishing the force and effect of any laws applying to loans or advances of credit completed prior to that date."

### **§520.35 Revolving accounts.—**

(1) Every revolving account shall be in writing and shall be completed prior to the signing thereof by the retail buyer. The printed portion other than instructions for completion, of any revolving account executed on or after January 1, 1960, shall be in at least 6-point type. Any such account shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer, and substantially the following notice:

#### **"Notice to the Buyer**

a. Do not sign this before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the paper you sign."

A copy of any such account executed on or after January 1, 1960, shall be delivered or mailed to the retail buyer by the retail seller prior to the date on which the first payment is due thereunder. Any acknowledgment by the buyer of delivery of a copy of the account shall be in a size equal to at least 6-point type and, if contained in the account, shall appear directly above or adjacent to the buyer's signature. No account executed on or after January 1, 1960, shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed. The buyer's acknowledgment, conforming to the requirements of this subsection, of delivery of a copy of an account, shall be presumptive proof, in any action or proceeding, of such delivery and that the account, when signed, did not contain any blank spaces as herein provided. All accounts executed on or after January 1, 1960, shall state the amount of, or the method of calculating, the finance charge to be charged and paid pursuant thereto or shall state that a finance charge not in excess of that permitted by this law will be charged and paid pursuant to such account.

(2) The retail seller under a revolving account

shall promptly supply the retail buyer thereunder with a statement as of the end of each monthly period (which need not be a calendar month), or other regular period agreed upon by the retail seller and the retail buyer, in which there is any unpaid balance thereunder, which shall recite the following:

(a) The unpaid balance under the account at the beginning and end of the period using the terms "previous balance" and "new balance";

(b) Unless otherwise furnished by the retail seller to the retail buyer by sales slip, memorandum, or otherwise, the cash price, and the date of each purchase during the period;

(c) The payments made by the retail buyer to the retail seller and any other credits to the retail buyer during the period, using the terms "payments" and "credits";

(d) The amount of the finance charge itemized, if any.

The items need not be stated in the sequence or order set forth above, and additional items may be included to explain the computations made in determining the amount to be paid by the retail buyer.

(3) Notwithstanding the provisions of any other law, the seller under a revolving account may charge, receive, and collect, a finance charge which shall not exceed 15 cents per \$10 per month, computed on all amounts unpaid thereunder from month to month (which need not be a calendar month) or other regular period; however, if the amount of the finance charge so computed shall be less than \$1 for any such month, a finance charge of \$1 for any such month may be charged, received, and collected. If the regular period is other than such monthly period or if the unpaid amount is less than or greater than \$5, the permitted finance charge shall be computed proportionately. Such finance charge may be computed for all unpaid balances within a range of not in excess of \$10 on the basis of the median amount within such range, if as so computed such finance charge is applied to all unpaid balances within such range.

**History.**—s. 6, ch. 59-414; s. 10, ch. 69-370; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

### **§520.351 Consolidated debts.—**

(1) If debts arising from two or more retail installment sales other than sales pursuant to a revolving account are secured by more than one security interest, or consolidated into one debt payable on a single schedule of payments and the debt is secured by security interests taken with respect to one or more of the sales, payments received by the seller are deemed, for the purpose of determining the amount of the debt secured by the various security instruments, to have been first applied to the payment of the debt arising from the sale first made. To the extent debts are paid according to this section, security interests in items of property terminate as the debt originally incurred with respect to each item is paid.

(2) Payments received by the seller upon a revolving account are deemed, for the purpose of determining the amount of the debt secured by the various security interests, to have been applied first to

the payment of credit service charges in the order of their entry to the account and then to the payment of debts in the order in which the entries to the account showing the debts were made.

(3) If the debts consolidated arose from two or more sales made on the same day, payments received by the seller are deemed, for the purpose of determining the amount of the debt secured by the various security interests, to have been applied first to the payment of the smallest debt.

**History.**—s. 1, ch. 73-35; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§520.36 Mail order and telephone sales.**—Retail installment contracts negotiated and entered into by mail or telephone without personal solicitation by salesmen or other representatives of the seller, when a catalog of the seller or other printed solicitation of business which is distributed and made available generally to the public clearly sets forth the cash price and other terms of sales to be made through such medium, may be made as provided in this section. All of the provisions of this part relating to contracts shall apply to such sales except that the seller shall not be required to deliver a copy of the contract to the buyer as provided in s. 520.34(1)(c), and if the contract when received by the seller contains any blank spaces, the seller may insert in the appropriate blank space the amounts of money and other terms which are set forth in the seller's catalog or other printed solicitation which is then in effect. In lieu of sending the buyer a copy of the contract as provided in s. 520.34(1)(c), the seller shall deliver to the buyer, not later than the date the first payment is due, a written statement of all disclosures required by this part. The seller shall be required to deliver a copy of the contract to the buyer at any time not later than when the first payment is due.

**History.**—s. 7, ch. 59-414; s. 11, ch. 69-370; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§520.37 Delinquency charges, attorney's fees and court costs.**—A retail installment contract may provide for payment by the buyer of a delinquency charge on each installment in default for a period not less than 10 days. Such charge may not exceed 5 percent of such installment or \$5, whichever is less. A retail installment contract or a revolving account may provide for the payment of reasonable attorney's fees if referred for collection to an attorney not a salaried employee of the retail seller and for the payment of court costs.

**History.**—s. 8, ch. 59-414; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§520.38 Transfer of contracts.**—Any retail seller may assign, pledge, hypothecate, or otherwise transfer a retail installment contract or revolving account to any person, firm or corporation on such terms and conditions and for such price as may be mutually agreed upon. Filing of the assignment, notice to the buyer of the assignment, and any requirement that any person maintain dominion over the payments under the contract or account or over the

goods if repossessed, shall not be necessary to the validity of a written assignment or transfer of a contract or account as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment, payment thereunder made by the buyer to the last known owner of the contract or account shall be binding on all subsequent owners thereof.

**History.**—s. 9, ch. 59-414; s. 3, ch. 76-168; s. 1, ch. 77-457.

#### **§520.39 Violations.**—

(1) Any person who shall willfully and intentionally violate any provision of this act shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.083.

(2) In case of a willful violation of this act with respect to any transaction, the retail buyer in such transaction may recover from the person committing such violation (or may set off or counterclaim in any action by such person) an amount equal to the finance charge and any delinquency charge and any attorney's fee and court costs charged and paid with respect to such transaction, but the retail seller may recover from the retail buyer an amount equal to the cash price of the goods or services in such transaction and the cost of any insurance purchased by the retail seller for the retail buyer in connection therewith.

(3) A willful violation of ss. 520.32, 520.34 or 520.35 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

(4) Notwithstanding the provisions of this section, no person shall be subject to any penalty for any failure to comply with any provision of this act until the retail buyer or the department has notified such person in writing of such failure and unless within 30 days after such notice such failure is not corrected by such person.

It shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the department has reason to believe the licensee is not complying with the provisions of parts II and III of this chapter. (2) When a contract is payable other than in substantially equal successive monthly installments, as when payable in irregular or unequal installments either in amount or periods or in regular installments followed by or interspersed with an irregular, unequal, or larger installment or installments or if the finance charge accrues from a date more than 1 month before the first installment is payable, the finance charge may not exceed an amount which, having due regard for the schedule of installment payments, will provide the same yield as if the home improvement contract were payable in accordance with the standard payment terms stated in subsection (1).

(3) If amounts for debt consolidation are included in the home improvement contract, the time price differential charge shall be computed as in subsections (1) and (2), but the charge computed on the principal amount advanced for debt consolidation shall not exceed 10 percent simple interest or the rate for simple interest set in the general usury statute, chapter 687.

A minimum charge of \$1 for the period of extension or deferral may be made in any case where the extension or deferral charge when computed amounts to less than \$1.

**526.51 Registration, renewals and fees; expenses; cancellation, etc.—**

(1)(a) Application for registration of each brand of brake fluid shall be made on forms to be supplied by the department. The applicant shall give his name and address, the brand name of the brake fluid, state that he owns said brand name and has complete control over the product sold thereunder in Florida and name and address of resident agent in Florida. Application shall be accompanied by a certified report of an independent testing laboratory, setting forth the analysis of said brake fluid which shall show its quality to be not less than the specifications established by the department for brake fluids. A sample of not less than one-half gallon of brake fluid shall be submitted, in a container or containers, labeled exactly as containers of brake fluid will be labeled when sold, and such sample and container shall be analyzed and inspected by the Division of Standards in order that compliance with the department's specifications and labeling requirements may be verified. Upon approval of such application, the department shall register the brand name of such brake fluid and issue to the applicant a permit authorizing the registrant to sell such brake fluid in this state during the permit year specified in the permit.

(b) Each applicant shall pay a fee of \$100 with each application. A permit may be renewed by application to the department, accompanied by a renewal fee of \$50 on or before the last day of the permit year immediately preceding the permit year for which application is made for renewal of registration. To any fee not paid when due, there shall accrue a penalty of \$25 which shall be added to the renewal fee.

Renewals will be accepted only on brake fluids which have no change in formula, composition or brand name. Any change in formula, composition or brand name of any brake fluid shall constitute a new product which shall be registered in accordance with the provisions of part II of this chapter.

(2) All fees collected under the provisions of this section shall be credited to the General Inspection Trust Fund of the department and all expenses incurred in the enforcement of this part II of this chapter shall be paid from said fund.

(3) The department may cancel, refuse to issue or refuse to renew any registration and permit after due notice and opportunity to be heard if it finds that the brake fluid is adulterated or misbranded or that the registrant has failed to comply with the provisions of part II of this chapter or the rules and regulations promulgated thereunder.

History.—s. 1, ch. 61-390; s. 2, ch. 61-119.

**526.52 Specifications, adulteration and misbranding.—**

(1) The department shall establish specifications for brake fluid which shall promote the public safety in the operation of automotive vehicles and may amend such specifications by regulation, but in no event shall the specifications for brake fluid fall below the minimum specifications established by the Society of Automotive Engineers for brake fluid, heavy duty type.

(2) A brake fluid is deemed to be adulterated if its contents have been changed after registration, without reregistration, or its quality or characteristics fall below the specification for brake fluid established by the department.

(3) Brake fluid is deemed to be misbranded:

(a) If its container does not bear on its side or top a label on which is printed the name and place of business of the registrant of the product, the words "brake fluid," and a statement that the product therein equals or exceeds the minimum specification of the Society of Automotive Engineers for brake fluid, heavy duty type. By regulation the department may require that the duty type classification appear on the label.

(b) If the container does not bear on its side or top an accurate statement of the quantity of the contents in terms of liquid measure.

(c) If the labeling on the container is false or misleading in any particular.

(4) The words and letters required by this section shall appear on the label in legible type, in English.

The department, through its agents, shall have free access during business hours to all premises, buildings, vehicles, cars or vessels used in the manufacture, packing, storage, sale or transportation of brake fluid, and may open any box, carton, parcel or container of brake fluid and take

therefrom samples for inspection and analysis or for evidence.

(2)(a) When any brake fluid is sold in violation of any of the provisions of part II of this chapter, all such brake fluid of the same brand name on the same premises on which the violation occurred shall be placed under a "stop-sale" order by the department. The department shall withdraw its "stop-sale" order upon the removal of the violation or upon voluntary destruction of the product, or other disposal approved by the department, under the supervision of the department.

(b) In addition to being subject to the "stop-sale" procedures above, unregistered brake fluid shall be held by the department or its representative, at a place to be designated in the "stop-sale" order, until properly registered and released in writing by the department or its representative. If application has not been made for registration of such product within 30 days after issue of the "stop-sale" order, such product shall be disposed of by the department to any tax-supported institution or agency of the state if the brake fluid meets legal specifications or by destruction if it fails to meet legal specifications.

(3) Any brake fluid which becomes the subject of a court proceeding shall be disposed of by order of the court.

(4) The department shall have authority to promulgate and enforce such rules and regulations as are necessary to carry out the provisions of part II of this chapter.

(5) No labeling relating to any brake fluid shall contain any statement that the brake fluid has been approved by the department, but a statement that the brake fluid has been registered by the department may be included in such labeling.

(3) Any person who violates any of the provisions of part II of this chapter or any rule or regulation promulgated thereunder shall, for the first offense, be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, and, for a second or subsequent offense, he shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

**History.**—s. 1, ch. 61-390; s. 509, ch. 71-136.

The definitions of basic units of weight and measure, the tables of weight and measure, and weight and measure equivalents as published by the National Bureau of Standards are recognized and shall govern weighing and measuring equipment and transactions in the state.

*History.*—s. 1, ch. 72-101.

**531.39 State standards.**—Weights and measures that are traceable to the United States prototype standards supplied by the Federal Government (Public Law 89-164, 1965), or approved as being satisfactory by the National Bureau of Standards, shall be the state primary standards of weights and measures, and shall be maintained in such calibration as prescribed by the National Bureau of Standards. In addition, there shall be provided by the state such secondary standards as may be necessary to carry out the provisions of this chapter. The secondary standards shall be verified upon their initial receipt and as often thereafter as deemed necessary by the department.

*History.*—s. 1, ch. 72-101.

**531.40 Technical requirements for commercial devices.**—The specifications, tolerances, and other technical requirements for commercial weighing and measuring devices, as determined by regulations adopted by the department, which regulations shall afford the greatest degree of protection to the public, shall conform to those adopted by the National Bureau of Standards to the extent possible. The department, notwithstanding the provisions of chapter 120, shall have the power to adopt by reference in a regulation or regulations adopted by it the specifications, tolerances, and technical requirements approved by the National Conference on Weights and Measures and published in Handbook 44 of the National Bureau of Standards. The department may, from time to time, adopt such regulations as may be necessary to conform the state standards to those of the National Bureau of Standards, which may be adopted by reference to supplements to, or revisions of, the National Bureau of Standards, Handbook 44.

*History.*—s. 1, ch. 72-101.

**531.41 Powers and duties of the department.**—The department shall:

- (1) Maintain traceability of the state standards to the National Bureau of Standards.
- (2) Enforce the provisions of this chapter.
- (3) Adopt reasonable rules to implement, interpret, or make specific the provisions of this chapter, which rules shall have the force and effect of law.
- (4) Establish, by rule, standards of weight, measure, or count and reasonable standards of fill for any commodity in package form, as necessary.

(5) Make, by rule, any exemptions from the provisions of this chapter when appropriate to the maintenance of good commercial practices within this state.

(6) Conduct investigations necessary to ensure compliance with this chapter.

(7) Delegate to appropriate personnel all duties and responsibilities necessary for the proper administration of this chapter.

(8) Test annually the standards of weight and measure used by any city or county and approve the same when found to be correct and reject same when found to be incorrect.

(9) Inspect and test all weights and measures kept or offered or exposed for sale.

(10) Inspect and test, to ascertain if they are correct, all weights and measures commercially used:

(a) In determining the weight, measure, or count of commodities or things sold or offered or exposed for sale, on the basis of weight, measure, or count; or

(b) In computing the basic charge or payment for services rendered on the basis of weight, measure or count.

In compliance with rules of the department, tests may be made on representative samples of such devices, and the lots of which samples are representative shall be held to be correct or incorrect on the basis of the results of the inspection and tests of such samples.

(11) Test all weights and measures used in checking the receipt or disbursement of supplies in every institution for the maintenance of which funds are appropriated by the legislature of this state.

(12) Approve for use, and mark, such weights and measures as it finds to be correct, and reject, and mark as rejected, such weights and measures as it finds to be incorrect. Weights and measures that have been rejected may be seized if not corrected within a reasonable time, or if used or disposed of in a manner not specifically authorized. The department shall condemn, and may seize, weights and measures found to be incorrect that are not capable of being made correct.

(13) Weigh, measure, or inspect packaged commodities kept or offered or exposed for sale, sold, or in the process of delivery, to determine whether they contain the amounts represented and whether they are kept or offered or exposed for sale in accordance with this chapter or the rules adopted pursuant thereto. In carrying out the provisions of this subsection, the department may employ recognized sampling procedures such as are designated in National Bureau of Standards, Handbook 67, "Checking Pre-packaged Commodities."

(14) Prescribe, by rule, the appropriate term or unit of weight or measure to be used, whenever it determines in the case of a specific commodity that an existing practice of declaring net quantity of contents by weight, measure, numerical count, or combination thereof does not facilitate value comparisons by consumers or offers an opportunity for consumer confusion.

(15) Inspect and test every grain moisture measuring device used to determine the moisture of corn, soybeans, and grains offered for sale, sold, pur-

chased, or in the process of being purchased. The department shall also have authority to establish tolerances and specifications for the accuracy and condition of these devices.

(a) In the event that such premises, or part thereof, are not open to the public, the representative of the department shall first present his credentials before seeking entry thereto.

(b) Any person refusing authorized entry is in violation of this chapter and shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.083. Such fine shall not be construed to be an elected alternative negating the authority to enter the establishment.

(c) In the event that such entry is denied, the representative of the department may apply for a search warrant from any person authorized to issue the same.

(3) On probable cause of violation of this chapter, empowered to stop any commercial vehicle, and the representative of the department may, after presentation of his credentials, inspect the contents, require that the person in charge of that vehicle produce any documents in his possession concerning the contents, and require him to proceed with the vehicle to some specified place for inspection. Any person refusing such inspection or failing to comply with any proper instructions is in violation of this chapter and shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.083. Such fine shall not be construed to be an elected alternative negating the authority to stop the vehicle, inspect the contents, or order that it be taken to a specified place.

(4) Empowered to issue stop-use, hold, and removal orders with respect to any weights and measures commercially used, and stop-sale, hold, and removal orders with respect to any packaged commodities or bulk commodities kept or offered or exposed for sale.

Whenever an advertised, posted, or labeled price per unit of weight, measure, or count includes a fraction of a cent, all elements of a fraction shall be prominently displayed, and the numeral or numerals expressing the fraction shall be immediately adjacent to, of the same general design and style as, and at least one-half the height and width of, the numerals representing the whole cent.

History.—s. 1, ch. 72-101.

**531.45 Method of sale.**—Except as otherwise provided by rule of the department, commodities in liquid form shall be sold by liquid measure or by weight, and commodities not in liquid form shall be sold only by weight, by area or volume measure, or by count, so long as the method of sale provides accurate quantity information.

History.—s. 1, ch. 72-101.

*History.*—s. 1, ch. 65-357; ss. 14, 35, ch. 69-106.

**534.021 Recording of marks and brands.**—The department shall be the recorder of livestock marks and brands and such marks and brands shall not be recorded elsewhere in the state. Any livestock owner who uses a mark or brand to identify his livestock must register such mark or brand by applying to the department for such registration. The application shall be made on a form prescribed by the department and shall be accompanied by a facsimile of the brand applied for and a statement of the county or counties in the state that applicant has or expects to have livestock bearing the mark or brand to be recorded. The department shall, upon its satisfaction that the application meets the requirements of this chapter, record such mark or brand. If an application be made to record a mark or brand previously recorded, the department shall determine whether the county or counties in which the mark or brand will be used is near enough to another county or other counties in which the previously recorded mark or brand is to be used to probably cause confusion or to aid theft or dishonesty, and if so, it shall be the duty of the department to decline to admit to record such a mark or brand. If a conflict should arise between the owner of any presently recorded mark or brand and another claiming the right to record the same mark or brand, the department

shall in all cases give preference to the present owner. The department shall charge and collect at the time of any such recording a fee of \$10 for each mark or brand. No person, firm or corporation shall use any mark or brand to which another has a prior right of record. It shall be unlawful to brand any animal with a brand not registered with the department.

(1) The registration of a mark or brand shall entitle the registered owner to exclusive ownership and use of such mark or brand for a period ending at midnight on the last day of the month 5 years from the date of registration. Such registration may be renewed, upon application and payment of a renewal fee of \$5, for successive 5-year periods, each ending at midnight on the last day of the month 5 years from the date of renewal. At least 30 days prior to the month of expiration of a registration, the department shall notify by letter the registered owner of the mark or brand that, upon application for renewal and payment of the renewal fee, the department shall issue a renewal certificate granting the registered owner exclusive ownership and use of such mark or brand for another 5-year period ending at midnight on the last day of the month 5 years from the date of renewal. Failure to make application for renewal within the month of expiration of a registration shall cause the department to send a second notice to the registered owner by registered mail at his last known address. Failure of the registered owner to make application for renewal within 30 days after receipt of the second notice shall cause such owner's mark or brand to be placed on an inactive list for a period of 12 months, after which it shall be canceled and become subject to registration by another person on application.

(2) For the purpose of transition to this system of renewal, however, any mark or brand on record as of June 30, 1975, may be renewed within the period beginning July 1, 1976, and ending December 31, 1976, for a lesser period than that provided by subsection (1) and at a renewal fee computed on a prorated basis pursuant to a schedule of periods and fees to be promulgated and published by the department. Such schedule shall be designed to stagger all such renewals over a 5-year period, with each renewal occurring in the same month as that of original registration. Failure of the registered owner to make application for renewal prior to January 1, 1977, shall cause such owner's mark or brand to be placed on an inactive list for a period of 12 months, after

which it shall be canceled and become subject to registration by another person on application.

However, if the transfer of possession is accomplished after normal banking hours, said payment shall be made in the manner herein provided not later than the close of the first business day following said transfer of possession. In the case of "grade and yield" selling, the purchaser shall make payment by wire transfer of funds or by personal or cashier's check by registered mail postmarked not later than the close of the first business day following determination of "grade and yield."

(b) All instruments issued in payment hereunder shall be drawn on banking institutions which are so located as not artificially to delay collection of funds through the mail or otherwise cause an undue lapse of time in the clearance process.

(3) In all cases in which a purchaser who purchases livestock for slaughter from a seller fails to make payment for the livestock as required by this section or artificially delays collection of funds for the payment of the livestock, the purchaser shall be liable to pay the owner of the livestock, in addition to the price of the livestock:

(a) Twelve percent damages on the amount of the price.

(b) Interest on the purchase price of the livestock at the highest legal rate from and after the transfer of possession until payment is made as required by this section.

(b) The lien provided in this subsection shall be deemed to have attached and to be perfected upon delivery of the livestock to the purchaser without further action, and such lien shall continue in the livestock and its carcass, all products therefrom, and proceeds thereof without regard to possession thereof by the party entitled to such lien without further perfection.

(c) If the livestock or its carcass or products therefrom are so commingled with other livestock, carcasses, or products so that the identity thereof is lost, then the lien granted in this subsection shall extend to the same effect as if same had been perfected originally in all such animals, carcasses, and products with which it has become commingled. However, all liens so extended under this paragraph to such commingled livestock, carcasses, and products shall be on a parity with one another, and, with respect to such commingled carcasses or products upon which a lien or liens have been so extended under this paragraph, no such lien shall be enforceable as against any purchaser without actual knowledge thereof purchasing one or more of such carcasses or products in the ordinary course of trade or business from the party having commingled such carcasses or products or against any subsequent transferee from such purchaser, but in the event of such sale, such lien shall instead extend to the proceeds of such sale.

(2)(a) It is unlawful for any person to show or exhibit, or enter for the purpose of showing or exhibiting, in any horse show or exhibition, any horse which is sored.

**535.11 Prohibition against administration of drugs; testing; search powers of department; penalties.—**

(1) As used in this section, unless the context otherwise requires:

(a) "Stimulant" means any medication which stimulates the circulatory, respiratory, or central nervous system.

(b) "Depressant" means any medication which depresses the circulatory, respiratory, or central nervous system.

(c) "Forbidden substance" means any stimulant, depressant, tranquilizer, or local anesthetic which might affect the performance of a horse.

(d) "Trainer" means any adult who has the responsibility for the care, training, custody, or performance of a horse. Said person may be an owner, rider, agent, or coach, as well as trainer.

(2) No horse shall be entered, shown, or exhibited in any class in any horse show or exhibition, or entered, exhibited, or sold in a horse sale, if it has been administered, in any manner, any forbidden substance, in violation of the provisions of this section, or any new drug, regardless of how harmless or innocuous such drug might be, if such drug by its very nature might mask or screen the presence of a forbidden substance or prevent or delay testing procedures. Except for substances on the pastern area of walking horses, the full use of modern therapeutic measures for the improvement and protection of the health of the horse, including phenylbutazone, is permitted, unless the drug given may also stimulate or depress the circulatory, respiratory, or central nervous system or act as a tranquilizer or local anesthetic.

(3) In the absence of substantial evidence to the contrary, trainers are responsible for a horse's condition and for compliance with all laws and rules concerning the showing and exhibiting of horses and the sale of horses. If any trainer is prevented from performing his duties, including the responsibility for the condition of the horses in his care, by illness or

other cause, or is absent from any show or sale where horses under his care are entered and stabled, he shall immediately notify the horse show or sales company management and, at the same time, appoint a substitute. Such substitute shall be equally responsible with the regular trainer for the condition of the horses in his care. When a minor exhibitor has no trainer, a parent or guardian must assume the responsibility of trainer.

(4) Any trainer or other person who administers, attempts to administer, instructs, aids, or conspires with another to administer, or employs anyone who administers or attempts to administer, a forbidden substance to a horse, either before or during a horse show or sale, without complying with the provisions of subsection (5), shall be subject to the penalties provided in s. 535.12.

(5) Any horse being exhibited at a horse show or entered in any sale that receives any medication which contains a forbidden substance shall not be eligible for competition in such show or to be sold at such sale unless the following requirements have been met and the facts requested are furnished in writing:

(a) The medication must be therapeutic and necessary for treatment of an illness or injury.

(b) The horse must be withdrawn from competition or from any sale for a period of not less than 24 hours after the medication is administered.

(c) The medication must be administered by a licensed veterinarian, if available, or in his absence, only by the trainer.

(d) A written statement setting forth the following information must be furnished:

1. Identification of the medication, and the amount, strength, and mode of administration.

2. Date and time of administration.

3. Identification of the horse's name, age, sex, color, and entry number, if available.

4. Diagnosis and reason for administration.

The statement shall be signed by the person administering the medication and filed with a representative of the management of the horse show or sale within 1 hour after administration, or within 1 hour after such representative returns to duty, if administration is made at a time other than during show or sale hours. The statement shall be signed by said representative, who shall also record the time of receipt on the statement.

(6) Any horse entered in any horse show or exhibition or entered in any horse sale shall be subject to examination by an approved veterinarian representing the Department of Agriculture and Consumer Services. The veterinarian may appoint a technician to perform certain duties under his direction. The examination may include physical, saliva, urine, and blood tests, and, with the trainer's consent, the administration of a drug to induce urination, or any other test or procedure, in the discretion of the veterinarian, necessary to effectuate the purposes of this section. The veterinarian may examine any or all horses in a class or in all classes in a show, or any horse entered in any class, whether in competition or not and whether or not on the show ground, or any horse withdrawn by an exhibitor within 24 hours

prior to the class for which it has been entered, or any horse entered in any horse sale. Every exhibitor, trainer, and consignor shall, upon request of the veterinarian, permit such test specimens as are necessary to be taken. Any person who refuses to submit a horse for examination or to cooperate with the veterinarian or his agents shall be subject to the penalties provided in s. 535.12.

(7) A representative of the Department of Agriculture and Consumer Services may enter the stable, tack room, automobile, van, or any other place within the enclosure of a horse show or horse sale to inspect or examine the personal effects and property of every trainer and his employees or agents. If reserpine or any drug containing reserpine is found in any of such locations, the trainer responsible for the area in which the drug is found shall be subject to the penalties provided in s. 535.12. If such representative has reason to believe that bottles or containers contain reserpine, such bottles or containers may be removed from the custody of any trainer or his employees or agents for testing. The Department of Agriculture and Consumer Services or its agents or any veterinarian representing the department shall not be liable for any actions lawfully taken by them in carrying out the provisions of this subsection.

(8) Each horse show and sales company shall set aside suitable facilities conveniently located for the veterinarian representing the Department of Agriculture and Consumer Services to make tests under the provisions of this section.

(9) If the chemical analysis of saliva, urine, or other samples taken from a horse indicate the presence of a forbidden substance, this shall be prima facie evidence that the forbidden substance has been administered to the horse. If any such analysis so indicates the presence of a forbidden substance, and all the requirements of subsection (5) have been fully complied with, the information contained in the statement required by paragraph (d) of said subsection and any other relevant evidence shall be considered in determining guilt or innocence of any person charged under the provisions of this section.

(10) The owner or owners of a horse found to have been administered a forbidden substance in violation of this section shall forfeit all prize money or sweepstakes and any trophies and ribbons won at any show by said horse and the same shall be redistributed accordingly.

(2) Upon all applications filed and approved a permit shall be issued to the applicant setting forth the name, the location of the racetrack, the kind of racing desired to be conducted and a statement showing qualifications of the applicant to conduct racing at said track under this chapter; provided, however, no permit shall be effectual to authorize any race until ratified by a majority of the electors participating in said election, and in the county in which applicant proposes to conduct racing; and provided further that no application shall be considered and no permit shall be issued by the division nor voted upon in any county to conduct running horse races, harness horse races or dograces at a location within 100 miles of another location for which a permit has been issued and a racing plant located, said distance to be measured on a straight line from the nearest property line of one racing plant to the nearest property line of the other, except that permits heretofore issued and ratified by a majority of

**550.055 Greyhound dogracing permits; relocation within a county; conditions.—**

(1) It is the finding of the legislature that pari-mutuel wagering on greyhound dogracing provides substantial revenues to the state. It is the further finding that, in some cases, this revenue-producing ability is hindered due to the lack of provisions allowing the relocation of existing dogracing operations. It is therefore declared that state revenues derived from greyhound dogracing will continue to be jeopardized if provisions allowing the relocation of such greyhound racing permits are not implemented. This enactment is made pursuant to, and for the purpose of, implementing such provisions.

(2) Any holder of a valid outstanding permit for greyhound dogracing in a county in which there is only one dogracing permit issued is authorized, without the necessity of an additional county referendum required under s. 550.06, to move the location for which the permit has been issued to another location within a 30-mile radius of the location fixed in the permit issued in that county, provided that said move does not cross the county boundary, that such relocation is approved under the zoning regulations of the county or municipality in which the permit is to be located, and that such a move is approved by the Department of Business Regulation after it is determined at a proceeding pursuant to chapter 120 in the county affected that said move is necessary to ensure the revenue-producing capability of the permittee without deteriorating the revenue-producing capability of any other pari-mutuel permittee within 50 miles, said distance to be measured on a straight line from the nearest property line of one racing plant to the nearest property line of the other.

**History.**—ss. 1, 2, ch. 74-267; s. 1, ch. 77-174; s. 9, ch. 78-95; s. 8, ch. 79-4.

**550.06 Elections for ratification of permits.—**

(1) The holder of any permit may have submitted to the electors of the county designated therein the question whether or not said permit shall be ratified or rejected. Such questions shall be submitted to the electors for approval or rejection at a special election to be called for that purpose only. The board of county commissioners of the county designated, upon the presentation to said board at a regular or special meeting of a written application, accompanied by a certified copy of the permit granted by the Division of Pari-mutuel Wagering, and asking for an election in the county in which said application was made, shall order a special election in said county for the particular purpose of deciding whether such permit shall be approved and license issued and race meetings permitted in such county by such permittee; and shall cause the clerk of such board to give notice of said special election by publishing the same once each week for 2 consecutive weeks in one or more newspapers of general circulation in said county; each permit covering each track shall be voted upon separately and in separate elections and no election shall be called more often than once every 2 years for

the ratification of any permit covering the same track.

(2) All elections ordered under this chapter shall be held within 90 days and not less than 21 days from the time of presenting such application to said county commissioners, and the inspectors of election shall be appointed and qualified as in cases of general elections and they shall count the votes cast and make due returns of same to the county commissioners without delay. The county commissioners shall canvass the returns, declare the results, and cause the same to be recorded as provided in the general law concerning elections so far as applicable.

(3) Provided, that where a permit has been granted by the division and no application to the board of county commissioners has been made by the permittee within 6 months after the granting of the permit, the same shall be void, and the division shall cancel such permit without notice to the holder thereof, and the board of county commissioners holding the deposit for the election shall refund to the holder of the permit said deposit upon being notified by the division that the permit has become void and canceled; provided further, that where, upon a permit issued, an election has been held and such permit ratified, as herein provided, and the holder of the ratified permit has failed to construct a track suitable to conduct a race meeting within 12 months after the ratification of said permit, then the permit shall be void and the division shall cancel such permit without notice to the holder thereof.

(4) For such election all electors duly registered and qualified to vote at the last preceding general election held in such county shall be qualified electors for such election, and in addition thereto the registration books for such county shall be opened on the 10th day (if the 10th day be Sunday or a holiday, then on the next day not a Sunday or holiday) after said election is ordered and called, and shall remain open for a period of 10 days for additional registrations of persons qualified for registration but not already registered, and electors for such special election shall have the same qualifications for and prerequisites to voting in elections as under the general election laws.

(5) If at any such special election the majority of the electors voting on the question of ratification or rejection of any permit shall vote against such ratification, then such permit shall be void. If a majority of the electors voting on the question of ratification or rejection of any permit shall vote for such ratification, then such permit shall become effectual and the holder thereof may conduct racing upon complying with the other provisions of this chapter. The county commissioners shall immediately certify the results of the election to the division; provided, that the expense of holding the said election shall be paid for by the permitholder as provided for in s. 550.02(6).

(1) No license shall be granted to any person or to any racetrack for a meet or meeting in any county to extend longer than an aggregate of 50 racing days for thoroughbred horse racing, 120 days for quarter horse racing, and 105 days for dogracing in any racing season; provided the Florida Pari-mutuel Commission is authorized to grant 1 additional day of racing during the race meeting period granted to any track as provided by law, upon application and agreement by any track in which 1 specific day of any meet shall be set aside, and all profit, less actual operating costs, from such specific day's operations of such track including all taxes payable to the state or any agency thereof for such day's operation shall be paid into the state treasury for a scholarship trust fund which shall be administered by the Board of Regents for the granting of scholarships for the purpose of attending the institutions of higher learning of the state upon such terms and conditions as the said board may from time to time prescribe. Actual operating costs of any track conducting such additional day of racing to be deducted from all receipts on such additional day of racing shall not include expenses constant from day to day and which would have been incurred had the race on that day not been held; including, but not limited to, such items such as capital expenditures; interest on debts; real estate taxes and annual license fees; donations; bad debts; and such other items of daily or prorated expense as the Division of Pari-mutuel Wagering may by rule prescribe.

(2) The provisions of this section are supplemental to s. 550.081 and shall be construed as authority for granting additional days of racing above the total of 120 days' limitation therein except that each horse racetrack may run only 1 additional day as herein provided during its race meeting period as authorized by said law and the 120 days' limitation therein shall in no event be extended beyond 3 additional days.

#### **550.081 Allocation of horseracing periods of operation.—**

(1) When there are three or more winter thoroughbred horse racing permittees located within a 35-mile radius of each other, an annual winter thoroughbred racing season consisting of 144 racing days, plus authorized charity and scholarship racing days, exclusive of Sundays, is hereby authorized. Each of said winter permittees is hereby authorized to operate in only one of the three periods of racing hereinafter set out, and all racing days, including charity and scholarship days, shall be run consecu-

tively. Each racing period is hereby established as follows:

(a) The first period shall consist of 50 racing days, plus charity and scholarship racing days.

(b) The second period shall consist of 44 racing days. No charity or scholarship racing days may be operated during the second period.

(c) The third period shall commence upon the completion of the second period and shall consist of 50 racing days, plus charity and scholarship racing days.

In allocating the racing periods contained herein, the <sup>3</sup>Board of Business Regulation shall not permit the second period of racing set forth above to commence before January 15 of each year and shall take into account the ability of all winter permitholders to maximize handle throughout the entire racing season so as to generate overall the maximum state revenues from winter permitholders collectively. Charity and scholarship racing days authorized for the permittee operating the second period may be assigned to the permittee operating the first or third periods to be operated for the benefit of the permittee operating the second period, but there shall be no requirement that the permittee operating the first or third period shall operate any charity or scholarship days without said permittee's consent.

(2) On or before May 1 of each year, each of the winter thoroughbred horserace permittees shall file in writing with the <sup>4</sup>Board of Business Regulation its request for the racing period and the number of days and dates the permittee wishes to operate. On or before May 15 of each year, the Division of Pari-mutuel Wagering shall issue an annual license authorizing the permittee to conduct a racing meet during the period granted by the <sup>3</sup>Board of Business Regulation for the number of days applied for by each permitholder.

(3) In the event any winter thoroughbred horse racing track is prevented from operating any portion of the racing period allocated to it as a result of prohibition of law or as a result of fire, strike, or circumstances beyond the control of the track involved, the track so prevented from operating shall be entitled to allocate its unused days and dates to another winter thoroughbred horse track permitholder located within a 35-mile radius of such track; however, no such allocation shall change or alter any other annual racing period already assigned. In the event the track so prevented <sup>2</sup>[from operating] is unable to allocate its unused days and dates within 1 racing day after it becomes necessary, the Director of the Division of Pari-mutuel Wagering is specifically authorized to so allocate the unused days and dates as to protect the tax revenue of the state.

(4) The Division of Pari-mutuel Wagering is hereby prohibited from granting any permit, and there shall be no election in any county for the ratification or rejection of any permit, to conduct horseracing or sulky or harness racing at a location in an area in which there are three horse racetracks located within 100 air miles of each other. However,

permits issued prior to May 21, 1968, and permits for summer thoroughbred horse racing and quarter horse racing shall not be affected by this subsection.

**Note.**—Section 2, ch. 79-300, provides that s. 550.081, as it existed on June 30, 1979, shall remain in effect until July 1, 1980, on which date it shall be superseded by s. 550.081 as it existed on May 28, 1975, to read as follows:

**550.081 Allocation of horseracing periods of operation.**—

(1) It is the finding of the Legislature of the state that the operation of horseracing and legalized pari-mutuel and mutuel betting at horse racetracks in this state is a substantial business compatible to the best interests of the state and the taxes derived therefrom constitute an integral part of the tax structures of the state and counties. It is the further finding of the Legislature that two or more horse racetracks located within a radius of 100 air miles of each other cannot operate on the same racing days without endangering the tax revenue derived therefrom and the general welfare of the public. It is the further finding of the Legislature that where more than one horse racetrack is located in a radius of 100 air miles of one or more horse racetracks and the allocation and distribution of periods of operation to and between said horse racetracks is vested solely in the discretion of the Board of Business Regulation, that the power to change, alter, and vary such racing periods from year to year, as it may see fit, is unsound and unwise, and creates a condition of uncertainty which retards the natural expansion and development of this business and influences and affects the financial stability of the state and counties. It is therefore declared to be the policy of the state that the present danger to the growth and welfare of horseracing and to the tax structure of the state and counties be eliminated insofar as the discretionary powers of the Board of Business Regulation in allocating dates to the horse tracks are concerned, and this enactment is made pursuant to and for the purpose of carrying out such policy.

(2) When three or more horse racetracks in this state are located in a radius of 100 air miles of each other, the annual period of operation of such horse racetracks shall begin on December 1 of each year and continue for a full period of 120 consecutive days, exclusive of Sundays, and each of said horse racetracks is hereby permitted to race for a full period of 40 consecutive racing days, exclusive of Sundays. Such 40-day racing periods are hereby established as follows: The first period to consist of the first consecutive 40 racing days of such annual racing period, the second period to consist of the second consecutive 40 racing days of such annual racing period, and the third period to consist of the third consecutive 40 racing days of such annual racing period. The periods of operation described in this section refer to the winter thoroughbred horse racing season and the provisions of this section shall in no way affect the summer thoroughbred horse racing season defined in s. 550.41. The holder of a winter thoroughbred horse racing permit shall not conduct summer thoroughbred horse racing, and a permitholder for summer thoroughbred horse racing shall not conduct winter thoroughbred horse racing.

(3) The three racing periods hereinabove established shall be annually allocated by the Board of Business Regulation in the following manner: The horse racetrack having produced the largest amount of tax revenue during the preceding year of its operation shall be granted its choice of the three established racing periods. The horse racetrack having produced the second largest amount of tax revenue during the preceding year of its operation shall be granted its choice of the remaining two established racing periods. The horse racetrack having produced the third largest amount of tax revenue during the preceding year of its operation shall be allocated the racing period remaining after the two tracks producing the largest amount of tax revenue shall have made their selections; provided, however, that if any one or more tracks entitled to a choice of racing periods as provided for herein shall fail to make a selection, the board shall thereupon assign a 40-day racing period to said track or tracks, which period it shall be required to operate unless relieved therefrom by order of the board; provided further, that if any track heretofore allocated racing dates shall fail or refuse to operate for its full 40-day period, unless prohibited by law or causes beyond its control, then the board may, upon request of any one of the other two tracks affected by this law, allocate the remaining racing dates to either or both of the two established horse racing tracks.

(4) On or before May 1 of each year, each of the horse racetracks shall file in writing with the board in accordance with the procedure set forth in subsections (2) and (3) its selection of the racing period hereinabove established that it desires to operate and conduct its racing meet. On or before May 15 of each year the Division of Pari-mutuel Wagering shall issue an annual license authorizing the permitholder to conduct a racing meet during the period set forth therein. Such license shall be issued by the Division of Pari-mutuel Wagering to the permitholder on the basis of and in accordance with the procedure set forth in subsections (2) and (3).

(5) In the event any track shall be prevented from operating a full 40-day racing season, as a result of prohibition of law, fire, strike or circumstances beyond the control of the track involved, then the Board of Business Regulation in allocating and setting racing dates for the following racing season shall be governed by the amount of tax revenue produced by each track during the last racing season in which all tracks governed by this bill operated a full 40-day racing period and dates shall be allocated to the tracks under such circumstances in the manner set forth in subsections (2) and (3).

(6) The Division of Pari-mutuel Wagering is hereby prohibited from granting any permit and there shall be no election in any county for the ratification or rejection of any permit to conduct horseracing, sulky or harness racing at a location in the area in which there are three horse racetracks located within 100 air miles of each other; however, permits issued prior to May 21, 1968, and permits for summer thoroughbred horse racing and quarter horse racing shall not be affected by this subsection.

**Note.**—Bracketed language inserted by the editors.

**Note.**—Sections 1 and 3, ch. 78-131, Laws of Florida, abolished the Board of Business Regulation and created the Florida Pari-mutuel Commission with authority to hear and approve the dates and changes of dates for racing and the dates within which any track may be operated.

**\*Note.**—Sections 1 and 3, ch. 78-131, Laws of Florida, abolished the Board of Business Regulation and directed that references to the board be changed to "Department of Business Regulation" or "department." The change will be implemented by means of reviser's bill.

**Note.**—See ch. 28499, 1953, Hillsborough County; racing, extra day; athletic scholarships.

**550.082 Special allocation of periods of operation of certain dogracing tracks.—**

(1) Where there are three or more dogracing tracks operating under valid outstanding permits, issued by the Division of Pari-mutuel Wagering, located within a radius of 35 miles of each other, one of such permitholders within said area shall be permitted, at its option, but shall not be required, during the period beginning July 1 and ending the first Monday of September following, both dates inclusive, of any year, to conduct upon dates of its choice not more than 50 days of its aggregate number of operating days allowed by s. 550.08; provided that where two or more of such permittees apply for racing dates, as herein provided, the Florida Pari-mutuel Commission shall designate the permittee entitled to conduct such racing during such 50-day period, and the remaining number of said aggregate days under s. 550.08 shall be granted to and utilized by such permittee within the period provided in s. 550.04.

(2) This section shall be cumulative and shall not be construed as repealing any other provisions of law, and shall not be construed as permitting or allowing any permitholder to operate for a period of time in excess of the number of days now provided by law.

**History.**—ss. 1, 3, ch. 59-417; s. 2, ch. 71-98; s. 11, ch. 79-4.

**550.083 Dogracing; periods of operation generally; exceptions.—**

(1) Owners of valid outstanding permits for dogracing in this state may hold race meetings at any time they choose during the "racing season" for the aggregate number of racing days fixed and permitted by law and subject to the approval of the Florida Pari-mutuel Commission, except that no racing shall be conducted on Sunday. The words "racing season" as used herein mean that period of time extending from September 5 of each year through September 4 of the following year, commencing with September 5, 1973.

(2) The provisions of this act shall not apply to or affect holders of valid permits to conduct greyhound racing or jai alai at greyhound racetracks or jai alai frontons located in Florida in the area between the parallels of 28° N. latitude and 30° N. latitude and lying east of the meridian of 82° W. longitude.

**550.0831 Dogracing; racing periods.—**Any pari-mutuel permitholder conducting dogracing in 1977 and thereafter in a county having only one such racetrack may conduct dograce meets or meetings upon the days and dates of such permitholder's choice, except that no racing shall be conducted on Sunday, not to exceed the total of 105 racing days in each racing year, plus charity and scholarship days.

**History.**—s. 1, ch. 78-319.

**550.0841 Restoration of performances lost by permittee.—**The Florida Pari-mutuel Commission may, upon application by a racetrack or jai alai permittee, grant additional performances to the permittee for the purpose of restoring any performances lost due to circumstances beyond the control of the permittee. The commission shall determine when said additional performances will be run by the permittee. In the event that insufficient days remain in a permittee's season to enable the granting of additional performances, the commission may grant the additional performances in the subsequent season, notwithstanding the limitations of the number of days contained in ss. 550.08(1) and 551.12.

(1) Every person engaged in the business of conducting race meetings under this chapter shall pay to the State Treasurer, in his capacity as ex officio treasurer of the Division of Pari-mutuel Wagering, for the use of the division a sum equal to 3 percent of the total contributions to all pari-mutuel pools conducted or made on any and every racetrack licensed under this chapter and on every race at such track. In addition to the aforesaid taxes, every permitholder licensed by the Division of Pari-mutuel Wagering under the laws of this state shall collect from each person attending such races 15 percent of the established admission price or the sum of 10 cents, whichever sum is the greater, as an admission tax, which tax shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state. The admissions tax hereby imposed shall be calculated on the total of the entrance gate admission charge made by any permittee. Payments shall be made every 30th day of any race meeting and shall be accompanied by a report under oath showing the total of all gate admissions on the races covered by such report.

(2) If any free passes or complimentary cards shall be issued to guests by any licensee, the licensee of any such track shall pay to the division the same tax upon such complimentary admission cards each time they are used for admission to the track as though such complimentary passes or cards had been sold at the regular and usual admission rate; provided that the person conducting any race meeting in this state may issue tickets for admission, showing the amount of admission and the amount of tax to be paid by each person; however, this provision shall not be construed to mean that the association will not be held liable for the payment of the admission tax to the State Treasurer as ex officio treasurer of the division; provided, however, that a racetrack permitholder may, by and with the consent of the division, issue tax-free passes to its officers, officials and employees or other persons actually engaged in working at such racetrack, including persons actually employed and accredited press representatives, such as reporters and editors, and may also issue tax-free passes and tax-free box seats to other racing plant permitholders. A list of all per-

sons to whom tax-free passes or tax-free box seats are issued shall be filed with the division.

The additional 0.6 percent shall be paid to the State Treasurer for deposit in the General Revenue Fund. However, this section shall not apply to any permittee conducting quarter horse racing under the provisions of s. 550.33.

**550.10 Occupational license tax to be paid by employees; denial and revocation of license.**—

(1) All persons connected with racetracks shall pay an annual occupational license tax, this occupational tax to be payable for each specified job performed. The scheduled license fees are as follows:

(a) Contractual concessionaires with permitholders, \$25.

(b) Professional persons such as owners, trainers, veterinarians, doctors, nurses, officials and supervisors of all departments, \$10.

(c) Jockeys, apprentice jockeys, jockey agents, and jai alai players, \$5.

(d) Permitholder employees, concession employees, grooms, exercise boys, hot-walkers, miscellaneous stable help, platers and all others not specifically provided, \$4.

(3) Every racetrack operating in the state and having a license from the Division of Pari-mutuel Wagering shall be required to employ at least 85 percent of their employees from bona fide residents and citizens of the state, exclusive of jockeys or apprentices, exercise boys, owners, trainers, clockers and governing and managing officials and heads of the departments of the track.

(4)(a) The division may deny or revoke a license to any person who shall have been refused a license by any other state racing commission or racing au-

thority; provided, however, that the state racing commission or racing authority of such other state extends to the Florida Division of Pari-mutuel Wagering reciprocal courtesy to maintain the disciplinary control.

(b) The Division of Pari-mutuel Wagering may deny or revoke any license where the holder thereof has violated the rules and regulations of the division governing the conduct of persons connected with the racetracks.

**550.12 Uniform reporting system.**—

(1)(a) It is the finding of the Legislature that a uniform reporting system should be developed to provide acceptable uniform financial data and statistics which the state may use to review the operations of pari-mutuel permitholders in order to exercise a reasonable degree of control over the activities of the pari-mutuel industry.

(b) It is further the finding of the Legislature that this reporting system should also provide the various permitholders and industry groups and associations with a source of comparable data which may be used to analyze and improve operations of a single permitholder or of permitholder groups.

(2)(a) Every person conducting race meetings or jai alai exhibitions under this chapter shall so keep records as clearly to show the total number of admissions and the total amount of money contributed to every pari-mutuel pool on each race or exhibition separately and the amount of money received daily from admission fees and, within 120 days after the conclusion of its fiscal year, shall submit to the Division of Pari-mutuel Wagering a complete annual report of its accounts, certified by a public accountant licensed to practice in the state. If the fiscal year of a track or fronton should end during the course of its meet or exhibition, the report shall be filed with the division within 120 days after the end of such meet or exhibition.

(b) Each holder of a pari-mutuel permit shall, commencing May 29, 1975, and every 4 years thereafter, file with the division an appraisal, prepared by a member of any nationally recognized professional appraisal society or association, of the fair value of

the business, plant, and properties incident to the conduct and operation of the business of the pari-mutuel permittee. In the case of new permittees, said appraisal shall be filed within 180 days after commencing operation and every 4 years thereafter.

<sup>1</sup>(c) The division may make rules for the form and content of such reports, including, but not limited to, requirements for a statement of assets and liabilities, operating revenues and expenses, and net worth, and for any supporting informational schedule found necessary by the division to verify the foregoing financial statement, to permit the division to:

1. Assess the profitability and financial soundness of permitholders, both individually and as an industry;
2. Plan and recommend measures necessary to preserve and protect the pari-mutuel revenues of the state; and
3. Completely identify the holdings, transactions, and investments of permitholders with other business entities.

Such reports shall be certified by a public accountant licensed to practice in this state.

(d) The Auditor General may audit and check the books and records of any such person and upon the request of the division shall do so. Any association whose meeting has terminated prior to the effective date of this act shall submit its audit under prior existing rule. These audit reports shall become part of, and be maintained in, the division files.

(c) The division may make rules for the form and content of such reports, including, but not limited to, requirements for a statement of assets and liabilities, operating revenues and expenses, and net worth, and for any supporting informational schedule found necessary by the division to verify the foregoing financial statement, to permit the division to:

1. Assess the profitability and financial soundness of permitholders both individually and as an industry,
2. Plan and recommend measures necessary to preserve and protect the pari-mutuel revenues of the state,
3. Completely identify the holdings, transactions, and investments of permitholders with other business entities.

**550.13 Division of moneys derived under this law.**—All moneys received by the State Treasurer as ex officio treasurer of the Division of Pari-mutuel Wagering shall be distributed in the following proportions in the manner and at the times hereinafter specified:

(1) All such moneys, after expenses of the division are paid, shall, to the extent to which such moneys after expenses do not exceed in any year the total of such moneys after expenses so paid for the fiscal year 1971, be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county, and any excess of such moneys after expenses during any year shall be paid into the General Revenue Fund.

(2) Distribution among the several counties shall begin each racing year on or before January 5 and shall continue monthly through April 5; and on or before May 5 the State Comptroller shall determine and make a finding of all receipts and all moneys paid out upon warrants of the Comptroller during the year, and the balance remaining on hand as shown by such statement shall be distributed among

the several counties of the state, except that prior to making such distribution there shall be retained and reserved in the State Treasury a sum not to exceed \$40,000 to the credit of the division for salaries and expenses.

(3) This section shall be construed to permit, after expenses of the division are paid, the retention in the State Treasury from and after January 5 of each year and until May 5 of each year a sum not to exceed an amount equalling 10 percent of the total receipts under this chapter to insure sufficient moneys on hand at all times for current operating expenses of the division, and the Comptroller shall distribute the balances over and above such 10 percent on or before January 5, February 5, March 5 and April 5. It shall further be construed to mean that, after all salaries and necessary expenses of the division have been paid for each racing season, up to but not exceeding \$40,000 shall be retained to the credit of the division to meet its expenses accruing before further moneys are received under this chapter, and that all the balance of said money shall be apportioned equally and paid to the several counties of the state by the Comptroller on or before May 5 of each year or as soon thereafter as may be practicable.

**History.**—s. 1, ch. 24144, 1947; s. 1, ch. 69-300; s. 2, ch. 71-98.

**550.14 Use of moneys by counties.**—When the moneys mentioned in s. 550.13 have been transmitted to the county commissioners of the several counties of the state in accordance with the provisions of this chapter, the county commissioners of the several counties may determine whether such moneys, or any part thereof, shall be converted into the county school fund, or to some other lawfully authorized fund, or shall be equally or otherwise apportioned to any two or more of such funds; provided, however, that if the Supreme Court of this state shall hold the foregoing use of said moneys mentioned in s. 550.13 to be an illegal use of the same, then said funds so remitted to the several counties of this state shall be held by the respective county commissioners in a fund to be designated "Special Road Fund," to be used by and under the direction of the board of county commissioners of each county, who are designated ex officio agencies of the state for the purposes of this chapter, for one or more of the following purposes which are expressly recognized and declared to be proper state objects, and the expenses thereof incurred for a general and state purpose:

(1) For the construction and maintenance of such state roads, or any of them, within such county as have not been taken over for maintenance by the Department of Transportation; or

(2) The whole or any part of the moneys so remitted may, by resolution of the board of county commissioners of each county, be paid over by the county commissioners for use by the school board of such county, to be used by such school board in payment of teachers' salaries or in payment of cost of transportation of pupils in the public school system of such county; provided, that in those instances where, by virtue of any local or special law now in force or hereafter enacted, any portion of such funds is earmarked for use by the school board of any county of this state, the county commissioners shall, upon receipt of such funds, remit the proportionate allocated part thereof to such school board, and the money so remitted shall be used for the exclusive purposes aforesaid; provided, further, in those instances where any other method of remittance is prescribed by local or special law then such method shall be followed.

This section shall be liberally construed.

**550.16 Pari-mutuel pool authorized within track enclosure; commissions, breaks, etc.**—

(1) The sale of tickets or other evidences showing an interest in or a contribution to a pari-mutuel pool is hereby permitted within the enclosure of any horse racetrack and dog racetrack licensed and conducted under this law, but not elsewhere in this state except as is provided in chapter 551. The sale and purchase of tickets or other evidences showing an interest in or a contribution to pari-mutuel pools in this state shall be under the supervision of the Division of Pari-mutuel Wagering and shall be done subject to such regulations as the division shall from time to time prescribe.

(2) The commission on a pari-mutuel pool on every running horserace which may be withheld by the licensee and the state from the total contributions made to such pari-mutuel pool shall in no event exceed 17 percent of the amount contributed thereto; the commission on a pari-mutuel pool on every harness race which may be withheld by the licensee and the state from the total contributions made to such a pari-mutuel pool shall in no event exceed 19 percent of the amount contributed thereto; and the commission on a pari-mutuel pool on every dograce which may be withheld by the licensee and the state from the total contributions made to such pari-mutuel pool shall in no event exceed 17 percent of the

amounts contributed thereto, which said maximum commissions shall include the 3 percent tax heretofore provided by s. 550.09, together with the additional tax of 4.5 percent of the total contributions to all pari-mutuel pools conducted on every horserace and the additional tax of 4 percent of the total contributions to all pari-mutuel pools conducted on every dograce, hereinafter provided for old age assistance and other purposes.

(3) After deducting a commission or license and the "breaks" (hereinafter defined), a pari-mutuel pool shall be redistributed to the contributors.

(4) Redistribution of funds otherwise distributable to the contributors of a pari-mutuel pool shall be a sum equal to the next lowest multiple of 10 on horse and dograces.

(5) No distribution of a pari-mutuel pool shall be made of the odd cents of any sum otherwise distributable, which odd cents shall be known as the "breaks."

(6) The "breaks" shall be known as the difference between the amount contributed to a pari-mutuel pool and the total of the commissions and sums redistributed to the contributors.

(7) No person or corporation shall directly or indirectly purchase pari-mutuel tickets or participate in the purchase of any part of a pari-mutuel pool for another for hire or for any gratuity and no person shall purchase any part of a pari-mutuel pool through another, wherein he gives or pays directly or indirectly such other person anything of value, and any person violating this section shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(8) In addition to the 3 percent pari-mutuel tax provided for by s. 550.09, and any and all other taxes otherwise levied and assessed, every person, association or corporation conducting a horserace meet shall pay a tax equal to 4.5 percent, and every person, association or corporation conducting a dograce meet shall pay a tax equal to 4 percent of the total contributions to all pari-mutuel pools there conducted and made on any and every horserace and dograce for operation of such horse and dog tracks, which additional tax of 4.5 percent on horserace pari-mutuel pools and one-half of the additional 4 percent tax on dograce pari-mutuel pools shall be known as the "old age assistance tax" and shall be paid to the State Treasurer for deposit in the General Revenue Fund. The remaining one-half of the additional 4 percent tax on dograce pari-mutuel pools shall be paid to the State Treasurer as ex officio treasurer of the Division of Pari-mutuel Wagering and shall be distributed among the 67 counties of the state. Such money shall be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county. Distribution among the several counties shall be as provided by s. 550.13.

(9) Provided that in the event the tax equal to 3 percent of the total contributions to all pari-mutuel pools conducted or made on any and every horse racetrack, plus the \$3,000 license fee from horse (running) tracks having an average daily pari-mutuel pool of less than \$175,000 per day for the preceding season, and on any and every dog racetrack as

provided by s. 550.09, plus the \$300 license fee from dog tracks having an average daily pari-mutuel pool of less than \$20,000 per day for the preceding racing season, distributed equally to the 67 counties of this state, produces during any full and complete racing season authorized by law, less than the total amount from said source distributed to the said counties during the racing season 1940-1941, such deficiency and no more shall be paid into said fund created by the said 3 percent tax and license fee as aforesaid for distribution to the 67 counties of this state according to law, from and out of the additional tax equal in the amount of 4.5 percent on all pari-mutuel pools at horserace meets and the \$1,000 license fee for old age assistance from horse (running) tracks having an average daily pari-mutuel pool of less than \$175,000 per day for the preceding season and 2 percent on all pari-mutuel pools at dog race meets, and the \$200 license fee for old age assistance from dogracing tracks having an average daily pari-mutuel pool of less than \$20,000 per day for the preceding racing season, as herein levied and designated for old age assistance, and the balance of said additional tax of 4.5 percent and the \$1,000 license fee for old age assistance from horse (running) tracks having an average daily pari-mutuel pool of less than \$175,000 per day for the preceding season, on horse racetracks and 2 percent on dog racetracks having an average daily pari-mutuel pool of less than \$20,000 per day for the preceding racing season, shall be paid into said General Revenue Fund as herein provided, and for the purposes set forth.

(10) The taxes levied by subsection (8) to be known as the old age assistance tax shall in nowise affect or be construed to repeal or affect any other tax on horse or dog racetracks or races or the apportionment thereof in equal portions to each county of the state.

(11) The taxes levied by subsection (8) shall be paid at the times and places as provided by law for the payment of other taxes based on a percent of pari-mutuel pools.

(12) Any willful or wanton failure by any licensee to make payment into the State Treasury as required by law shall constitute sufficient ground for the Division of Pari-mutuel Wagering to revoke the permit of such licensee and no further license or permit shall be issued to such former licensee.

(13) The commission on a pari-mutuel pool on each quarter horse race, which shall be withheld by the licensee and the state from the total contributions made to such pari-mutuel pool, shall in no way exceed 18 percent of the amount of contributions thereto. The additional 1 percent authorized to be withheld by the licensees licensed under chapter 550 from the total contributions made to the pari-mutuel pool on each race conducted by a quarter horse licensee under this chapter shall be withheld and paid by said licensee into the State Treasury, to be kept in a special fund to be designated as the Florida Quarter Horse Racing Promotion Trust Fund. The Department of Agriculture and Consumer Services shall administer such funds and prescribe suitable and reasonable rules for the administration thereof. It is the intent of the Legislature that the moneys in the Florida Quarter Horse Racing Promotion Trust

Fund be allocated for the supplementing and augmenting of purses and prizes and for the general promotion of the owning and breeding of racing quarter horses in Florida.

(2) The tax imposed by s. 550.26 shall be retained by tracks defined in this section and the proceeds from said breaks shall be distributed by such tracks as follows:

Owners and trainers, by application for and acceptance of a license to race their horses in this state, shall be deemed to have read and understand fully the provisions of this section, and willful refusal to enter horses because of the overall purse structure herein required shall be deemed grounds for revocation of such license by the division.

(1) Any duly licensed horse (running) racetrack having an average daily pari-mutuel pool of less than \$400,000 per day for the preceding racing season shall, in lieu of the payment of the 4.5 percent and 3 percent tax paid to the state from pari-mutuel pools as now provided by law, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee, which shall be determined from the preceding racing season's daily average pari-

three-fourths of which daily license fee shall be distributed equally to the 67 counties of this state and the remaining one-fourth to the state's General Revenue Fund.

#### 550.162 Dogracing; daily operational cost allowance.—

(1)(a) It is the finding of the Legislature of Florida that the operation of a dog track and legalized pari-mutuel betting at dog tracks in this state is a privilege and is an operation which requires strict supervision and regulation in the best interests of the state; that pari-mutuel wagering at dog tracks in this state is a substantial business and taxes derived therefrom constitute part of the tax structures of the state and counties. It is the further finding of the Legislature that the operators of dog tracks should pay their fair share of taxes to the state, and at the same time this substantial business interest should not be taxed to an extent as to cause a track which is operated under sound business principles to be forced out of business.

(b) It is the further finding of the Legislature that all dog racetracks have in common a "daily initial expense of operation." This "daily initial expense of operation" is created by certain factors which are common to all dog tracks and which remain relatively uniform and constant among the several dog tracks throughout a race meeting.

(2) Each licensed dog track holding a permit to conduct racing in this state under the authority of this chapter, and the state by and through the Division of Pari-mutuel Wagering, is authorized to withhold from the total maximum commission of 17 percent that may be withheld from the total amounts contributed to pari-mutuel pool on dograces the sum of \$170 per race, and not to exceed 105 days during any race meeting, which said amounts shall be credited to the dog track operators as a daily "initial expense of operation." No tax shall be levied or collected on said \$170 so withheld, and all taxes imposed by ss. 550.09 and 550.16 or by any other act of the Legislature shall be imposed upon the 17 percent of total amounts contributed to any pari-mutuel pool at dog tracks less the above described \$170 "initial expense of operation" amount per race. The daily "initial expense of operation" allowance shall be deducted from the 17 percent commission prior to any tax being imposed on said pool, and said allowance shall be credited to the track operator.

(3) All allowances granted by this section to the track operator known as the "initial expense of operation" allowance shall appear on the report tendered by the licensee as provided by s. 550.09, and shall be shown on the tax report submitted by the licensee every 7th day of the race meeting.

(4) Nothing in this section shall be construed so as to allow any dog track in this state an "initial expense of operation" allowance as provided herein

for any day on which races may be held for the benefit of educational scholarships or charitable organizations.

**History.**—ss. 1-4, ch. 29693, 1955; s. 2, ch. 71-98; ss. 2, 6, ch. 75-42; s. 4, ch. 77-166; s. 1, ch. 77-449.

#### 550.163 Dogracing; daily license fee.—

(1) Any duly licensed dog racetrack, having a daily pari-mutuel pool of less than \$25,000 per day in a racing season, shall, in lieu of the payment of the tax imposed in ss. 550.09 and 550.16, or any other law imposing a tax upon the 17 percent of the total pari-mutuel pool at dog racetracks, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee which fee shall be determined from the following schedule:

Up to and including \$20,000 .....	\$150
Over \$20,000 per day and not exceeding \$21,000 per day .....	200
Over \$21,000 per day and not exceeding \$22,000 per day .....	250
Over \$22,000 per day and not exceeding \$23,000 per day .....	300
Over \$23,000 per day and not exceeding \$24,000 per day .....	350
Over \$24,000 per day and not exceeding \$25,000 per day .....	400

(2) Whenever any dog racetrack exceeds the sum of \$25,000 per day in its pari-mutuel pool totals, this section shall not apply and such dog racetrack shall be taxed as provided by other general laws, and at such time such dog track shall receive any "daily initial cost of operation" credit allowed by general law.

(3) Three-fifths of such daily license fee shall be distributed equally to the 67 counties of the state and the remaining two-fifths to the state's General Revenue Fund.

**History.**—ss. 1-3, ch. 29751, 1955; (3) a. by s. 2, ch. 61-119.

#### 550.164 Escheat to state of abandoned interest in or contribution to pari-mutuel pools.—

(1) It is hereby declared to be the public policy of the state, while protecting the interest of the owners thereof, to possess all unclaimed and abandoned interest in or contribution to any pari-mutuel pool conducted in this state under the provisions of this chapter and chapter 551, for the benefit of all the people of the state, and this law shall be liberally construed to accomplish such purpose.

(2) All money or other property represented by any unclaimed, uncashed, or abandoned pari-mutuel ticket which has remained in the custody of or under the control of any licensee authorized to conduct pari-mutuel pools in this state for a period of 1 year from the date said pari-mutuel ticket was issued, when the rightful owner or owners thereof have made no claim or demand for such money or other property within the aforesaid period of time, is hereby declared to have escheated to or to escheat to, and to have become the property of the state.

(3) All money or other property which shall have escheated to and become the property of the state as provided herein, and which is held by such licensees, authorized to conduct pari-mutuel pools in this state, shall be paid by such licensees to the State Treasurer annually within 60 days after the close of the race

meeting of the said licensee. Such moneys so paid by said licensees to the State Treasurer shall be deposited in the State School Trust Fund to be used for the support and maintenance of public free schools as required by s. 6, Art. IX, State Constitution.

**History.**—ss. 1-4, ch. 29688, 1955; s. 7, ch. 59-406; s. 2, ch. 61-119; s. 26, ch. 69-216.

#### 550.17 Proof of referendum required.—

(1) The Division of Pari-mutuel Wagering shall not issue any license under this chapter except upon proof in such form as the division may prescribe that a referendum election has been held in the county where the applicant for such license desires to conduct a race meeting and that a majority of the electors voting on that question in such election voted in favor of licensing such racing.

(2)(a) Notwithstanding any provisions of this chapter, no thoroughbred horse racing permit or license issued under this chapter shall be transferred, or reissued when such reissuance is in the nature of a transfer, so as to permit or authorize a licensee to change the location of a thoroughbred horse race-track except upon proof in such form as the division may prescribe that a referendum election has been held:

1. If the proposed new location is within the same county as the already licensed location, in the county where the licensee desires to conduct the race meeting and that a majority of the electors voting on that question in such election voted in favor of the transfer of such license.

2. If the proposed new location is not within the same county as the already licensed location, in the county where the licensee desires to conduct the race meeting and in the county where the licensee is already licensed to conduct the race meeting and that a majority of the electors voting on that question in each such election voted in favor of the transfer of such license.

(b) Each referendum held under the provisions of this subsection shall be held in accordance with the electoral procedures for ratification of permits, as provided in s. 550.06. The expense of each such referendum shall be borne by the licensee requesting the transfer.

**History.**—s. 17, ch. 14832, 1931; CGL 1936 Supp. 4151(75); s. 2, ch. 71-98; s. 1, ch. 76-179.

#### 550.18 Petition for election to revoke license.

—Upon petition of 20 percent of the qualified electors of any county wherein any racing has been licensed and conducted under this chapter, the county commissioners of such county shall provide for the submission to the electors of such county at the then next succeeding general election the question of whether any permit or permits theretofore granted shall be continued or revoked, and if a majority of the electors voting on such question in such election shall vote to cancel or recall the permit theretofore given, then the Division of Pari-mutuel Wagering shall not thereafter grant any license on the permit so recalled. Every signature upon every such recall petition shall be signed in the presence of the clerk of the board of county commissioners at the office of the clerk of the circuit court of the county and the petitioner shall present at the time of such signing

his registration receipt showing his qualification as an elector of the county at the time of the signing of the petition. Not more than one permit shall be included in any one petition and in all elections wherein the recall of more than one permit shall be voted on, the voters shall be given an opportunity to vote for or against the recall of each permit separately. Nothing in this chapter shall be construed to prevent the holding of later referendum or recall elections.

**History.**—s. 18, ch. 14832, 1931; s. 11, ch. 17276, 1935; CGL 1936 Supp. 4151(76); s. 7, ch. 22858, 1945; s. 2, ch. 71-98.

#### 550.181 Certain persons prohibited from holding racing or jai alai permits; suspension and revocation.—

(1) No corporation, general or limited partnership, sole proprietorship, business trust, joint venture or unincorporated association, or other business entity shall hold any horseracing or dogracing permit or jai alai fronton permit in this state if any one of the persons or entities specified in paragraph (a) has been determined by the division not to be of good moral character or has been convicted of any offense specified in paragraph (b).

- (a)1. The permitholder;
2. An employee of the permitholder;
3. The sole proprietor of the permitholder;
4. A corporate officer or director of the permitholder;
5. A general partner of the permitholder;
6. A trustee of the permitholder;
7. A member of an unincorporated association permitholder;
8. A joint venturer of the permitholder;
9. The owner of more than 10 percent of any equity interest in the permitholder, whether as a common shareholder, general or limited partner, voting trustee, or trust beneficiary; or
10. An owner of any interest in the permit or permitholder, including any immediate family member of the owner, or holder of any debt, mortgage, contract or concession from the permitholder, who by virtue thereof is able to control the business of the permitholder.

- (b)1. A felony in this state;
2. Any felony in any other state which would be a felony if committed in this state under the laws of Florida;
3. Any felony under the laws of the United States;
4. A felony under the laws of another state if related to gambling which would be a felony under the laws of Florida if committed in this state; or
5. Bookmaking as defined in s. 849.25.

(2)(a) If the applicant for permit as specified under subsection (1) or a permitholder as specified in paragraph (1)(a), has received a full pardon or a restoration of civil rights with respect to the conviction specified in paragraph (1)(b), then the conviction shall not constitute an absolute bar to the issuance or renewal of a permit or grounds for the revocation or suspension of a permit.

(b) Any permitholder as specified in paragraph (1)(a) who on June 9, 1977, had been convicted of any offense specified in paragraph (1)(b) and who had not received as of June 9, 1977, a full pardon or restora-

tion of civil rights with respect to such conviction, shall have until July 1, 1978, to obtain a full pardon or restoration of civil rights under Florida law.

(c) A corporation which has been convicted of a felony shall be entitled to apply for and receive a restoration of its civil rights in the same manner and on the same grounds as an individual.

(3) After notice and hearing, the Division of Pari-mutuel Wagering shall refuse to issue or renew or shall suspend, as appropriate, any permit found in violation of subsection (1). The order shall become effective 120 days after service of the order upon the permit holder and shall be amended to constitute a final order of revocation unless the permit holder has, within that period of time, either caused the divestiture, or agreed with the convicted person upon a complete immediate divestiture, of his holding, or has petitioned the circuit court as provided in subsection (3) or, in the case of corporate officers or directors of the holder or employees of the holder, has terminated the relationship between the permit holder and those persons mentioned. The Division of Pari-mutuel Wagering may, by order, extend the 120-day period for divestiture, upon good cause shown, to avoid interruption of any jai alai or race meeting or to otherwise effectuate this section. If no action has been taken by the permit holder within the 120-day period following the issuance of the order of suspension, the division shall, without further notice or hearing, enter a final order of revocation of the permit. When any permit holder or sole proprietor of a permit holder is convicted of an offense specified in paragraph (1)(b), the Department of Business Regulation may approve a transfer of the permit to a qualified applicant, upon a finding that revocation of the permit would impair the state's revenue from the operation of the permit or otherwise be detrimental to the interests of the state in the regulation of the industry of pari-mutuel wagering. In such approval, no public referendum shall be required, notwithstanding any other provision of law. Petitions for transfer after conviction must be filed with the department within 30 days after service upon the permit holder of the final order of revocation. The timely filing of such a petition shall automatically stay any revocation order until further order of the department.

(4) The circuit courts shall have jurisdiction to decide a petition brought by a holder of a pari-mutuel permit who shows that his or its permit is in jeopardy of suspension or revocation under subsection (2) and that it is unable to agree upon the terms of divestiture of interest with the person specified in subparagraphs (1)(a)3.-9. who has been convicted of an offense specified in paragraph (1)(b). The court shall determine the reasonable value of the interest of the convicted person and order a divestiture upon such terms and conditions as it finds just. In determining the value of the interest of the convicted person, the court may consider, among other matters, the value of the assets of the permit holder, its good will and value as a going concern, recent and expected future earnings, and other criteria usual and customary in the sale of like enterprises.

(5) The Division of Pari-mutuel Wagering shall make such rules for the photographing, fingerprint-

ing, and obtaining of personal data of individuals described in paragraph (1)(a) and the obtaining of such data regarding the business entities described in paragraph (1)(a) as is necessary to effectuate the provisions of this act.

#### **550.26 Tax on breaks; distribution.**

(1) A tax is hereby levied upon every pari-mutuel pool conducted by horse tracks and dog tracks within the state authorized by law so to do equal to the "breaks," which said "breaks" shall be the difference between:

(a) The amount contributed to a pool; and  
(b) The total of the commissions and the sums actually redistributed to the contributors, which tax shall be known as the "breaks tax."

(2) The tax hereby levied shall be paid at the times and places as provided by law for the payment of other taxes based on a percent of the pari-mutuel pool.

(3) It shall be the duty of every such horse race-track licensee and of every such dog race-track licensee to pay unto the State Treasurer the tax hereby

levied and said licensee shall be liable therefor.

(4) The breaks tax hereby levied on pari-mutuel pools conducted by horse tracks, and three-fourths of the breaks tax hereby levied on pari-mutuel pools conducted by dog tracks, shall be deposited by the State Treasurer into, and it shall become and be made a part of, the General Revenue Fund. The remaining one-fourth of the breaks tax levied on pari-mutuel pools conducted by dog tracks shall be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county. This distribution to the counties shall be made at the times and in the manner provided by s. 550.13.

(5) Fifty percent of the breaks tax levied on pari-mutuel pools conducted by harness racing tracks shall be paid into the State Treasury to be kept in a special fund to be designated as the "Florida Harness Horse Racing Promotion Trust Fund." The Department of Agriculture and Consumer Services shall administer such fund and prescribe suitable and reasonable rules for the administration thereof. It is the intention of the Legislature that the moneys in the Florida Harness Horse Racing Promotion Trust Fund be allocated for the supplementing and augmenting of purses and prizes and for the general promotion of owning and breeding of standardbred horses in Florida. Such payments may be made directly to the Florida Standardbred Breeders' and Owners' Association despite the provisions of s. 216.331.

(6) Fifty percent of the breaks tax levied on pari-mutuel pools conducted by quarter horse licensees shall be paid into the State Treasury to be kept in a special fund to be designated as the "Florida Quarter Horse Racing Promotion Trust Fund." The Department of Agriculture and Consumer Services shall administer such fund and prescribe suitable and reasonable rules and regulations for the administration thereof. It is the intention of the Legislature that the moneys in the Florida Quarter Horse Racing Promotion Trust Fund be allocated for the supplementing and augmenting of purses and prizes and for the general promotion of owning and breeding of racing quarter horses in Florida.

**550.261 Winter horseracing; purse requirements.**—The sum of 4 percent of the total contributions to the pari-mutuel pool at each winter horse racetrack, based on the current year's pari-mutuel handle, shall be paid by each winter thoroughbred horse track for purses during its authorized racing period. Overpayments and underpayments of estimated seasonal purse requirements shall be adjusted in the next succeeding racing season.

**History.**—s. 4, ch. 69-86; s. 2, ch. 71-98; ss. 9, 12, ch. 75-43; ss. 12, 22, ch. 77-167; s. 2, ch. 79-300.

**Note.**—Section 2, ch. 79-300, provides that s. 550.261, as it existed on June 30, 1979, shall remain in effect until July 1, 1980, on which date it shall be superseded by s. 550.261 as it existed on May 28, 1975, to read as follows:

#### **550.261 Horseracing; winter season purse pool.**

(1) It is the finding of the Legislature that when well-bred horses are racing, horse tracks are likely to attract more of the wagering public with a concomitant increase in the amount wagered, resulting in increased revenue to the state and the counties. It is the further finding of the Legislature that the purse structure of the three horse racetracks operating consecutive 40-day racing meets, as authorized by s. 550.081, should be coordinated in such a

manner as to induce the owners of such well-bred horses to race at all three of the racetracks conducting consecutive racing meets as aforesaid since frequently horses stabled at one track are vanned to and race at the other two tracks.

(2) It is the further finding of the Legislature that legislative bodies in other states have authorized additional days of horseracing which directly conflict with the winter horseracing season in this state and certain racetracks in those states are highly competitive from the standpoint of purses, thereby inducing the owners of well-bred horses to remain in such other states and not to ship their stables to Florida for the 120-day winter racing season. It is the further finding of the Legislature that it is necessary to strengthen and augment the purses being paid at each of the three racetracks so as to provide higher minimum purses and improved stake programs in order to successfully compete with horse racetracks in other states.

(3) It is the further finding of the Legislature that purses paid by a horse racetrack are historically conditioned on a percentage of the total amount of the pari-mutuel pool at such racetrack during its preceding racing meet. It is the further finding of the Legislature that when one or more of the three racetracks operating successive meets as aforesaid has a substantially lower pari-mutuel handle than one or more of the other tracks, substantially lower purses are paid by such track or tracks in the succeeding year, thereby discouraging many owners from shipping to or remaining in Florida for the 120-day winter racing season. It is the further finding of the Legislature that the purse structure at each of the three tracks should be coordinated insofar as practicable so as to provide for a balanced and coordinated program of horseracing by such tracks.

(4) In order to insure such a well-balanced and coordinated program of winter horseracing at said three tracks, a common purse pool is hereby established. One-fourth of the commission authorized by s. 550.16, to be withheld by each of the three licensees from its pari-mutuel pool, the same being equivalent to 4 percent thereof, shall be credited by each track to the common purse pool. The total sum credited to said purse pool during the 120-day winter racing season as well as the amount credited thereto from the conduct of charity or scholarship days of racing shall be thereafter allocated and distributed as follows: 29.5 percent thereof to the track operating the first 40-day period; 38 percent thereof to the track operating the middle 40-day period; and 32.5 percent thereof to the track operating the final 40-day period. The apportionment of and accounting for the amount credited to or to be withdrawn from such Division of Pari-mutuel Wagering so as to insure that the 4 percent withheld by each licensee from its pari-mutuel pool is used solely and exclusively for the payment of purses. Breeders' awards shall be paid by the tracks.

(5) Distribution and allocation of funds for purses to the track or tracks entitled thereto pursuant to the provisions hereof shall be made on or prior to November 1 of each year on the basis of the total amount credited to the common purse pool by the three tracks during the immediately preceding winter horserace season.

(6) It is the further finding of the Legislature that a distribution of the commissions withheld by each track as herein provided for will benefit each of the three tracks operating successive meets and will insure a well-coordinated 120-day program of winter horseracing with improved purses at each track, which in turn will induce the owners of the best stables and of well-bred horses not only to race in Florida but also to remain in this state throughout the entire 120-day winter meeting.

(7) No contract or agreement shall be valid or enforceable which requires or provides for any of such tracks to distribute in purses a percentage of their individual pari-mutuel handle in a manner different or for greater or lesser amount than that herein provided for. Owners and trainers, by application for and acceptance of a license to race their horses in this state and their written acknowledgment that they have read and understand this section, shall be deemed to have agreed to the provisions of this section, and willful refusal to enter horses because of the overall purse structure herein required shall be deemed grounds for revocation of such license by the division.

#### **550.2615 Distribution of certain funds to a horsemen's association.—**

(1) Each licensee who holds a permit for thoroughbred horseracing in this state shall deduct from the purses required by s. 550.261 or s. 550.44, an amount of 1 percent of the total purse pool and shall pay said amount to a horsemen's association for its use in accordance with the stated goals of its articles of association filed with the Department of State.

(2) Said funds shall be payable to a horsemen's association only upon presentation of a sworn statement by the officers of the association that the horsemen's association represents a majority of the owners and trainers of thoroughbred horses stabled in Florida for a continuous 12-month period who conduct racing at the licensee's place of business.

(3) The Division of Pari-mutuel Wagering shall audit all distribution of such funds to the horsemen's association and shall promulgate rules to facilitate orderly transfer of funds in accordance with the provisions of this law.

(4) If the division finds that said funds have not been used by the horsemen's association in accord-

ance with its state articles of association, no further funds shall be permitted to be designated for the use of the horsemen's association, and the division shall bring the matter to the attention of the Legislature.

History.—s. 1, ch. 78-167.

#### **550.262 Horseracing; Florida breeders' awards and overnight purses.—**

(1) It is the finding of the Legislature that purse structure and the availability of breeder awards are important factors in attracting the entry of well-bred horses in Florida racing meets, which in turn helps to produce maximum racing revenues for the state and the counties.

(2) In addition to amounts otherwise required by law, 1 percent of the total contributions made to the pari-mutuel pool on each horserace shall be paid by the licensee for Florida breeders' awards and overnight purses out of the amounts which may be withheld from pari-mutuel pools under ss. 550.16 and 550.42.

<sup>1</sup>(3)(a) Every permitholder licensed by the Division of Pari-mutuel Wagering under the laws of this state to conduct a harness race meeting shall, by the acceptance of said license, be deemed to have agreed, as a condition of the granting thereof, that such licensee shall, within 30 days after the expiration of such meeting, pay to the breeder of each Florida standardbred horse winning an overnight race at such meeting a sum not exceeding 15 percent of the announced gross purse or \$100, whichever is greater. The amount of the breeders' award shall not in any case be deducted from the amount of the purse. No breeders' award or stallion award shall be paid when the purse includes an award to the breeder or owner of the stallion equal to or greater than the amount herein specified. The amount paid as a breeders' award or stallion award shall not be included in estimating the value of the race to the winner. A stallion award shall be paid for all stake races, including races for Florida standardbreds exclusively; however, no breeders' award shall be required or paid on stake races. Whenever a Florida standardbred wins a stake race, the owner or owners of the sire of such winning Florida standardbred shall be entitled to a sum equal to 15 percent of the announced gross purse if the stallion is registered with the Florida Standardbred Breeders and Owners Association and if the breeding occurred, and the stallion is still standing, in Florida. The Florida Standardbred Breeders and Owners Association shall maintain complete records showing awards earned, received, and distributed and shall be permitted to charge the breeder a reasonable fee for this service.

(b) In order for a breeder of a Florida standardbred horse to be eligible to demand and receive a breeders' award, the horse winning the race must have been registered as a Florida standardbred with the Florida Standardbred Breeders and Owners Association, and a registration certificate under seal with proper serial number of the United States Trotting Association registry <sup>2</sup>[must show] that the winner is duly registered as a Florida standardbred. The Florida Standardbred Breeders and Owners Associa-

tion shall be permitted to charge the registrant a reasonable fee for this verification and registration.

**Note.**—Section 3, ch. 79-300, provides that s. 550.262(3), as it existed on June 30, 1979, shall remain in effect until July 1, 1980, on which date it shall be superseded by s. 550.262(3) as it existed on June 8, 1977, to read as follows:

(3) In the event that a harness racing licensee chooses to withhold from the redistribution of any pari-mutuel pool conducted by it an amount exceeding 17 percent of the total contributions to such a pool, all of the excess over 17 percent shall be paid currently as additional purses and prizes. Licensees withholding such an excess amount from one or more pools during any season shall furnish the Board of Business Regulation, at such times and in such form as it may require, evidence from their regular and usual business records showing that their total purses and prizes actually paid over the course of the preceding season have been increased during the current season by the full amount of such excess and that the total of such purses and prizes apart from those payable under this subsection has not been reduced from that of the preceding season.

**Note.**—Bracketed language substituted by the editors for "showing."

**550.32 Resumption of dogracing at certain tracks authorized.**—Where two or more racing meetings in successive racing seasons have been heretofore conducted at the dog racetrack of the holder of a ratified permit to conduct dogracing under the laws of this state, and racing at such racetrack shall have been discontinued for any reason, and where such permit has not been revoked in a referendum election, and where such racetrack is not located closer than 10 miles from an existing and operating dog racetrack by the most direct paved road, and when such racetrack was and is the only racetrack located in the county of its location, and where the present owner of such dog racetrack desires to resume racing at such racetrack, the Department of Business Regulation, upon the application of such owner therefor, shall annually issue unto such owner of such racetrack license to conduct dogracing meetings at such track for the same number of racing days each dogracing season to which dog racetracks in counties having not more than one dog track are by law entitled, any provision of any law or rule in conflict herewith or to the contrary notwithstanding.

### **550.33 Quarter horse racing.—**

(1) Subject to all the applicable provisions of this chapter, any person possessing the qualifications prescribed in this chapter may apply to the Division of Pari-mutuel Wagering for a permit to conduct quarter horse race meetings and racing under this chapter. After receipt of any application, the division shall convene to consider and act upon permits applied for. Upon all applications filed and approved, a permit shall be issued setting forth the name of the applicant and a statement showing qualifications of the applicant to conduct racing under this chapter.

(2)(a) After a quarter horse racing permit has been granted by the division, the Department of Business Regulation shall grant to the lawful holder of such permit, subject to the conditions hereof, a license to conduct quarter horse racing under this chapter, and the Florida Pari-mutuel Commission shall fix annually the time, place, and number of days upon which racing may be conducted by such quarter horse racing permitholder. After the first license has been issued to the holder of a permit for quarter horse racing, all subsequent annual applications for a license by a permitholder shall be accompanied by proof in such form as the division may require that the permitholder still possesses all the qualifications prescribed by this chapter. The Division of Pari-mutuel Wagering may revoke any permit or license hereunder upon the willful violation

by the licensee of any of the provisions of this chapter or any rule or regulation issued by the division under the provisions of this chapter.

(b) In lieu of the suspension or revocation of licenses, the division may impose a civil penalty against any licensee for violations of this chapter, chapter 551, or any rule or regulation promulgated by the division. No penalty so imposed shall exceed \$1,000 for each count or separate offense, and all penalties imposed and collected shall be deposited with the State Treasurer to the credit of the General Revenue Fund.

(3) Any quarter horse racing permitholder is authorized to conduct quarter horse races throughout the year, except on Sundays. Such races may be continuous or portioned at various periods of time, not to exceed 120 days annually. Said races may be performed only at any one or more licensed tracks and may be conducted by day or night or part by day and part by night. The operator of any licensed racetrack is hereby authorized to lease such track to any quarter horse racing permitholder for the conduct of quarter horse racing under this chapter. The quarter horse racing permitholder shall pay a daily license fee and make distribution thereof of the schedule provided in s. 550.39(2).

(4) Sections 550.05, 550.06, 550.07, 550.17 and 550.18, are hereby declared to be inapplicable to quarter horse racing as permitted herein; and all other provisions of this chapter shall apply to, govern, and control such racing, and the same shall be conducted in compliance therewith.

(5) Quarter horses participating in such races shall be duly registered by the American Quarter Horse Association, and before each race such horses shall be examined and declared in fit condition by some qualified person designated by the division.

(6) Any quarter horse racing days permitted under this section shall be in addition to any other racing permitted under the license issued the track where such quarter horse racing is conducted.

(7) Any quarter horse racing permitholder operating under a valid permit issued by the Division of Pari-mutuel Wagering is authorized to substitute other races of other breeds of horses which are, respectively, registered with the International Arabian Horse Association, Appaloosa Horse Club, American Paint Horse Association, or the Palomino Horse Breeders of America, for no more than 50 percent of the quarter horse races daily. In addition to the breeds authorized for substitution, horses registered with the Jockey Club may be substituted for quarter horse races at any time for any number of races, provided the total days do not exceed 20 percent of the maximum number of days authorized for quarter horse racing as provided in s. 550.08. Substitution of races of horses registered with the Jockey Club shall be subject to the taxes imposed by s. 550.161, the provisions of this act to the contrary notwithstanding. Any permittee operating within an area of 50 air miles of a licensed thoroughbred track cannot substitute thoroughbred races under this section while a thoroughbred horserace meet is in progress within said 50 miles. No races comprised of thoroughbred horses under this section registered with the Jockey Club shall be permitted during the

period beginning September 1 and ending on January 5 of each year in any county where there is one or more licensed dog tracks conducting a race meet. Nothing contained herein shall be interpreted in any manner to affect the competitive award of matinee performances to jai alai frontons or dog tracks in opposition to races comprised of thoroughbred horses registered with the Jockey Club under this section.

(8) A quarter horse racing permitholder is authorized to conduct no more than 12 races per racing day.

#### **550.34 Dogracing at North Florida tracks.—**

(1) Any dog racing track holding a valid outstanding permit for dogracing in the state and located north of latitude 30° may hold race meetings at any time during the calendar year; provided, that no permit shall be issued for racing on Sunday or at any one location in excess of the aggregate of 90 days in any one calendar year.

(2) This section shall be cumulative and not construed as repealing any other racing laws.

**History.**—ss. 1, 2, ch. 25413, 1949.

#### **550.35 Transmission of racing information for illegal gambling purposes.—**

(1) It shall be unlawful for any person to transmit or communicate to another or receive or secure by any means whatsoever the results, changing odds, track conditions, jockey changes, or any other information relating to any horserace or dograce from any racetrack in this state, between the period of time beginning 1 hour prior to the first race of any day and ending 30 minutes after the posting of the official results of each race as to that particular race, except that the foregoing limitations shall not apply to the results of the last race of each day's meet. Provided, however, that the Division of Pari-mutuel Wagering may, by rule, permit the immediate transmission by radio, television, or press wire of any pertinent information concerning not more than two feature races each week; provided, further, that the foregoing limitation of two feature races per week shall not apply to so-called "name stake races" which if broadcast or televised nationally the division may in its discretion permit.

(2) It shall be unlawful for any person to transmit by any means whatsoever racing information to any other person, or to relay the same to any other person by word of mouth, by signal, or by use of telephone, telegraph, radio, or any other means, when the information is knowingly used or intended to be used for illegal gambling purposes, or in furtherance of such gambling.

(3) This section shall be deemed an exercise of the police power of the state for the protection of the public welfare, health, peace, safety and morals of the people of the state and all of the provisions herein shall be liberally construed for the accomplishment of this purpose.

(4) Any person violating the provisions of this section shall be guilty of a felony of the third degree,

punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(5) Nothing contained in this section shall be construed as amending or repealing the provisions of any other law or affecting any rule of the Florida Public Service Commission, relating to the regulation of public utilities in the furnishing to others of any communication, wire service, or other similar service or equipment; it is intended that this section shall be supplemental to other laws and a further aid in the elimination of transmission of information for illegal gambling purposes.

**550.351 Effect of certain 1957 amendments.—**1957 amendments to ss. 550.02(4), 550.04, 550.06, 550.07 and 550.35(1) shall not be construed to repeal the provisions of s. 550.34.

**550.36 Use of electronic transmitting equipment; permit by division required.—**Any person who has in his possession or control on the premises of any licensed horse or dog racetrack or jai alai fronton any electronic transmitting equipment or device which is capable of transmitting or communicating any information whatsoever to another person, without the written permission of the Division of Pari-mutuel Wagering, shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. This section shall not apply to the possession or control of any telephone, telegraph, radio or television facilities installed by any such licensee with the approval of said division.

#### **550.361 Bookmaking on the grounds of a permitholder; penalties; duties of track employees; penalty; certain exceptions.—**

(1) Any person who shall engage in bookmaking, as defined in s. 849.25, on the grounds or property of a permitholder of a horse or dog track or jai alai fronton shall be guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. Notwithstanding the provisions of s. 948.01, any person convicted under the provisions of this subsection shall not have adjudication of guilt suspended, deferred, or withheld.

(2) Any person who, having been convicted of violating subsection (1), thereafter commits the same crime shall be guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. Notwithstanding the provisions of s. 948.01, any person convicted under the provisions of this subsection shall not have adjudication of guilt suspended, deferred, or withheld.

(3) Any person who has been convicted of bookmaking in this state or any other state of the United States or foreign country shall be denied admittance to and shall not attend any racetrack or fronton in this state during its racing seasons or operating dates, including any practice or preparational days. Any such person knowingly violating this subsection shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(4) If the activities of a person show that this law is being violated, and such activities are either witnessed or are common knowledge by any track or fronton employee, it shall be the duty of that employee to bring the matter to the immediate attention of the permit holder, manager, or his designee who shall notify a law enforcement agency having jurisdiction. Willful failure on the part of any track or fronton employee to comply with the provisions of this subsection shall be grounds for the division to suspend or revoke that employee's license for track or fronton employment.

(5) Each permittee shall display, in conspicuous places at a track or fronton and in all race and jai alai daily programs, a warning to all patrons concerning the prohibition and penalties of bookmaking contained in this section and s. 849.25. The division shall establish rules concerning the uniform size of all warnings and the number of placements throughout a track or fronton. Failure on the part of the permittee to display such warnings may result in a \$500 fine by the division for each offense.

(6) The provisions of this section shall not apply to any person attending a track or fronton or employed by a track or fronton who places a bet through the legalized pari-mutuel pool for another person, provided that such service is rendered gratuitously and without fee or other reward.

(7) This section shall not apply to any prosecutions filed and pending at the time of passage hereof, but all such cases shall be disposed of under existing law at the time of institution of such prosecutions.

*History.—s. 2, ch. 78-36.*

#### **550.37 Operation of certain harness tracks.—**

(1) It is the finding of the Legislature of the state that the operation of harness tracks and legalized pari-mutuel and mutuel betting at harness tracks in this state will become a substantial business compatible to the best interests of the state, and the taxes derived therefrom will constitute an important and integral part of the tax structure of the state and counties. It is the further finding of the Legislature that the operation of harness tracks within the state will establish and encourage an important industry within the state, namely, the acquisition and maintenance of breeding farms for the breeding of standard-bred horses utilized in harness races. It is further the finding of the Legislature that harness tracks operating at night within the immediate vicinity of other racetracks will greatly enhance the tax revenue derived by the state and counties from racing and will not endanger the general welfare of the public. It is the further finding of the Legislature of the state that this increase in tax revenue is needed by the state and the counties. It is the further finding of the Legislature that harness racing is an exhibition sport which will attract a large tourist business to the state and will afford entertainment at night to such tourists during the winter racing season, and many of such tourists who are thus attracted by harness racing do not attend other forms of racing or engage in other forms of pari-mutuel betting. It is the further finding of the Legislature that the Division of Pari-mutuel Wagering should be empowered to consider and grant the application of any dog track, horse track and harness track permit-

tee and licensee to conduct without further elections harness racing with sulky during the winter racing season at a location within any county wherein two or more elections have been held in which a majority of the electors voting in such elections voted in favor of the operation of pari-mutuel pools within the county at horse and dog tracks; provided, the applicant for the 2 years immediately preceding the presentation thereof to the Division of Pari-mutuel Wagering has had an average daily mutuel pool of less than \$20,000 for a seasonal operation of 50 days or more for each of such years.

(2) Harness racing at harness tracks when used herein shall mean the racing of standard-bred horses in harness with sulky. Horseracing at horse tracks shall mean racing of thoroughbred horses with jockeys.

(3) Any permittee or licensee authorized under the provisions hereof to transfer the location of its permit shall conduct harness racing at night only. A permit so transferred shall apply only to the locations as hereinafter provided. The Division of Pari-mutuel Wagering shall authorize such permittees and licensees to operate harness racing from 7 p.m. until 12 midnight. The provisions of this chapter which prohibit the location and operation of a licensed harness track permittee and licensee within 100 air miles of the location of a racetrack authorized to conduct racing under the provisions of said chapter and which prohibit the Division of Pari-mutuel Wagering from granting any permit to a harness track at a location in the area in which there are three horse tracks located within 100 air miles thereof shall not be applicable to a licensed harness track which is required by the terms of this act to race at night.

(4) No permit shall be issued by the Division of Pari-mutuel Wagering for the operation of a harness track within 75 air miles of a location of a harness track licensed and operating under the provisions of this chapter. All harness tracks licensed under the provisions of this chapter shall be granted by the Florida Pari-mutuel Commission racing dates during the winter horseracing season as provided by s. 550.291, which racing dates may commence on or after October 1 of each year and shall conclude on or before June 1 of each year, and such permittee and licensee shall be permitted and authorized to race every day except Sunday. Nothing herein contained shall enlarge the number of racing days of any harness track permittee when, by statute applicable thereto, a lesser number of days has heretofore been fixed.

(5) The owners and operators of a harness track permitted and licensed by the Division of Pari-mutuel Wagering to conduct harness racing shall pay a tax equal to 5.3 percent of the total contributions to all pari-mutuel pools there conducted and made on any and every harness race, which tax shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state. In addition to the foregoing percentage tax, each licensee operating a harness race track shall pay the breaks tax provided for in s. 550.26, which tax revenue shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state. In addition to the aforesaid taxes,

each person authorized to conduct race meetings under this section shall pay an admission tax as provided in s. 550.09.

(6) All holders of permits and licenses for dog-racing and all holders of permits and licenses for horseracing and all holders of permits and licenses for harness racing issued by the Division of Pari-mutuel Wagering authorized to operate in the winter horserace season whose average daily pari-mutuel pool (computed by dividing the total pari-mutuel pool for the racing season by the number of actual days raced at said meet, exclusive of charity days) for each of the 2 consecutive years next prior to the filing of the application as herein provided, during its racing seasons which shall have been 50 days or more for each year, was less than \$20,000 at the option of each of said permittees and licensees evidenced by its application to the Division of Pari-mutuel Wagering for such purpose, shall be issued a license under its permit to operate only harness racing with sulky for a total period of 90 racing days during the winter horseracing season at such location as may be designated by said applicant and hereinafter authorized in subsection (7) within any county in which two or more elections have been held in which a majority of the electors in such elections voted in favor of the operation within said county of pari-mutuel pools at racetracks. Nothing herein contained shall authorize the transfer of a permit to any county in which there is located a horse track licensed by the Division of Pari-mutuel Wagering whose average daily pari-mutuel pool (computed by dividing the total pari-mutuel pool for the racing season by the number of actual days raced at said meet, exclusive of charity days) for each of the 2 consecutive years next prior to the filing of the application as hereinabove provided, during its racing season which shall have been 50 days or more for each year, was less than \$400,000.

(7) Such permittee and licensee upon the approval of its application by the Division of Pari-mutuel Wagering pursuant to the provisions of this act may conduct harness racing at the facilities or plant leased by it from any horserace permittee or licensee in any county within the authorized area designated in this act not more than 40 miles from the applicant's designated location, provided the said horserace permittee has a valid permit and license issued to it under the provisions of this chapter and said applicant-permittee and licensee may conduct such harness race meetings at said leased premises provided, that said permittee and licensee may thereafter construct its own facilities and its own plant at the location designated in its approved application. Such applicant-permittee and licensee may, pending the construction of its permanent facilities, operate at said leased premises and may thereafter divide its season of racing between its leased location and its permanent location so long as said locations remain within the authorized county or counties as elsewhere herein defined. If said permittee's season of racing is divided as aforesaid, the limitation of 75 miles between harness track locations shall not apply. The 75-mile limitation between the harness tracks hereinabove provided in regard to other permittees shall be measured from the location desig-

nated in said permittee's application to the Division of Pari-mutuel Wagering. Nothing herein contained shall authorize the permittee and licensee to operate more than 90 racing days. Provided no such permit or harness racing may be moved to or permitted in any county having two or more horse track permits.

(8) The distance provisions contained in ss. 550.02 and 550.05 shall not be applicable to any harness race permittee who is required by the terms of this act to conduct harness racing at night only, nor shall s. 550.17 be applicable to any permittee whose permit is transferred under the provisions of this section.

(9) The provisions of this chapter as the same pertain to horseracing shall be applicable to harness racing except those provisions which are inconsistent herewith, and where the provisions of this chapter are by implication inconsistent with or are, in fact, in conflict with the provisions of this act, then this act shall govern harness racetrack permittees or licensees, and harness racing.

(10) Each licensed harness track in the state shall be required to schedule an average of one race per racing day in which horses bred in Florida and duly registered as standard-bred harness horses shall have preference as entries over non-Florida-bred horses, and to require all licensed harness tracks to write the conditions for such races in which Florida-bred horses are preferred so as to assure that all Florida-bred horses available for racing at such tracks be given full opportunity to perform in the class races for which they are qualified, said opportunity of performing to be afforded to each class of horses in proportion that the number of horses in this class bears to the total number of Florida-bred horses available; provided that no track shall be required to write conditions for a race to accommodate a class of horses for which a race would otherwise not be scheduled at such track during its meeting.

(11) Where a permit has been transferred from a county under the provisions of this act, no other transfer may be permitted from such county.

(12) A harness racing permitholder is authorized to conduct no more than 12 races per racing day.

(13)(a) Any holder of a ratified permit to conduct harness racing under the laws of this state, which permit has not been revoked in a referendum election, is hereby entitled to apply to the Department of Business Regulation for a license to conduct dog-race meetings at such track, in lieu of harness racing, for the same number of racing days each season to which dog racetracks in counties having not more than one dogracing track are entitled by law, subject to all of the provisions of the law concerning pari-mutuel taxes paid by tracks conducting dogracing, provided the following conditions are met:

1. The average daily pari-mutuel pool in any racing meet conducted by the harness track during the 10 years preceding application to the Department of Business Regulation, as herein provided, has not exceeded \$25,000.

2. The gross revenue to the state for the operation of the harness track for the 10 years immediately preceding application to the Department of Business Regulation, as herein provided, does not exceed the sum of \$70,000.

3. The days on which dogracing in lieu of harness racing shall be conducted by the applicant pursuant to law shall not conflict with or coincide with the days in which dogracing is conducted by any dogracing track within a radius of 100 statute miles from the site of said track.

(b) The Department of Business Regulation, upon application of the owner of a racetrack which meets the requirements of paragraph (a), shall annually issue to the owner of such a racetrack a license to conduct dograce meetings as set forth above, provided the conditions stated herein are met at the time of the initial application to conduct dogracing, any provision of any law or rule in conflict herewith or to the contrary notwithstanding.

**History.**—ss. 1, 2, ch. 63-130; s. 1, ch. 69-159; s. 1, ch. 70-310; ss. 1, 2, ch. 71-98; s. 2, ch. 74-178; s. 1, ch. 76-24; ss. 14, 22, ch. 77-167; s. 19, ch. 79-4; s. 3, ch. 79-300.

**Note.**—Section 3, ch. 79-300, provides that s. 550.37(5), as it existed on June 30, 1979, shall remain in effect until July 1, 1980, on which date it shall be superseded by s. 550.37(5) as it existed on June 8, 1977, to read as follows:

(5) The owners and operators of a harness track permitted and licensed by the Division of Pari-mutuel Wagering shall be entitled to the same commission from the pari-mutuel pool as is provided for dog track owners, operators and permittees, and shall pay the same tax as that imposed upon pari-mutuel pools at dog tracks, however, without the benefit of the daily operational cost allowance provided by s. 550.162 and without the benefit of the fixed daily license fee as provided by s. 550.163.

**550.371 Harness racing; authority to conduct on leased and permanent locations in certain counties.**—All holders of harness racing permits who are authorized by law to divide their season of racing between a leased location and their permanent location shall have the right and privilege in accomplishing the division of their racing season to lease facilities in a county having two or more horse tracks operating under valid permits, and to conduct at such leased facilities harness racing for not more than 45 percent of their allowable racing days.

**History.**—s. 1, ch. 65-530.

**550.38 Horseracing; award to breeders of Florida-bred horses.**—

(1) Every permitholder licensed by the Division of Pari-mutuel Wagering under the laws of this state to conduct a running horserace meeting shall, by the acceptance of said license, be deemed to have agreed, as a condition of the grant thereof, that said licensee shall, within 30 days after the expiration of such meeting, pay to the breeder of each Florida-bred horse winning an overnight running horserace at such meeting a sum equal to 15 percent of the announced gross purse at winter thoroughbred tracks and 15 percent of the announced gross purse at summer thoroughbred tracks or \$100, whichever is greater. The amount of the breeder's award paid shall in no event be deducted from the amount of the purse. No breeder's award or stallion award shall be paid when the purse includes an award to the breeder or owner of the stallion equal to or greater than the amount herein specified. The amount paid as a breeder's award or stallion award shall not be included in estimating the value of the race to the winner. A stallion award shall be paid for all stake races, including races for Florida-breds exclusively; however, no breeder's award shall be required or paid on stake races. Whenever a registered Florida-bred horse wins a stake race, the owner or owners of the sire of the winning registered Florida-bred horse shall be entitled to a stallion award of a sum equal

to 15 percent of the announced gross purse at winter thoroughbred tracks and 15 percent of the announced gross purse at summer thoroughbred tracks, if the stallion is registered with the Florida Thoroughbred Breeders Association, and provided that the breeding of the registered Florida-bred horse occurred in Florida and that the stallion is standing permanently in Florida or, in the event of the death of the stallion, that it stood permanently in Florida for a period of not less than 1 year immediately prior to its death. Removal of a stallion from this state for any reason, other than exclusively for prescribed medical treatment, shall render the owner or owners of the stallion ineligible to receive a stallion award under any circumstances for offspring sired prior to said removal; however, if a removed stallion shall be returned to this state, all offspring sired subsequent to such return shall make the owner or owners of such stallion eligible for the stallion award, but only for those offspring sired subsequent to such return to this state. The Florida Thoroughbred Breeders Association shall maintain complete records showing the date the stallion arrived in this state for the first time, whether or not said stallion remained in the state permanently, the stallion's location, and whether the stallion is still standing in this state and complete records showing awards earned, received, and distributed and shall be permitted to charge the owner or owners or breeder a reasonable fee for this service.

(2) In order for a breeder of a Florida-bred horse to be eligible to demand and receive a breeders' award, the horse winning the race must have been registered as a Florida-bred horse with the Florida Thoroughbred Breeders Association, and the Jockey Club certificate for the winning horse must show that said winner has been duly registered as a Florida-bred horse, as evidenced by the seal and proper serial number of the Florida Thoroughbred Breeders Association registry. The Florida Thoroughbred Breeders Association shall be permitted to charge the registrant a reasonable fee for this verification and registration.

**550.39 Summer horseracing authorized for certain harness tracks.**—

(1) Any permitholder authorized by s. 550.068 to conduct horseracing in harness at any track west of the St. Johns River shall be permitted during the summer racing season, as hereinafter defined and set forth, to conduct at permittee's option and at its location up to 90 days of horseracing in harness, quarter horse or thoroughbred racing in any county of the state where no thoroughbred horse racetrack is located and established, exclusive of Sundays, upon dates allocated by the Florida Pari-mutuel Commission. Such racing may be conducted either by day or night or part by day and part by night. Provided, further that in all such counties the winter season for all pari-mutuel operations shall be during the period extending from and including October 1 in each year to and including April 15 of the following year and the summer season for all pari-mutuel operations in all such counties where horseracing in harness is conducted pursuant to s.

550.068 shall be during the period extending from and including April 16 in each year to and including September 30 of the same year.

(2) Any such permittee conducting a summer harness or thoroughbred horseracing meet shall, in lieu of the payment of taxes imposed upon such tracks as now provided by law, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee which is hereby fixed according to the following schedule:

(a) Up to \$50,000 .....	\$1,000
(b) Over \$50,000 but not more than \$100,000 .....	2,000
(c) Over \$100,000 but not more than \$150,000 .....	3,000
(d) Over \$150,000 .....	4,000

three-fourths of which daily license fee shall be distributed equally to the 67 counties and the remaining one-fourth to the General Revenue Fund. Such permittee shall also pay the breakage tax imposed on horse tracks by s. 550.26, which tax shall be distributed as therein provided.

(3) Any such permittee conducting a quarter horse race meet shall, in lieu of the payment of taxes imposed upon such tracks as now provided by law, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee, which fee is hereby fixed according to the following schedule:

(a) Up to \$200,000 .....	\$1,000
(b) Over \$200,000 but not more than \$250,000 .....	2,000
(c) Over \$250,000 but not more than \$300,000 .....	3,000
(d) Over \$300,000 but not more than \$350,000 .....	4,000
(e) Over \$350,000 but not more than \$400,000 .....	5,000

three-fourths of which daily license fee shall be distributed equally to the 67 counties and the remaining one-fourth to the General Revenue Fund. Such permittee shall also pay the breakage tax imposed on horse tracks by s. 550.26, which tax shall be distributed as therein provided.

(4) Section 550.44 shall not apply to a summer harness, thoroughbred or quarter horse racing meet conducted pursuant to the provisions of this section but in all other respects the provisions of this chapter, pertaining to the conduct of thoroughbred horse racing shall apply to such permittee except those provisions thereof which are inconsistent herewith.

**History.**—ss. 1-3, ch. 65-383; s. 1, ch. 71-98; s. 1, ch. 77-176; s. 20, ch. 79-4.

**550.40 Policy of the Legislature to authorize summer thoroughbred horse racing.**—It is the finding of the Legislature that the operation of summer thoroughbred horse racing and legalized pari-mutuel and mutuel betting at a summer thoroughbred horse racetrack in this state is a substantial business compatible to the best interest of the state and that the taxes derived therefrom will substantially benefit the state and counties. It is the further finding of the Legislature that the clientele attending a summer thoroughbred racetrack will be substantially different from the clientele attending win-

ter thoroughbred horse racetracks. It is the further finding of the Legislature that summer thoroughbred racing in the state is a new business requiring a large investment in a new summer thoroughbred horse racetrack and that a different daily license fee should be applied to the daily average mutuel pool of such summer thoroughbred horse racetrack up to a daily average mutuel pool of \$400,000. It is therefore recognized and declared to be the policy of the state that summer thoroughbred horse racing will substantially contribute to the growth and welfare of horseracing in the state, will substantially benefit the state and counties, and will enhance the incentive for the breeding of horses in the state; further that summer thoroughbred horse racing is a new business substantially different from winter thoroughbred horse racing and this enactment is made pursuant to and for the purpose of carrying out such policies.

**History.**—s. 2, ch. 69-14.

**550.41 Summer thoroughbred horse racing period authorized; additional days for charitable and scholarship purposes.**—

(1) When there are three or more thoroughbred horse racetracks operating under valid outstanding permits issued by the Division of Pari-mutuel Wagering located within a radius of 100 miles of each other, the division may issue a new permit for summer thoroughbred horseracing only. Such new permit holder within the area shall be permitted, during the period beginning on May 6 and ending on or before November 12 of each year, to conduct an additional 120 days of thoroughbred horseracing between the hours of 12 noon and 12 midnight eastern standard time or daylight saving time, exclusive of Sundays, upon dates allocated to it by the Florida Pari-mutuel Commission, which additional period of racing shall be known as the "summer thoroughbred horse racing period." The horseracing season beginning December 1 of each year and ending May 5 referred to in s. 550.04, shall hereafter be known as the annual "winter thoroughbred horse racing season."

(2) The "annual period" of operation for thoroughbred horse racetracks as used and referred to in s. 550.081 shall refer to the annual winter racing period of such horse racetracks, and the additional days of summer thoroughbred racing as authorized herein shall be in addition and supplemental thereto. In determining the tax revenue produced by a horse racetrack during its preceding year of operation as provided for and required by s. 550.081(3), there shall be excluded therefrom the tax revenues produced by a track as the result of its having conducted a horserace meet during the summer thoroughbred racing period.

(3) The limitation of days of horseracing in any one county as set forth in s. 550.08 and the provisions of ss. 550.04 and 550.29, and the provisions of s. 550.081 prohibiting the Division of Pari-mutuel Wagering from granting new permits shall not apply to the summer thoroughbred racing season or period. No racing shall be permitted on Sunday and no minors, except jockey apprentices, exercise boys, and grooms shall be permitted to attend said races or to be employed in any manner by a track.

(4) Notwithstanding anything in this act to the contrary, the Florida Pari-mutuel Commission may extend the summer thoroughbred horse racing period not to exceed 4 days in any one track beyond the period provided in subsection (1) so that any such track may conduct 4 charity days of racing for any one or more recognized and established charitable institutions located within 100 miles road travel of the racetrack holding such charity days of racing. For the purposes of this act, the University of Miami, Jacksonville University, Nova University of Advanced Technology, Children's Mental Research Foundation doing business as Hope School for Retarded Children, Inc., and other institutions of higher learning, including community colleges not already participating in charity or scholarship racing days, shall be deemed to be charitable institutions, and a portion of the proceeds available for the charitable purposes in an amount not less than 25 percent may be paid over to and for the benefit of the said charitable institutions of higher learning in said areas. The total of all profits derived from the operations of such racing on such charity days, including all moneys which would otherwise be received by the Division of Pari-mutuel Wagering as taxes for such days' operations, shall be and become a part of the charity trust fund for which such racing on such days is conducted. In determining profits derived from such racing on such charity days, which profits shall include all taxes payable to the state or any agency thereof for such days' operations without the initial expense of operational allowance provided by law for dog tracks, said tracks shall only be entitled to deduct from the profits accruing from all receipts on such charity days of racing their actual operating costs, which costs shall be those expenses incurred by the racetrack solely by reason of holding said charity days of racing and shall not be deemed to include such expenses as are constant from day to day and which would have been incurred had the race on that day not been held, including, but not limited to, such items as capital expenditures, interests on debts, real estate taxes and annual license fees, donations, bad debts, and such other items of daily or prorated expense as the Division of Pari-mutuel Wagering may by rule prescribe.

(5) In addition to any charity days as herein provided, the Florida Pari-mutuel Commission is authorized to grant 4 additional days of racing during the summer thoroughbred horse racing period upon application and agreement by any track in which specific days of any meet shall be set aside and all profit, less actual operating costs, from such specific days' operations of such track, including all taxes payable to the state or any agency thereof for such days' operations, shall be paid into the State Treasury for a scholarship trust fund which shall be administered by the Board of Regents of the state for the granting of scholarships for the purpose of attending the institutions of higher learning of the state upon such terms and conditions as the said board may from time to time prescribe. Actual operating costs of any track conducting such additional days of racing to be deducted from all receipts on such additional days of racing shall not include expenses which are constant from day to day and

which would have been incurred had the race on those days not been held, including, but not limited to, such items as capital expenditures, interests on debts, real estate taxes and annual license fees, donations, bad debts, and such other items of daily or prorated expense as the Division of Pari-mutuel Wagering may by rule prescribe.

(6) In addition to any charity days as herein provided, the Florida Pari-mutuel Commission is authorized to grant one additional day of racing during the summer thoroughbred racing period in which all profits, as defined in s. 550.03(2), from said day of operation shall be allocated and paid to the Florida State University for the use and benefit of the Florida State University Department of Intercollegiate Athletics. The total of all profits derived from operation of such racing on said additional charity day, including all moneys which would otherwise be received by the Division of Pari-mutuel Wagering as taxes for such day's operation, shall be and become a part of the charity trust fund for which such racing on such day is conducted. In addition to s. 550.03(2), all other pertinent provisions of this chapter and the rules and regulations of the Division of Pari-mutuel Wagering relating to charity days shall be applicable to the additional charity day.

(7) In addition to any charity days as herein provided, the Florida Pari-mutuel Commission is authorized to grant one additional day of racing during the summer thoroughbred racing period, in which all profits, as defined in s. 550.03(3), from said day of operation shall be allocated and paid to the Juvenile Diabetes Research Foundation for its use and benefit. The total of all profits derived from operation of such racing on said additional charity day, including all moneys which would otherwise be received by the Division of Pari-mutuel Wagering as taxes for such day's operation, shall become a part of the charity trust fund for which such racing on such day is conducted. In addition to s. 550.03(3), all other pertinent provisions of this chapter and the rules and regulations of the Division of Pari-mutuel Wagering relating to charity days shall be applicable to the additional charity day.

(8) In addition to any charity days as herein provided, the Florida Pari-mutuel Commission is authorized to grant one additional day of racing during the summer thoroughbred racing period, in which all profits as defined in s. 550.03(2) from said day of operation shall be allocated and paid to Boys' Town of Florida for its use and benefit. The total of all profits derived from operation of such racing on said additional charity day, including all moneys which would otherwise be received by the Division of Pari-mutuel Wagering as taxes for such day's operation, shall be and become a part of the charity trust fund for which such racing on such day is conducted. In addition to s. 550.03(2), all other pertinent provisions of chapter 550 and the rules and regulations of the Division of Pari-mutuel Wagering relating to charity days shall be applicable to the additional charity day.

**1550.42 Summer thoroughbred racing; tax; commission; breaks tax; admissions and occupational license tax.—**

(1) The licensee conducting a horserace meeting during the summer thoroughbred racing season shall pay a tax equal to 5.6 percent of the total contributions to all pari-mutuel pools there conducted and made on any and every horse race, which tax shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state every 30th day of the racing meet.

(2) The commission on a pari-mutuel pool on every horserace which may be withheld by the licensee and the state from the total contributions shall in no event exceed 17.6 percent.

(3) Each licensee operating a horse racetrack during the summer thoroughbred racing season shall retain the breaks tax provided for in s. 550.26. The proceeds of the breaks tax retained by the licensee shall be allocated for the payment of breeders' awards as provided in s. 550.38, and for no other purpose. Any excess proceeds after the maximum payment provided in s. 550.38 shall be paid to the State Treasurer for deposit in the General Revenue Fund.

(4) In addition to the aforesaid taxes, each person authorized to conduct race meetings under this section shall pay an admission tax as provided in s. 550.09.

(5) All persons connected with a horse racetrack in connection with its summer thoroughbred racing meet shall pay the annual occupational tax provided for in s. 550.10. However, nothing contained in this chapter or in chapter 551 shall be construed as requiring any person to purchase more than one annual occupational license from the Division of Pari-mutuel Wagering.

(6) The provisions of s. 550.11 shall apply to a horse racetrack conducting a summer thoroughbred racing meet, and no other license, excise, admissions, or occupational tax shall be levied or charged by any city, county, or town against any such horse racetrack or patron thereof, whether heretofore or hereafter authorized by special act of the Legislature.

**Note.**—Section 4, ch. 79-300, provides that s. 550.42(1), (2), (4), (5), and (6), as they existed on June 30, 1979, shall remain in effect until July 1, 1980, on which date they shall be superseded by s. 550.42(1), (2), (3), (6), (7), and (8) as they existed on May 28, 1975. Consequently, on July 1, 1980, s. 550.42 will read as follows:

**550.42 Summer thoroughbred racing; tax; commission; breaks tax; admissions and occupational license tax.—**

(1) The licensee conducting a horserace meeting during the summer thoroughbred racing season shall pay a tax equal to 5 percent of the total contributions to all pari-mutuel pools there conducted and made on any and every horserace, which tax shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state, up to an average daily amount of \$400,000, which average shall be calculated at the end of each summer thoroughbred racing period.

(2) The licensee conducting a horserace meeting during the summer thoroughbred racing season shall pay a tax equal to 8 percent of the total contributions to all pari-mutuel pools there conducted and made on any and every horserace, which tax shall be paid to the State Treasurer in his capacity as ex officio treasurer of the division, on all contributions to such pari-mutuel pools in excess of a daily average of \$400,000, which average is calculated as above. After expenses of the division are paid, the State Treasurer as ex officio treasurer of the division shall distribute said contributions as follows: 5 percent of the total contributions shall be paid into the General Revenue Fund of the state, and the remaining 3 percent shall be divided by the State Treasurer into as many equal parts as there are counties in the state, and the Treasurer shall remit one part to each county on or before December 1 of each year during which summer thoroughbred horse racing is conducted.

(3) The commission on a pari-mutuel pool on every horserace which may be withheld by the licensee and the state from the total contributions shall in no event exceed 17 percent of the amount contributed thereto, which commis-

sion shall include the percentage tax hereinabove provided for.

(4) Each licensee operating a horse racetrack during the summer thoroughbred racing season shall retain the breaks tax provided for in s. 550.26. The proceeds of the breaks tax retained by the licensee shall be allocated for the payment of breeders' awards as provided in s. 550.38, and for no other purpose. Any excess proceeds after the maximum payment provided in s. 550.38 shall be paid to the State Treasurer for deposit in the General Revenue Fund.

(5) In addition to the foregoing taxes, the licensee shall also pay the tax on admissions as provided for in s. 550.09, which tax revenues shall be distributed as provided by subsection (2).

(6) All persons connected with a horse racetrack in connection with its summer thoroughbred racing meet shall pay the annual occupational tax provided for in s. 550.10. However, nothing herein contained shall be construed as requiring such person to pay more than one annual occupational license tax.

(7) The provisions of s. 550.11 shall apply to a horse racetrack conducting a summer thoroughbred racing meet, and no other license, excise, admission, or occupational tax shall be levied or charged by any city, county, or town against any such horse racetrack, or patron thereof, whether heretofore or hereafter authorized by special act of the Legislature.

**550.43 Annual license; summer thoroughbred racing period.**—On or before January 4 of each year, beginning January 4, 1970, the thoroughbred horse racetrack desiring to conduct summer thoroughbred racing may file in writing with the Department of Business Regulation its application for permission to conduct a thoroughbred horse race meeting for a period of not to exceed 120 days, exclusive of Sundays, during the summer thoroughbred racing season commencing on or after May 6, 1970, and in each of the following years. On or before March 1 of each year, the Division of Pari-mutuel Wagering shall issue a license authorizing the permit holder to conduct a racing meet during the summer thoroughbred racing season, during the period and for the number of days set forth therein.

**History.**—s. 2, ch. 69-14; ss. 1, 2, ch. 71-98; s. 22, ch. 79-4.

**550.44 Minimum purse per race.**—The permit holder licensed to conduct a summer thoroughbred horse race meeting shall pay a minimum purse for each race conducted by it of not less than \$2,000 and shall distribute in total purse money during its meet not less than 10 percent more than its daily minimum purse requirement. Such permit holder, by application for and acceptance of a license for a summer race meeting, shall be deemed to have agreed as a condition of the grant thereof that such minimum purses will be paid. In addition to the above purses, an amount equal to 1 percent of the commission withheld on the pari-mutuel pool on each and every horserace shall be withheld by the licensee and shall be distributed among the horsemen as the Division of Pari-mutuel Wagering shall direct.

**History.**—s. 2, ch. 69-14; s. 2, ch. 71-98.

**550.45 Allocation or reallocation of racing days.**—The Florida Pari-mutuel Commission shall have the right to allocate or assign to another track or other tracks authorized to conduct summer thoroughbred horse racing, upon application therefor, any days or dates during the summer thoroughbred racing season which have not been applied for; provided the aggregate total number of summer thoroughbred horse racing days shall not exceed 120 days, exclusive of Sundays, and exclusive of charity days and scholarship days as provided for in s. 550.41(4), (5) for any one horseracing licensee during the summer thoroughbred racing period; and provided further that such application must be filed on or before January 4 of each year, beginning January 4, 1970; and provided further, that the new permit-

holder for summer thoroughbred racing shall never conduct winter thoroughbred horse racing. The permitholders for winter thoroughbred racing shall never conduct summer thoroughbred horse racing. The permitholders for winter thoroughbred horse racing in the areas described in s. 550.081 shall not conduct summer thoroughbred horse racing. However, the operator of any thoroughbred horse race-track, including a new track constructed to conduct summer thoroughbred racing, is hereby authorized to lease such track to any other permitholder holding a permit for summer thoroughbred horse racing or winter thoroughbred horse racing in the area where three or more horse racetracks in this state are located in a radius of 100 air miles of each other. The commission shall have the right to reallocate or reassign to any other track or other tracks authorized to conduct summer thoroughbred horse racing any racing dates previously allocated or assigned to a licensed thoroughbred horse racing track when said summer racing dates have been abandoned or surrendered or will not be used for any reason whatsoever; provided the aggregate total number of summer thoroughbred horse racing days permitted hereunder shall not exceed 120 days, exclusive of Sundays, and exclusive of charity days and scholarship days as provided for in s. 550.41(4), (5), for any one horseracing licensee. The failure of any thoroughbred horse racetrack to apply for dates to conduct a summer thoroughbred racing meet in any one or more years shall not preclude such track from making such application in any subsequent year.

**History.**—s. 2, ch. 69-14; s. 1, ch. 71-98; s. 23, ch. 79-4.

**550.46 Summer thoroughbred racing period, application of this chapter.**—In all respects the provisions of this chapter shall be applicable to the summer thoroughbred horse racing season herein authorized except those provisions thereof which are inconsistent herewith.

**History.**—s. 2, ch. 69-14.

**550.47 Lease of pari-mutuel facilities by pari-mutuel permitholders.**—

(1) Holders of valid pari-mutuel permits for the conduct of thoroughbred and standard-bred horse racing in this state shall be entitled to lease any and all of their facilities to any other holder of a valid pari-mutuel permit for thoroughbred or standard-bred horse racing, when located within a 35-mile radius of each other; and such lessee shall be entitled to a permit and license to operate its race meet at said leased premises.

(2) Notwithstanding the provisions of subsection (1), no thoroughbred horse racing permitholder may lease another thoroughbred horse racing permitholder's facilities unless the permittee seeking to lease facilities and the permittee owning said facilities are located within the same county.

**History.**—s. 1, ch. 71-180; s. 2, ch. 76-179.

**550.48 Totalisator licensing.**—

(1) As used in this section:

(a) "Totalisator" means a mechanical or electrical machine used for recording, computing, and displaying on the mutuel board at a pari-mutuel facility, in plain view of the public, the total amount of

sales on each race or game and the amount of award or dividend to winning patrons.

(b) "Totalisator owner or operator" means any entity engaged in the operation of totalisator machines at pari-mutuel facilities.

(2) No totalisator shall be operated at a horse-track, dogtrack, or jai alai fronton licensed pursuant to chapter 550 or chapter 551, unless the person or entity owning or operating the totalisator holds a totalisator license issued by the Division of Pari-mutuel Wagering of the Department of Business Regulation in accordance with this section.

(3) Each person connected with totalisator operations located on any horsetrack, dogtrack, or jai alai fronton licensed pursuant to chapter 550 or chapter 551 shall pay an annual totalisator license fee in the following amount:

(a) A totalisator owner or operator, \$25.

(b) An employee directly concerned with totalisator operations, \$4.

(4)(a) As a condition precedent to the annual issuance of a totalisator license, an applicant for a totalisator license agrees that the division may audit and check the books and records of any such totalisator owner or operator at any time in order to guarantee reliability, trustworthiness, and security in the operations of the totalisator. To carry out this responsibility, the division may:

1. Take testimony concerning any matter within its jurisdiction and issue summonses, subpoenas, and subpoenas duces tecum in connection with any matter within its jurisdiction, under its seal and signed by the director;

2. Make necessary public or private investigations within or outside of this state;

3. Require or permit any person to file a statement in writing, under oath or otherwise as the division determines, as to all facts and circumstances concerning the matter to be investigated; and

4. Designate an officer who may administer oaths or affirmations.

(b) Upon motion of the division or upon request of any party to such investigation or proceeding, the division shall subpoena witnesses, compel their attendance, take evidence, and require the production of any matter which is relevant to the investigation, including the existence, description, nature, custody, condition, and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of relevant facts or any matter reasonably calculated to lead to the discovery of material evidence.

(c) Upon failure to obey a subpoena or to answer questions propounded by the investigating officer and upon reasonable notice to all persons affected thereby, the division may apply to circuit court for an order compelling compliance.

(5) Each totalisator owner and operator shall conduct his operations at horsetracks, dogtracks, and jai alai frontons in accordance with rules adopted by the division, in such form, content, and frequency as the division by rule may determine.

(6)(a) The division, after due process in accordance with chapter 120, may suspend or revoke any license issued pursuant to this section at any track or fronton, upon the willful violation by the licensee

of any of the provisions of this section or of any rule adopted by the division under the provisions of this section.

(b) In lieu of the suspension or revocation of a license, the division, after notice and hearing pursuant to the provisions of chapter 120, may impose a civil penalty against any licensee for a violation of this section or any rule adopted by the division. The penalty shall not exceed \$1,000 for each count or separate offense. All penalties imposed and collected shall be deposited with the State Treasurer to the credit of the General Revenue Fund.

**History.**—s. 1, ch. 78-243; s. 158, ch. 79-164.

#### **1550.49 Legislative intent.—**

(1) It is the finding of the Legislature that the attendance and wagers at winter horse racetracks and harness tracks have significantly declined in recent years as a result of various factors not caused by the permittees, and that a continuation of such decline will seriously jeopardize state revenues as well as the future existence of these tracks.

(2) It is the further finding of the Legislature that it is in the best interest of the state to stimulate interest in all types of horseracing, in horse farms, in the horse breeding industry, and in the expansion and continuation thereof; to enhance the ability of all horse tracks to operate profitably; and to attract horses of high caliber and quality which are generally associated with the major horse tracks in the nation. The inability of the state's racetracks to match or exceed, on a consistent basis, the average daily purses necessary to make racing attractive to horse owners and Florida breeders places the industry in the position that the state's horse tracks cannot regularly compete for quality horses, and, as a result thereof, many high caliber, well-bred, quality horses do not compete in this state.

(3) It is the further finding of the Legislature that the state's horse tracks cannot offer adequate purses and breeders' awards at the existing level of pari-mutuel handle at each horse racetrack without causing a detriment to each individual permittee's solvency.

(4) It is the further finding of the Legislature that all horseracing facilities have certain fixed operational costs, which are substantial and which remain relatively uniform and consistent throughout a racing meeting, and further have substantial recurring fixed and variable operational costs and expenses, which regularly increase without regard to the level of pari-mutuel handle at a race meeting, and that such operational costs and expenses have increased to the extent that the continued existence of all horse racetracks in Florida is in jeopardy.

(5) It is the further finding of the Legislature that the level of pari-mutuel handle and attendance at the horse racetracks, compared to the increase in the substantial fixed <sup>2</sup>[costs] and variable operational costs and expenses, significantly affects the ability of all horse racetracks to continue their business operations, in that the tracks' shares of commissions withheld under current law are less than the economic value of the privilege granted to such permittees, and, therefore, an adjustment in the allocation of such commissions whereby the tracks will receive

and retain a larger share of the commissions is necessary and justified.

(6) It is the further finding of the Legislature that thoroughbred racing in Dade and Broward Counties is comprised of racing periods which traditionally generate different levels of pari-mutuel handle and different opportunities to earn profits and, as a result of the different levels of pari-mutuel handle, different levels of income to the individual permittees occur when the same tax rate is applied in each racing period. The Legislature finds, as a result thereof, that the second winter racing period provided for in s. 550.081 is the most lucrative racing period and that a greater tax should be paid by the permittee operating during said racing period in order that all racing periods be more fairly treated insofar as an opportunity to generate income is concerned. Nothing contained herein shall be construed as evidencing a legislative intent to establish any basis for classification for racing date allocations between permittees affected hereby, it being the intention of the Legislature to apportion the tax burden paid by winter thoroughbred permittees according to the varying levels of economic enjoyment of franchise privileges generated during different racing periods.

(7) It is the intention of the Legislature that the tax rates levied herein be commensurate with the privilege enjoyed so that the horserace permittees may earn an operating profit for their normal operations during the authorized racing season for each permittee as provided by law. By enacting a tax rate enabling the horserace permittees to earn an operating profit, it is the intention of the Legislature that each permittee shall operate the full number of regular racing days authorized by law during the racing period authorized for each permittee.

(8) It is the further intention of the Legislature that, prior to July 1, 1979, a complete and thorough legislative study shall be made of the tax rate of all Florida horserace permittees to review the effect of this act and to determine, if necessary, the implementation of a permanent tax decrease which shall insure the preservation of such racing and the continuation of state revenues at a level commensurate with the privilege enjoyed by the horserace permittees.

**History.**—ss. 1, 22, ch. 77-167; s. 1, ch. 79-300.

<sup>1</sup>**Note.**—The expiration of this section on July 1, 1979, was nullified by s. 1, ch. 79-300. Repealed effective July 1, 1980.

<sup>2</sup>**Note.**—Bracketed word inserted by the editors.

#### **1550.4901 Winter thoroughbred horse racing; per-race purse allowance.—**

(1) Where there are three or more permittees authorized to conduct winter thoroughbred horse racing located within a 35-mile radius of each other, it is determined that, in order to insure a more well-balanced and coordinated program of racing at said tracks, a special per-race allowance for additional overnight purses is hereby established, to be administered by the Division of Pari-mutuel Wagering under rules promulgated consistent with the provisions of this section. Funds so retained by the tracks pursuant to this section shall be distributed solely and exclusively for the payment of additional overnight purses.

(2) Each of the winter thoroughbred permittees shall be entitled to deduct, from the taxes levied on

said permittees, an amount equal to \$1800 per race per day, said \$1800 per race per day to be paid for overnight purses only.

(3) The winter thoroughbred permittees operating charity and scholarship days shall be entitled to deduct an amount equal to \$2100 per race per day on each charity day, to be retained by such permittee operating the charity and scholarship days to be distributed solely and exclusively for the payment of additional overnight purses on each charity day from which said \$2100 per race per day is deducted.

**History.**—ss. 2, 22, ch. 77-167; s. 1, ch. 79-300.

**Note.**—The expiration of this section on July 1, 1979, was nullified by s. 1, ch. 79-300. Repealed effective July 1, 1980.

**1550.4902 Winter thoroughbred horse racing; tax; commission; breaks tax; admissions and occupational license taxes.—**

(1) Notwithstanding any other provision of this chapter, a permittee conducting a horserace meeting during the winter thoroughbred racing season shall pay a tax of 5.6 percent of the total contributions to all pari-mutuel pools, except that the permittee assigned the second winter thoroughbred racing period shall pay a tax of 6.2 percent of the total contributions to all pari-mutuel pools, which taxes shall be paid to the State Treasurer for deposit in the General Revenue Fund of the state every 30th day of any and every racing meeting.

(2) The commission on a pari-mutuel pool on every horserace operated during the winter thoroughbred racing season which may be withheld by the licensee and the state from the total contributions shall in no event exceed 17.6 percent of the amount contributed thereto, which commission shall include the percentage tax hereinabove provided for.

(3) In addition to the foregoing percentage taxes, each licensee operating a horse racetrack during the winter thoroughbred racing season shall pay the tax on breaks provided for in s. 550.26, which tax revenue shall be distributed as therein provided.

(4) In addition to the aforesaid taxes, each person authorized to conduct race meetings under this section shall pay an admission tax as provided in s. 550.09.

(5) All persons connected with a horse racetrack in connection with its winter thoroughbred racing meet shall pay the annual occupational tax provided in s. 550.10. However, nothing contained in this chapter or in chapter 551 shall be construed as requiring any person to purchase more than one annual occupational license from the Division of Pari-mutuel Wagering.

#### **553.04 Bond of plumbing contractor; requisites; form.**—

(1) Any person, except an employee of a licensed, bonded plumbing contractor, who desires to engage in or work at the business of plumbing in counties in the state that have, through their boards of county commissioners, elected to place said counties under the operation of this part, shall, before engaging or working at the business of plumbing in said counties, give bond in the sum of \$5,000, payable to the governor of the state and his successors in office with two or more good and sufficient sureties to be approved by the board of county commissioners of the county in which the said person intends to engage or work as a plumbing contractor and to be filed with the clerk of the circuit court of the county in which the

said person intends to so engage or work, which said bond shall be conditioned upon the said person complying with the minimum requirements of the State Plumbing Code in regards to all plumbing done by said person in this state. Upon said plumbing contractor obtaining said bond and filing said bond with the clerk of circuit court as aforesaid, the said plumbing contractor is thereby entitled to have issued to him, by the said clerk of circuit court, a certificate to the effect that said bond has been filed by said plumbing contractor in said county. Said certificate shall be accepted, in lieu of bond, by other counties in which said plumbing contractor may desire to work.

(2) The requisite of two sureties and justification of same shall not apply where surety is by a solvent surety company authorized to do business in this state.

(3) The form of said bond shall be substantially as follows:

(b) The condition of this bond is that if the above bonded principal, the said ....., shall protect the State of Florida against all loss or damage occasioned by the negligence of the said principal herein in failing to properly execute and protect all plumbing done by said principal or the employees of said principal or under the direction and supervision of said principal and from all loss or damage occasioned by or arising in any manner from any such work done by said principal or the employees of said principal or under the direction or supervision of said principal which is not caused by the negligence of the State of Florida or its agents, or employees, or by the negligence of the agents or employees of the county in which such plumbing is performed or by the negligence of the employees of the city in which such plumbing is performed, and further will keep and observe all laws of the State of Florida relating in any way to plumbing and all local ordinances where such plumbing is done, which relate in any way to plumbing and shall do all the plumbing in compliance with the minimum requirements of the State Plumbing Code and shall further without additional cost to the person for whom the plumbing is done, remedy any defects in said work due to faulty material furnished or used by said principal and shall further reconstruct and repair any such defective plumbing work or material to the satisfaction of the county plumbing inspector of the county where such plumbing is done or to the satisfaction of the city plumbing inspector, where such plumbing is done in cities of 7,500 or more population or to the satisfaction of the city or district plumbing inspector, where such plumbing is done in cities and towns of less than 7,500 population or

(c) Any failure or default on the part of the principal in remedying any defects in plumbing due to faulty workmanship and incorrect construction or due to faulty material furnished or used by principal shall give the person for whom such work is performed a direct right of action against the principal and surety under this obligation; provided, however, that no suit, action or proceeding by reason of any default whatever shall be brought on this bond, after 1 year from the date of the final completion of such plumbing by the principal for such third person.

**553.05 County plumbing inspectors; employment, qualifications, duties; exemption of certain municipalities and districts.**—

(1) Each county in this state, acting through its board of county commissioners may, at the discretion of said board of county commissioners, employ one or more plumbing inspectors to inspect all plumbing installed within such county, except within the corporate limits of cities of 7,500 or more population. Each said plumbing inspector as aforesaid must be a practical plumber of not less than 10 years' experience and shall not be connected with

the plumbing business in any manner after such employment. The said plumbing inspector shall be under the direct supervision of the board of county commissioners, and his salary shall be determined by said board. In counties having county health units, it would be desirable to have inspector work in cooperation with such units. The said plumbing inspector shall be qualified to perform duties in matters pertaining to the gathering of evidence in any violation of the provisions of this part, swearing out warrants, appearing before courts in prosecution, and any other matters pertaining to the enforcement of the provisions of this part, but said inspector shall not be entitled to receive any witness or other fees out of the fine and forfeiture fund of any county on account of his testifying as a witness or any other services rendered by him under this part. It shall be the duty of the plumbing inspector to inspect plumbing in his county with respect to mode of installation, materials used, workmanship employed, State Plumbing Code specifications met, and testing used, all to comply with and conform with the minimum requirements of the State Plumbing Code and the laws of the state in regard to plumbing. Each said county, acting through its board of county commissioners, may exempt from county plumbing inspection cities and towns of less than 7,500 population and legislatively created governing, service, or sanitary districts, which said cities and towns and districts have in existence or which enact plumbing code ordinances meeting or surpassing the minimum requirements for plumbing as set out in State Plumbing Code and which hire only plumbing inspectors who meet the minimum requirements and qualifications as hereinabove set out for county plumbing inspectors and which said cities and towns and districts conduct inspections complying with the minimum state requirements.

(2) Two or more counties may jointly hire one or more plumbing inspectors to act as inspectors or inspector for such counties jointly hiring such inspector or inspectors.

(3) It shall be the duty of the plumbing inspectors in cities of 7,500 or more population and also in cities and towns of less than 7,500 population and legislatively created governing, service, or sanitary districts which have been exempted from county plumbing inspection by the board of county commissioners, to inspect plumbing in their respective corporate limits with respect to mode of installation, materials used, workmanship employed, State Plumbing Code specifications met, and testing used, all to comply with the minimum requirements of the State Plumbing Code and the laws of the state and the ordinances of the particular municipality or district in regard to plumbing. Cities of 7,500 or more population and also cities of less than 7,500 population and legislatively created governing, service, or sanitary districts which have been exempted from county plumbing inspection by the board of county commissioners are hereby authorized to use their own inspection system, provided the said cities and towns and districts comply with the minimum requirements of the State Plumbing Code. Nothing herein shall prohibit such cities and towns and legislatively created governing, service or sanitary dis-

tricts from enacting more stringent requirements in regard to plumbing and inspection than are set out in this part.

(4) If the board of county commissioners of any county so desires it may designate a qualified city or governing, service, or sanitary district plumbing inspector as its county plumbing inspector.

The said permit shall be issued in triplicate, the original going to the plumbing contractor, one copy to be retained by the issuing officer, who should be the plumbing inspector in the county, and one copy to be filed in the records of the county depository. All such fees shall be paid at the time of the application for a permit to do such work and prior to the installation of any plumbing material, and all such fees collected under this part shall be deposited by the plumbing inspector in the county depository and shall be used for the inspection of plumbing and the enforcement of this part in such county.

### **553.37 Rules; inspections; and insignia.—**

(1) The department is authorized to promulgate rules, enter into contracts, and do such things as may be necessary and incidental to the administration of its authority pursuant to this part.

(2) After the effective date of the rules adopted pursuant to this part, no manufactured building, except as provided in subsection (9), shall be installed in this state unless it is approved and bears the insignia of approval of the department. (6) If the department determines that the standards for construction and inspection of manufactured buildings prescribed by statute or rule of another state are at least equal to rules prescribed under this part and that such standards are actually enforced by such other state, it may provide by rule that the manufactured building which has been inspected and approved by such other state shall be deemed to have been approved by the department and shall authorize the affixing of the appropriate insignia of approval.

(7) The department, by rule, shall establish a schedule of fees to pay the cost incurred by the department for the work related to administration and

Such local requirements and rules which may be enacted by local authorities must be reasonable and uniformly applied and enforced without any distinction as to whether such building is a conventionally constructed or manufactured building. A local government shall require permit fees only for those inspections actually performed by the local government for the installation of a factory-built structure. **553.72 Intent.**—The purpose and intent of this act is to provide a mechanism for the promulgation, adoption, and enforcement of state minimum building codes which contain standards flexible enough to cover all phases of construction and which will allow reasonable protection for public safety, health, and general welfare for all the people of Florida at the most reasonable cost to the consumer.

*History.*—s. 3, ch. 74-167.

**553.73 State Minimum Building Codes.**—

(1) By January 1, 1978, local governments and state agencies with building construction regulation responsibilities shall adopt a building code which shall cover all types of construction. Such code shall

include the provisions of part V relating to accessibility by handicapped persons and shall be in addition to the requirements set forth in chapter 527, which pertains to liquefied petroleum gas, and parts I, II, and III of this chapter which pertain to plumbing, electrical, and glass construction standards, respectively.

(2) There is hereby created the State Minimum Building Codes which shall consist of the following nationally recognized model codes:

- (a) Standard Building Code, 1976 edition;
- (b) National Building Code, 1976 edition;
- (c) EPCOT Code, 1977 edition;
- (d) One and Two Family Dwelling Code; and
- (e) The South Florida Building Code, 1976 edition.

Each local government and state agency with building construction regulation responsibilities shall adopt one of the State Minimum Building Codes as its building code. If the One and Two Family Dwelling Code is adopted for residential construction, then one of the other recognized model codes must be adopted for the regulation of other residential and nonresidential structures. The State Minimum Building Codes shall include the provisions of part V relating to accessibility by handicapped persons.

(3) After January 1, 1978, local governments and state agencies with building construction regulation responsibilities may provide for more stringent requirements than those specified in the State Minimum Building Codes, provided:

(a) There is a determination by the local governing body of a need to strengthen the requirements of the State Minimum Building Codes adopted by such governing body, based upon demonstrations by the local governing body that local conditions justify more stringent requirements than those specified therein, for the protection of life and property; and

(b) Such additional requirements are not discriminatory against materials, products, or construction techniques of demonstrated capabilities.

(4) All code requirements in effect in any code enforcement jurisdiction on January 1, 1978, which are not inferior to the requirements of any model code specified in subsection (2) are presumed to meet the conditions of subsection (3).

(5) It shall be the responsibility of each municipality and county in the state and of each state agency with statutory authority to regulate building construction to enforce the specific model code of the State Minimum Building Codes adopted by that municipality, county, or agency, in accordance with the provisions of s. 553.80.

(6) The specific model code of the State Minimum Building Codes adopted by a municipality, county, or state agency shall regulate every type of building or structure, wherever it might be situated in the code enforcement jurisdiction; however, such regulations shall not apply to nonresidential farm buildings on farms, to temporary buildings or sheds used exclusively for construction purposes, or to any construction exempted under s. 553.80(3) by an enforcement district or local enforcement agency. The codes may be divided into a number of segments, as determined by the municipality, county, or state agency. These

segments, may be identified as building, mechanical, electrical, plumbing, or fire prevention codes or by other titles as are deemed proper. However, the State Minimum Building Codes shall not contain a housing code, nor shall the state interpose in the area of local housing codes, except upon request originating from an enforcement district or local enforcement agency.

(7) The board may, from time to time, make recommendations to revise, alter, repeal, or update the State Minimum Building Codes, either on its own motion or upon application from any affected industry, citizen, state agency, or political subdivision of the state. In recommending any amendment, the board shall comply with the procedural requirements of chapter 120.

#### 553.79 Application.—

(1) After the effective date of the State Minimum Building Codes adopted as herein provided, it shall be unlawful for any person, firm, or corporation to construct, erect, alter, repair, or demolish any building within the state without first obtaining a permit therefor from the appropriate enforcing agency or from such persons as may, by appropriate resolution or regulation of the enforcing agency, be delegated authority to issue said permits, upon the payment of such reasonable fees adopted by the enforcing agency. The enforcing agency shall be empowered to revoke any such permit upon a determination by the agency that the construction, erection, alteration, repair, or demolition of the building for which the permit was issued is in violation of, or not in conformity with, the provisions of the State Minimum Building Codes.

(2) After the effective date of the State Minimum Building Codes adopted as herein provided, no enforcing agency shall issue any permit for construction, erection, alteration, repair, or demolition unless it is determined to be in compliance with the State Minimum Building Codes.

(3) The State Minimum Building Codes, after the effective date of their adoption pursuant to the provisions of this part, shall supersede all other building construction codes or ordinances in the state, whether at the local or state level, and whether adopted by administrative regulation or by legislative enactment, unless such building construction codes or ordinances are more stringent than the State Minimum Building Codes and the conditions of subsection 553.73(3) are met. However, this subsection shall not apply to mobile homes as defined by chapter 320. Nothing contained in this subsection shall be construed as nullifying or divesting appropriate state or local agencies of authority to make inspections or to enforce the codes within their respective areas of jurisdiction.

(4) The State Minimum Building Codes, after the effective date of their adoption pursuant to the provisions of this part, may be modified by local governments to require more stringent standards than those specified in the State Minimum Building

Codes, provided the conditions of s. 553.73(3) are met.

**History.**—s. 10, ch. 74-167; s. 4, ch. 77-365.

#### 553.80 Enforcement.—

(1) It shall be the responsibility of each local government, each legally constituted enforcement district, and each state agency with statutory authority to regulate building construction to enforce the building code adopted by such body in accordance with s. 553.73. The governing bodies of local governments may provide a schedule of fees for the enforcement of the provisions of this part. The authority of state enforcing agencies to set fees for enforcement shall be derived from authority existing on the effective date of this act. However, nothing contained in this subsection shall operate to limit such agencies from adjusting their fee schedule in conformance with existing authority.

(2) Except for charter counties, any two or more counties or municipalities, or any combination thereof, may, in accordance with the provisions of chapter 163, governing interlocal agreements, form an enforcement district for the purpose of adopting, enforcing, and administering the provisions of the State Minimum Building Codes. Each district so formed shall be registered with the department on forms to be provided for that purpose.

(3) Each enforcement district shall be governed by a board, the composition of which shall be determined by the affected localities. At its own option each enforcement district or local enforcement agency may promulgate rules granting to the owner of a single-family residence one or more exemptions from the State Minimum Building Codes relating to:

(a) Addition, alteration, or repairs performed by the property owner upon his own property, provided any addition or alteration shall not exceed 1,000 square feet or the square footage of the primary structure, whichever is less.

(b) Addition, alteration, or repairs by a nonowner within a specific cost limitation set by rule, provided the total cost shall not exceed \$5,000 within any 12-month period.

(c) Building and inspection fees.

Each code exemption, as defined in paragraphs (a), (b), and (c), shall be certified to the local board 10 days prior to implementation and shall only be effective in the territorial jurisdiction of the enforcement district or local enforcement agency implementing it.

(4) When an enforcement district has been formed as provided herein, upon its registration with the department, it shall have the same authority with respect to building codes as provided by this part for local governing bodies.

**History.**—s. 11, ch. 74-167; s. 3, ch. 75-111; s. 5, ch. 77-365.

**553.83 Injunctive relief.**—Any code enforcing agency may seek injunctive relief from any court of competent jurisdiction to enjoin the offering for sale, delivery, use, occupancy, erection, alteration, or installation of any building covered by this part, upon an affidavit of the code enforcing agency specifying the manner in which the building does not conform to the requirements of the portion of the State Minimum Building Codes adopted in that jurisdiction.

Noncompliance with a building code promulgated under this part shall be considered prima facie evidence of irreparable damage in any cause of action brought under authority of this part.

**History.**—s. 14, ch. 74-167; s. 5, ch. 77-365.

**553.84 Statutory civil action.**—Notwithstanding any other remedies available, any person or party, in an individual capacity or on behalf of a class of persons or parties, damaged as a result of a violation of this part or the State Minimum Building Codes, has a cause of action in any court of competent jurisdiction against the person or party who committed the violation.

(b) "Gas pipeline" means an underground facility and related facilities, including pipes, valves, regulators, vaults, and attachments, by which hydrocarbons in liquid or gaseous form are transmitted or furnished. This definition shall not include gas pipelines transporting liquefied petroleum gas when those pipelines are not regulated pursuant to s. 527.06(4), and the regulation of liquefied petroleum gas pipelines, including the provisions of this law, shall continue to be under the jurisdiction of the Department of Insurance.

(c) "Excavation" means an operation in which any structure, earth, rock, or other mass of material in or on the ground is moved, removed, or otherwise displaced by means of any tool, equipment, or explosive and includes, without limitation, wrecking, razing, grading, trenching, digging, ditching, drilling, augering, tunnelling, scraping, cable or pipe plowing, and pile driving, except maintenance activities to restore road rights-of-way to original template.

(d) "Excavator" means any person performing an excavation.

(e) "Owner" means any person operating a gas pipeline.

(f) "Damage" means any contact with a gas pipeline during excavation which necessitates the owner to repair the gas pipeline or the excavator, pursuant to authorization by the owner, to repair the gas pipeline, subject to supervision and inspection by the owner.

(g) "Mark" means to indicate the horizontal location of a gas pipeline within 12 inches on either side of the gas pipeline by stakes, paint, or other suitable

means generally accepted within the gas pipeline and construction industry. Upon request by the excavator for depth locations in specific areas, depth within 18 inches vertically on either side of the gas pipeline shall be indicated.

**(2) NOTICE AND MARKING REQUIREMENTS FOR EXCAVATION.**—

(a) No excavator shall commence or perform any excavation in any public or private street, alley, right-of-way dedicated to the public use, or gas utility easement without first obtaining information concerning the possible location of gas pipelines in the area of the proposed excavation from any person having the right to bury gas pipelines within the public or private street, alley, right-of-way, or gas utility easement. Such information may be requested by telephone, letter, telegraph, or messenger or in person, at the pre-work conference for the job requiring the proposed excavation, or by calling a utility notification center operating in the area.

(b) Any owner having the right to bury gas pipelines shall file with the clerk of the circuit court and have recorded, in each county wherein the owner's gas pipelines are buried, the name, address, and telephone number of the owner from whom the necessary location information may be obtained. The clerk shall keep such records in a separate and readily available gas pipeline file.

(c) The excavator shall notify the owner in the manner prescribed in subsection (1) so that the owner receives notification at least 48 hours, excluding Saturdays, Sundays and legal holidays, prior to starting excavation.

(d) Upon receipt of a request for the location of gas pipelines, the owner shall assign such request a serial number, inform the requester of such number, and maintain a register showing the name, address, and telephone number of the requester, the site to which the request pertains, the time and date of the request, and the serial number assigned to the request, and the owner shall, within 48 hours, either mark the gas pipelines or notify the excavator that no gas pipeline exists in the area to which the request for information pertains.

(e) No political subdivision of this state shall issue a permit for excavation until the applicant for such permit certifies that he has complied with the provisions of paragraphs (a) and (c).

(f) Should any permit for excavation as described in paragraph (e) be held for more than 30 days prior to excavation, the excavator shall be required to again notify the owner not less than 48 hours or more than 5 days prior to commencing excavation.

**(3) EXCAVATION; LIABILITY FOR NEGLIGENCE; NOTICE OF DAMAGE OR DISLOCATION; EMERGENCIES.**—

(a) Obtaining information from the owner as required by subsection (2) does not excuse any excavator from performing an excavation in a careful and prudent manner, nor does it excuse such excavator from liability for any damage or injury resulting from any negligence of the excavator, provided the gas pipeline is correctly located.

(b) In the event of any damage to, or dislocation of, any gas pipelines in connection with an excavation, the excavator shall immediately notify the

owner of such damage or dislocation.

(c) The provisions of subsection (2) are not applicable to any excavator performing an excavation in an emergency involving the public health, safety, or welfare.

The words "facilitate the future installation" as used in this section shall mean the provision of readily accessible piping to allow for pipe fittings that will allow easy future connection into the system of solar water-heating equipment. It is the intent of the Legislature to minimize cost of rearranging plumbing should solar water heaters be added to buildings.

A new qualifying certificate for an outdoor facility shall be issued only when changes have been made relating to the above provisions. As the issuing authority deems necessary, additional inspections of an outdoor theater to determine whether such theater is continuing to meet the requirements of this law shall be made. The issuing authority shall have the authority to revoke a qualifying certificate for noncompliance.

*History.*—s. 2, ch. 59-311.

**559.03 Declared face value; redemption.**—No trading stamp company shall distribute trading stamps in this state or shall redeem trading stamps hereafter issued therein unless each stamp has legibly printed upon its face in cents or any fraction thereof a cash value determined by the company, and the rightful holders may, at their option, redeem the stamps in cash when duly presented to the company for redemption in a number having an aggregate cash value of not less than 25 cents.

*History.*—s. 3, ch. 59-311.

**559.04 Trading stamp companies, requisites for distribution of stamps.**—No trading stamp company shall distribute trading stamps in this state or shall redeem trading stamps hereafter issued therein until it has filed with the Department of Banking and Finance:

simultaneously therewith.

(2) BOND.—

(a) A bond payable to the Department of Banking and Finance and duly executed by the company and a corporate surety qualified to do business in this state, which is conditioned upon the performance by the company of its obligation to redeem trading stamps issued by retailers in this state, when they are duly presented for redemption by the rightful holders.

(b) The principal sum of the bond shall be as follows: If the company has not previously done business as a trading stamp company in this state, or if the company's gross income from such business in this state during its last fiscal year was not in excess of \$100,000, \$10,000; for each additional \$100,000 of gross income from such business in this state or fraction thereof, an additional \$10,000; but such bond shall not exceed \$100,000.

In the event the company defaults in the performance of its obligation to redeem trading stamps, any rightful holder may file within 3 months after such default a complaint with the department. Upon the filing of any such complaint the department shall forthwith make a determination whether there has been a default. In any such proceedings before the department, the burden of proof shall be on the issuing company to show that the claimant is not the rightful holder of trading stamps in connection with such claim. If the department shall determine that there has been such a default, it shall give notice of such determination to the company, and if such default is not corrected within 10 days it shall publish notice of such default in three consecutive publications of one or more newspapers having general circulation throughout this state and therein require that proof of all claims for redemption of the trading stamps of the company shall be filed with it, together with the trading stamps upon which the claim is based, within 3 months after date of the first such publication. The department, promptly after the expiration of such period, shall determine the

validity of all claims so filed. Thereupon, the department shall be paid by the surety such amount as shall be necessary to satisfy all valid claims so filed, together with reasonable administrative costs incident to the determination and payment of said claims, not exceeding, in the aggregate, the principal sum of the bond. The department shall promptly thereafter make an equitable distribution of the proceeds of the bond to such claimants and shall destroy the trading stamps so surrendered.

Such trust fund shall be established with any state or national bank or savings and loan association licensed in Florida; provided, that such funds deposited in a savings and loan association or savings account in a state or national bank shall be limited to an amount insured by an agency of the Federal Government. The provisions of chapter 660 shall not apply to such savings accounts. The cemetery company may appoint an individual or committee of two or more individuals to act in an advisory capacity with the trustee in the investment of the trust fund, and provided further, that a cemetery company, with the consent of the department, may change the trustee of the trust fund. If any cemetery company refuses or otherwise fails to provide or maintain an adequate care and maintenance trust fund in accordance with the provisions of this part, the department, after reasonable notice, shall proceed to enforce compliance under the powers vested in it under this act; provided any nonprofit cemetery corporation, incorporated and engaged in the cemetery business continuously since and prior to 1915 and whose current trust assets exceed \$750,000, shall not be required to designate a corporate trustee. The trust fund agreement shall contain and include the following: Name, location, and address of both the licensee and the trustee showing the date of agreement together with the percentages required deposited as stated in s. 559.43. (b) All such sums received from completed sales only exclusive of such sums on which deposits had previously been made under paragraph (a):

1. For graves, 10 percent of all payments received; provided, that after December 31, 1959, for sales made after such date, no such deposit shall be less than \$10 per grave. For each burial right, grave, or space which is not sold, but is provided without charge, the deposit to the fund shall be \$10.

2. For mausoleum or columbarium, 10 percent of payments received.

3. For general endowments care and maintenance of the cemetery, the full amount of sums received.

4. For special endowments for a specific lot, grave, or a family mausoleum, memorial, marker, or monument, the cemetery may set aside the full amounts received for this individual special care in a separate trust or by a deposit to a savings account in a bank or savings and loan association located within and authorized to do business in the state; provided, however, if the licensee does not set up a separate trust or savings account for the special endowment, the full amount thereof shall be deposited into the care and maintenance trust fund as required of general endowments.

(2) Deposits to the care and maintenance trust fund must be made by the cemetery company holding title to the subject cemetery lands not later than 5 days following the close of the calendar month in which payments were received as provided in subsection (1); however, the entire amount required to be deposited into the fund shall be paid within 4 years

from the date of any contract requiring such payment regardless of whether all amounts have been received by the cemetery company. The care and maintenance trust fund shall be invested and reinvested by the trustee under the provisions of chapter 518 as the same may be from time to time amended. The fees and other expenses of the trust fund shall be paid by the trustee from the net income thereof and may not be paid from the corpus. To the extent that the net income is not sufficient to pay such fees and other expenses, the same shall be paid by the cemetery company.

(3) Twenty-five percent of any payments made to the care and maintenance trust fund on contracts which are canceled shall be credited against future obligations to the care and maintenance trust fund, and 75 percent of any payments made shall be refunded to the purchaser.

(4) When a municipal, church-owned, or fraternal cemetery converts to a private cemetery as defined in s. 559.32, then said cemetery shall establish and maintain a care and maintenance trust fund pursuant to this section. The initial deposit for establishment of this trust fund shall be an amount equal to \$10 per space for all spaces either previously sold or contracted for sale in said cemetery at the time of conversion or \$25,000, whichever sum is greater.

(5) Each cemetery hereinafter established shall create a care and maintenance trust fund, depositing therein an initial deposit of not less than \$25,000 and submit proof thereof to the department prior to offering for sale any burial rights in grave spaces, niches, or crypts. Payments required under subsection (1) shall be credited against this initial deposit until the sum of \$25,000 is reached.

(6) In each sales contract, reservation, or agreement wherein burial rights are priced separately, the purchase price of said burial rights shall be the only item subject to care and maintenance trust fund deposits; but if the burial rights are not priced separately therein, the full amount of the contract, reservation, or agreement shall be subject to care and maintenance trust fund deposits as provided herein, unless the purchase price of said burial rights can be determined from the accounting records of the cemetery company.

(7) If an installment contract or promissory note for the purchase of a pre-need burial space or pre-need burial merchandise is sold or discounted to a third party, the entire amount due the care and maintenance trust fund or the merchandise trust fund shall be payable no later than 5 days following the close of the calendar month in which the contract was sold or discounted, unless reserves held by the purchaser of the installment contract or promissory note are equal to or greater than the amount due to the care and maintenance or merchandise trust fund.

<sup>1</sup>History.—s. 5, ch. 78-407.

**559.441 Receipts from sale of personal property or services, trust fund; penalties.**—

(1) It shall be deemed contrary to public policy if any person or legal entity receives, holds, controls, or manages funds or proceeds received from the sale of, or from a contract to sell, personal property or services which may be used in a cemetery in connection with the burial of, or the commemoration of the memory of, a deceased human being, when payments for the same are made either outright or on an installment basis prior to the demise of the person or persons so purchasing them, or for whom they are so purchased, unless such person or legal entity holds, controls, or manages said funds subject to the limitations and regulations prescribed in this section. This section shall apply to all cemetery companies or other legal entities licensed under this part that offer for sale or sell personal property or services which may be used in a cemetery in connection with the burial of, or the commemoration of the memory of, a deceased human being, but shall exclude persons holding a certificate under chapter 470 or chapter 639 when selling items described in said chapters, and shall also exclude persons or legal entities in direct written contract relationship with cemetery companies licensed and operating under the Florida Cemetery Act.

(2) Except as hereinafter provided, no cemetery company or other entity shall directly or indirectly enter into a contract for the sale of personal property or services, excluding burial or interment rights, which may be used in a cemetery in connection with disposing of, or commemorating the memory of, a deceased human being, if delivery of such personal property or performance of such service is to be made more than 120 days after receipt of final payment under such contract of sale except as provided in subsection (3)(a); however, the entire amount required to be deposited into the fund shall be paid within 7 years from the date of any contract requiring such payment regardless of whether all amounts have been received by the cemetery company. This shall include, but not be limited to, the sale for future delivery of burial vaults, grave liners, urns, memorials, vases, foundations, memorial bases, and similar merchandise and related services commonly sold or used in cemeteries and interment fees but excluding burial or interment rights.

(3)(a) Any cemetery company or other entity entering into a contract for the sale of personal property or services referred to in subsection (2) shall deposit into a trust fund established for that purpose 100 percent of the cost of the personal property or services so sold for future use or delivery; said cost (wholesale purchase price plus 10 percent) shall be determined at time of deposit to the merchandise trust fund based upon cost determined by the director of cemeteries in accordance with subsection (4). The trust fund shall be administered by a corporate trustee in accordance with a written trust instrument.

(b) The deposit herein required shall be made into the trust fund so established within 30 days after the calendar month in which final payment is received by the cemetery company or other entity.

(c) Each deposit into any such trust fund shall be identified by the cemetery company or other entity by furnishing the trustee and the purchaser with the name of the purchaser, the amount of the retail sales price, and the amount of money required to be deposited, together with a statement of or a copy of the contract for the personal property and services to be furnished by the cemetery company thereunder. Nothing herein contained shall prohibit the trustee from commingling the deposits in any such trust fund for purposes of the management thereof and the investment of funds therein.

(d) The trust shall be operated in conformity with s. 559.41 with respect to the nature and character of the trustee. Alternatively, the trust funds provided for in this section shall be deposited in a savings account in the name of the cemetery company, as trustee, with a bank, trust company, or savings and loan association incorporated under and authorized by the laws of this state or of the United States, provided that such accounts shall be fully insured by the United States or an agency or instrumentality thereof. The provisions of chapter 660 shall not apply to such savings accounts. If a cemetery company or other entity elects to maintain a savings account in its own name, as trustee, as provided herein, it shall promptly notify the department in writing of such fact and furnish the department any relevant information that the department may require in connection therewith. In addition to such notice, the cemetery company or other entity shall also execute and deliver to the bank, trust company, or savings and loan association in which the trust account is maintained a power of attorney and any other indemnification agreements that may be required by such bank, trust company, or savings and loan association for the purpose of authorizing payments or withdrawals from such trust account as a result of nondelivery or nonperformance to a purchaser or his heirs, assigns, or duly authorized representative as provided in paragraph (5)(b). The cemetery or other entity shall also furnish satisfactory evidence to the department that it has executed and delivered such instruments to such bank, trust company, or savings and loan association.

(4) Each year, the director of cemeteries shall publish a list of the cost of the personal property or services affected hereby, which shall be computed by the department based upon its independent investi-

gation and which shall include the actual wholesale purchase price plus 10 percent, and all deposits required hereunder must be determined based upon this annual cost determination.

(5)(a) The funds shall be held in trust, both as to principal and income earned thereon, and shall remain intact, except that the cost of the operation of the trust or the trust account authorized by paragraph (3)(d) may be deducted from the income earned thereon, until delivery of the merchandise is made or the services are performed by the cemetery company or other entity. Upon delivery of the merchandise or performance of the services, the cemetery company or other entity shall certify same to the trustee, or to the department if the funds are deposited in a trust account with the cemetery company or other entity as trustee. Upon such certification, the amount of money on deposit to the credit of that particular contract, including principal and income earned thereon, shall be forthwith paid to the cemetery company or other entity, or the cemetery company or other entity may withdraw such amount from the trust account maintained by it as trustee. The trustee may rely upon all such certifications herein required to be made and shall not be liable to anyone for such reliance.

(b) If for any reason a cemetery company or other entity which has entered into a contract for the sale of personal property or services and has made the deposit to the trust fund or trust account herein required to be made cannot or does not provide the personal property or perform the services called for by the contract after request in writing to do so, the purchaser or his heirs or assigns or duly authorized representative shall have the right to provide such personal property or services and, having so provided the property or services, such purchaser or his heirs or assigns or duly authorized representative shall be entitled to receive the deposit to the credit of that particular contract. Written instruction to the trustee, or to the bank, trust company, or savings and loan association in which the account is maintained, by the cemetery company or other entity directing the trustee or the bank, trust company, or savings and loan association to refund the amount of money on deposit, or an affidavit by either the purchaser or one of his heirs or assigns or duly authorized representative, stating that he has fully performed the contract, but the personal property or services were not provided because the cemetery company or other entity cannot perform, or refuses to perform, as provided in the contract, shall be sufficient authority for the trustee, bank, trust company, or savings and loan association to make refund of the deposit moneys to the person submitting the affidavit. The trustee, bank, trust company, or savings and loan association shall not be held responsible for any such refunds made on account of the cemetery company's or other entity's written direction or an affidavit submitted in accord with this section. However, nothing herein contained shall relieve the cemetery company or other entity from any liability for nonperformance of the contract terms.

(c) In the event the cemetery company or other entity cannot deliver the personal property sold because of a national emergency, the provisions of par-

agraph (b) shall not apply.

(6) If after final payment a purchaser moves his domicile to a point that makes delivery of the merchandise or services impossible or impractical, the said trustee shall refund the principal amount of money on deposit to the credit of that particular contract and the income earned thereon, less a pro rata share of expenses of trust.

(7) Every year after the effective date of this act, the trustee shall, within 75 days after the end of its fiscal year file a financial report of the merchandise trust fund with the department, setting forth the principal thereof, the investments and payments made, and the income earned and disbursed. The department may require the trustee to make such additional financial reports as it may deem advisable. If the account is held by the cemetery company or other entity as trustee, the department may require the bank, trust company, or savings and loan association in which the account is maintained to furnish written verification of the financial report required to be submitted by the cemetery company or other entity.

(8) The department shall have the power, and is required from time to time as it may deem necessary, to examine the business of any cemetery company or other entity writing contracts for the sale of the property or services as herein contemplated. Such examination shall be made at the expense of the person examined, and shall be made by the department or its designated representative. The written report of such examination shall be filed in the office of the department. Any persons or entities being examined shall produce all records of the company, including those records of the company held by the bank, trust company, or savings and loan association in which the account is maintained.

(9) Any provision of any contract for the sale of the personal property or the performance of services herein contemplated under which the purchaser or beneficiary waives any of the provisions of this section shall be void.

(10) Nothing in this section shall apply to persons or legal entities holding licenses or certificates under chapters 470 and 639 when performing services or selling items authorized by said chapters.

#### **§559.45 Financial report of company affairs.—**

The department shall require each cemetery company to submit a report of its condition, on forms provided by the department, as of such date as it may fix, at least once each calendar or fiscal year, or as often as it may order, and such report shall be submitted within 105 days after the end of the calendar or fiscal year or other reporting period as the case may be. Should the report not be received within the stipulated time, the department shall collect a penalty of \$5 per day for each day of delinquency; provided, that upon application to the department prior to the expiration of the 105 days, and for good cause

Applications for such license must be submitted on or before December 31 each and every year in the case of an existing cemetery company and before any sale of cemetery property in the case of a new cemetery company or a change of ownership or control as indicated in s. 559.34. **559.481 Minimum acreage; sale or disposition of cemetery lands.**—

(1) Each licensee shall set aside a minimum of 30 acres of land for use by said licensee as a cemetery and shall not sell, mortgage, lease, or encumber the same without prior written approval of the department. Prior to issuance of a license by the department pursuant to s. 559.33, the applicant shall furnish to the department satisfactory evidence that the applicant has recorded, in the public records of the county in which the land is located, a notice which contains the following language:

**NOTICE**

The property described herein shall not be sold, conveyed, leased, mortgaged, or encumbered without the prior written approval of the Department of Banking and Finance, as provided in the Florida Cemetery Act.

Such notice shall be clearly printed in boldface type of not less than 10 points, and such notice may be included on the face of the deed of conveyance to the licensee, or may be contained in a separate instrument which contains a description of the property if such instrument is recorded as provided herein.

(2) The fee simple title, or lesser estate, in any lands owned by licensee and dedicated for use by it as a cemetery, which are contiguous, adjoining, or adjacent to the minimum of 30 acres described in subsection (1), may be sold, conveyed, or disposed of,

or any part thereof, by the licensee, for use by the new owner for other purposes than as a cemetery; provided that all of the bodies which have been previously interred therein have been removed from the lands so proposed to be sold, conveyed, or disposed of; and provided further, that any and all titles, interests, or burial rights, which may have been sold or contracted to be sold in such lands which are the subject of such sale, shall be conveyed to and revested in the licensee prior to consummation of any such sale, conveyance, or disposition.

(3) Any licensee may convey and transfer to a municipality or county its real and personal property, together with moneys deposited with the trustee; provided said municipality or county will accept responsibility for maintenance thereof, and prior written approval of the department is first obtained.

(4) The provisions of subsections (1) and (2) relating to a requirement for minimum acreage shall not apply to those cemeteries licensed by the department on or before July 1, 1965, which own or control a total of less than 30 acres of land; provided that such cemeteries shall not dispose of any of such lands without the prior written consent of the department.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**559.482 Construction of mausoleums and belowground crypts; trust fund for receipts from sale of preconstruction crypts; compliance requirement.**—

(1) A cemetery company shall be required to start construction of that section of a mausoleum or bank of belowground crypts in which sales, contracts for sales, reservations for sales, or agreements for sales are being made, within 48 months after the date of the first such sale. The construction of such mausoleum section or bank of belowground crypts shall be completed within 5 years after the date of the first sale made. However, extensions for completion, not to exceed 1 year, may be granted by the department for good reasons shown if a section of a mausoleum or a bank of belowground crypts shall contain more than 500 crypts.

(2) A cemetery company which plans to offer for sale space in a section of a mausoleum or bank of underground crypts prior to its construction shall establish a preconstruction trust fund by written instrument and administered by a corporate trustee and operated in conformity with s. 559.41. This preconstruction fund shall be exclusive of the merchandise trust fund provided for in s. 559.441 of this chapter or such other trust funds that may be required by law.

(3) Before a sale, contract for sale, reservation for sale or agreement for sale in the first mausoleum section or bank of underground crypts in each cemetery may be made, the funds (110 percent of construction cost) to be deposited to the preconstruction trust fund shall be computed as to said section or bank of crypts, and such fund payments must be made within 30 days of receipt by the cemetery company or its agent of each payment. The fund portion of each such payment shall be computed by dividing

the cost of the project plus 10 percent of said cost, as computed by a licensed contractor, engineer, or architect, by the number of crypts in the section or bank of crypts to ascertain the cost per unit. The unit cost shall be divided by the contract sales price of each unit to obtain a percentage which shall be multiplied by the amount of each payment. The formula shall be computed as follows:

$$\frac{\text{Cost plus 10 percent}}{\text{Number of crypts}} = \text{Cost per unit}$$

$$\frac{\text{Cost per unit}}{\text{Contract sales price}} = \text{Percentage}$$

$$\text{Percentage} \times \text{payment received} = \text{Deposit required to preconstruction fund.}$$

(4) Upon completion of the mausoleum section or bank of underground crypts, the cemetery company shall certify same to the trustee and shall be entitled to withdraw all funds deposited to the account thereof.

(5) If said mausoleum section or bank of underground crypts is not completed within the time limits set out in this section, the trustee shall contract for and cause said project to be completed and pay therefor from the trust funds deposited to the project's account paying any balance, less cost and expenses, to the cemetery company.

(6) In lieu of the payments outlined hereunder to the preconstruction fund the cemetery company may deliver to the department a good and sufficient completion or performance bond in an amount and by surety companies acceptable to the department.

(e) Every trustee and officer if the applicant is a trust.

(2) Such other reasonable data, financial statements and pertinent information as the department may require with respect to the applicant, its directors, trustees, officers, members, branches, subsidiaries, and affiliates.

**History.**—s. 5, ch. 65-174; ss. 12, 35, ch. 69-106; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§560.06 Application, investigation fee, bond, deposit of securities in lieu of bond.—**Each application for a license shall be accompanied by:

(1) An investigation fee of \$250, which shall be paid by each applicant which is an issuing company and which shall not be subject to refund, but which, if the license be granted, shall constitute the license fee for its first license year or part thereof, and also a fee for each location, as provided in s. 560.10.

(2) A surety bond, issued by a bonding company or insurance company authorized to do business in this state, in the principal sum of \$450,000 and in an additional principal sum of \$5,000 for each location in excess of one at or through which the applicant proposes to sell or issue money orders in this state. In no event shall the bond be required to be in excess of \$500,000. The application shall also be accompanied by a list which designates and sets forth the name and address of each branch, subsidiary, agent, or other location at or through which the applicant proposes to issue or sell money

orders. Each company shall also file annually, at the time of application for license, a supplemental or amended list which shall set forth each location which was in operation at any time from and after July 1, 1973, up to date of filing such list; and thereafter, beginning on April 30, 1974, such amended list shall show all such locations which were in operation at any time during the preceding year. The bond shall be in a form satisfactory to the department and shall run to the state for the benefit of any claimants against the applicant or his agents to secure the faithful performance of the obligations of the applicant and his agents with respect to the receipt, handling, transmission, and payment of money in connection with the sale of money orders. The aggregate liability of the surety in no event shall exceed the principal sum of the bond. Such claimants against the applicant or his agents may themselves bring suit directly on the bond, or the Department of Legal Affairs may bring suit thereon in behalf of such claimants, either in one action or in successive actions.

(3) In lieu of such corporate surety bond or bonds, or of any portion of the principal thereof as required by this section, the applicant may deposit with the State Treasurer securities approved by and acceptable to the department in an aggregate amount, based upon principal amount or market value, whichever is lower, of not less than the amount of the required corporate surety bond or portion thereof. The securities eligible for deposit hereunder shall meet the same requirements as are provided by law for securities eligible to be deposited by banks to secure deposits of state funds. The securities shall be deposited with the Treasurer as aforesaid and held to secure the same obligations as would the corporate surety bond, but the depositor shall be entitled to receive all interest and dividends thereon, shall have the right, with the approval of the department, to substitute other securities for those deposited, and shall be required so to do on written order of the department made for good cause shown.

(4) Financial statements reasonably satisfactory to the department.

If it finds that such qualifications have been met, and if it approves said bond and other documents, it shall issue to the applicant a license to engage in the business of selling and issuing money orders in this state. Any license issued pursuant to this act shall remain in force and effect through April 30 next following its date of issuance unless earlier surrendered, suspended or revoked.

**History.**—s. 7, ch. 65-174; ss. 12, 35, ch. 69-106; s. 3, ch. 76-168; s. 1, ch. 77-457.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior

to that date.

**§560.08 Maintenance of qualification of licensee required; renewal of bond; notice of cancellation.—**

(1) After a license has been granted, the licensee shall at all times have and maintain the qualifications required by this act for the granting of an original license pursuant to this act, and shall maintain said bond or securities in the amount prescribed by this act.

(2) Each licensee who does not have on file or deposit a bond or securities in the undiminished principal sum of \$500,000 shall file quarter-annual reports with the department setting forth the locations, including the full names and addresses of such locations at or through which he sells or issues money orders in this state as of January 1, April 1, July 1, and October 1 in each year, the report for each such date being due on or before the fifteenth day thereafter. Within 10 days following the filing of such a report, the principal sum of the bond or securities shall be increased to reflect any increase in the number of locations, and may be decreased to reflect any decrease in the number of locations.

(3) If the department shall at any time reasonably determine that the bond or securities aforesaid are insecure, deficient in amount, or exhausted in whole or in part, it may by written order require the filing of a new or supplemental bond or the deposit of new or additional securities in order to secure compliance with this act, such order to be complied with within 30 days following service thereof upon the licensee.

(4) A bond filed with the department for purposes of compliance with this act may not be canceled either by the licensee or the corporate surety except upon notice to the department by registered or certified mail with return receipt requested, the cancellation to be effective not less than 30 days after receipt by the department of such notice.

(5) The corporate surety, shall within 10 days after it pays any claim to any claimant, give notice to the department by registered or certified mail of such payment with details sufficient to identify the claimant and the claim or judgment so paid. Whenever the principal sum of such bond or securities is reduced by one or more recoveries or payments, the licensee shall furnish a new or additional bond or new or additional securities so that the total or aggregate principal sum of such bond or securities shall equal the sum required under s. 560.06(2), or shall furnish an endorsement duly executed by the corporate surety reinstating the bond to the required principal sum thereof.

**Note.**—Repealed by s. 3, ch. 76-168, as amended by s. 1, ch. 77-457, effective July 1, 1980, except for the possible effect of laws affecting this section prior to that date.

**§560.09 Renewal of license or certificate; annual license fee.**—A license and the certificates of agents or subagents may be renewed for the 12-month period or the remainder of any such period without proration following the date of its expiration, upon the filing with the department of an application and other statements and documents as may reasonably be required of licensees by the depart-

ment, showing that the licensee remains qualified for such license under the provisions of this act. Such renewal application and registration of agents shall be filed on or after January 1 of the year in which the existing license and certificates expire and prior to the expiration date of the existing license and certificates. If the application is filed prior to the expiration date of an existing license, no investigation fee shall be payable in connection with such renewal application, but an annual license fee of \$250 plus the fees due under s. 560.10 shall be paid with each renewal application which shall not be refunded or prorated if the renewal application is approved and the renewal license thereunder goes into effect. If a renewal application and request for agent certificates is filed with the department before April 1 of any year, the license and certificates sought to be renewed shall continue in force until the issuance by the department of the renewal applied for or until 20 days after the department shall have refused to issue such renewal.

The payment of this \$2,500 total annual fee shall be accompanied by a written designation of all agents, subagents, branches, affiliates, or locations which were not set forth in the original application.
